Transactions on Aspect-Oriented Software Development I Awais Rashid,2006-03-06 Publisher description: The LNCS Journal on Transactions on Aspect-Oriented Software Development is devoted to all facets of aspect-oriented software development (AOSD) techniques in the context of all phases of the software life cycle, from