Peter Catapano, Rosemarie Garland-Thomson

About Us: Essays from the Disability Series of the New York Times Peter Catapano, Rosemarie Garland-Thomson, 2019-09-03 Based on the pioneering New York Times series, *About Us* collects the personal essays and reflections that have transformed the national conversation around disability. Boldly claiming a space in which people with disabilities can be seen and heard as they are—not as others perceive them—*About Us* captures the voices of a community that has for too long been stereotyped and misrepresented. Speaking not only to those with disabilities, but also to their families, coworkers and support networks, the authors in *About Us* offer intimate stories of how they navigate a world not built for them. Since its 2016 debut, the popular New York Times’ “Disability” column has transformed the national dialogue around disability. Now, echoing the refrain of the disability rights movement, “Nothing about us without us,” this landmark collection gathers the most powerful essays from the series that speak to the fullness of human experience—stories about first romance, childhood shame and isolation, segregation, professional ambition, child-bearing and parenting, aging and beyond. Reflecting on the fraught conversations around disability—from the friend who says “I don’t think of you as disabled,” to the father who scolds his child with attention differences, “Stop it stop it stop it what is wrong with you?”—the stories here reveal the range of responses, and the variety of consequences, to being labeled as “disabled” by the broader public. Here, a writer recounts her path through medical school as a wheelchair user—forging a unique bridge between patients with disabilities and their physicians. An acclaimed artist with spina bifida discusses her art practice as one that invites us to “stretch ourselves toward a world where all bodies are exquisite.” With these notes of triumph, these stories also offer honest portrayals of frustration over access to medical care, the burden of social stigma and the nearly constant need to self-advocate in the public realm. In its final sections, *About Us* turns to the questions of love, family and joy to show how it is possible to revel in life as a person with disabilities. Subverting the pervasive belief that disability results in relentless suffering and isolation, a quadriplegic writer reveals how she rediscovered intimacy without touch, and a mother with a chronic illness shares what her condition has taught her young children. With a foreword by Andrew Solomon and introductory comments by co-editors Peter Catapano and Rosemarie Garland-Thomson, *About Us* is a landmark publication of the disability movement for readers of all backgrounds, forms and abilities. Topics Include: Becoming Disabled • Mental Illness is not a Horror Show • Disability and the Right to Choose • Brain Injury and the Civil Right We Don’t Think • The Deaf

Body in Public Space • The Everyday Anxiety of the Stutterer • I Use a Wheelchair. And Yes, I'm Your Doctor • A Symbol for "Nobody" That's Really for Everybody • Flying While Blind • My \$1,000 Anxiety Attack • A Girlfriend of My Own • The Three-Legged Dog Who Carried Me • Passing My Disability On to My Children • I Have Diabetes. Nothing About Us Without Us James I. Charlton, 1998-03-27 James Charlton has produced a ringing indictment of disability oppression, which, he says, is rooted in degradation, dependency, and powerlessness and is experienced in some form by five hundred million persons throughout the world who have physical, sensory, cognitive, or developmental disabilities. *Nothing About Us Without Us* is the first book in the literature on disability to provide a theoretical overview of disability oppression that shows its similarities to, and differences from, racism, sexism, and colonialism. Charlton's analysis is illuminated by interviews he conducted over a ten-year period with disability rights activists throughout the Third World, Europe, and the United States. Charlton finds an antidote for dependency and powerlessness in the resistance to disability oppression that is emerging worldwide. His interviews contain striking stories of self-reliance and empowerment evoking the new consciousness of disability rights activists. As a latecomer among the world's liberation movements, the disability rights movement will gain visibility and momentum from Charlton's elucidation of its history and its political philosophy of self-determination, which is captured in the title of his book. *Nothing About Us Without Us* expresses the conviction of people with disabilities that they know what is best for them. Charlton's combination of personal involvement and theoretical awareness assures greater understanding of the disability rights movement.

Saving Us Katharine Hayhoe, 2022-09-20 United Nations Champion of the Earth, climate scientist, and evangelical Christian Katharine Hayhoe changes the debate on how we can save our future in this nationally bestselling “optimistic view on why collective action is still possible—and how it can be realized” (The New York Times). Called “one of the nation’s most effective communicators on climate change” by The New York Times, Katharine Hayhoe knows how to navigate all sides of the conversation on our changing planet. A Canadian climate scientist living in Texas, she negotiates distrust of data, indifference to imminent threats, and resistance to proposed solutions with ease. Over the past fifteen years Hayhoe has found that the most important thing we can do to address climate change is talk about it—and she wants to teach you how. In *Saving Us*, Hayhoe argues that when it comes to changing hearts and minds, facts are only one part of the equation. We need to find shared values in order to connect our unique identities to collective action. This is not another doomsday narrative about a planet on fire. It is a multilayered look at science, faith, and human psychology, from an icon in her field—recently named chief scientist at The Nature Conservancy. Drawing on interdisciplinary research and personal stories, Hayhoe shows that small conversations can have astonishing results. *Saving Us* leaves us with the tools to open a dialogue with your loved ones about how we all can play a role in pushing forward for change.

Underwriters of the United States Hannah Farber, 2021-10-28 Unassuming but formidable, American maritime insurers used their position at the pinnacle of global trade to shape the new nation. The international information they gathered and the capital they generated enabled them to play central roles in state building and economic development. During the Revolution, they helped the U.S. negotiate foreign loans, sell state debts, and establish a single national bank. Afterward, they increased their influence by lending money to the federal government and to its citizens. Even as federal and state governments began to encroach on their domain, maritime insurers adapted, preserving their autonomy and authority through extensive involvement in the formation of commercial law. Leveraging their claims to unmatched expertise, they operated free from government interference while simultaneously embedding themselves into the nation's institutional fabric. By the early nineteenth century, insurers were no longer just risk assessors. They were nation builders and market makers. Deeply and imaginatively researched, *Underwriters of the United States* uses marine insurers to reveal a startlingly original story of risk, money, and power in the founding era.

The Sum of Us Heather McGhee, 2021-02-16 NEW YORK TIMES BESTSELLER • LONGLISTED FOR THE NATIONAL BOOK AWARD • One of today's most insightful and influential thinkers offers a powerful exploration of inequality and the lesson that generations of Americans have failed to learn: Racism has a cost for everyone—not just for people of color. WINNER OF THE PORCHLIGHT BUSINESS BOOK AWARD • ONE OF THE BEST BOOKS OF THE YEAR: Time, The Washington Post, St. Louis Post-Dispatch, Ms. magazine, BookRiot, Library Journal “This is the book I’ve been waiting for.”—Ibram X. Kendi, #1 New York Times bestselling author of *How to Be an Antiracist* Look for the author’s new podcast, *The Sum of Us*, based on this book! Heather McGhee’s specialty is the American economy—and the mystery of why it so often fails the American public. From the financial crisis of 2008 to rising student debt to collapsing public infrastructure, she found a root problem: racism in our politics and policymaking. But not just in the most obvious indignities for people of color. Racism has costs for white people, too. It is the common denominator of our most vexing public problems, the core dysfunction of our democracy and constitutive of the spiritual and moral crises that grip us all. But how did this happen? And is there a way out? McGhee embarks on a deeply personal journey across the country from Maine to Mississippi to California, tallying what we lose when we buy into the zero-sum paradigm—the idea that progress for some of us must come at the expense of others. Along the way, she meets white people who confide in her about losing their homes, their dreams, and their shot at better jobs to the toxic mix of American racism and greed. This is the story of how public goods in this country—from parks and pools to functioning schools—have become private luxuries; of how unions collapsed, wages stagnated, and inequality increased; and of how this country, unique among the world’s advanced economies, has thwarted universal healthcare. But in unlikely places of worship and work, McGhee finds proof of what she calls the Solidarity Dividend: the benefits we gain when people come together across race to accomplish what we simply can’t do on our own. *The Sum of Us* is not only a brilliant analysis of how we arrived here but also a heartfelt message, delivered with startling empathy, from a black woman to a multiracial America. It leaves us with a new vision for a future in which we finally realize that life can be more than a zero-sum game. LONGLISTED FOR THE ANDREW CARNEGIE MEDAL
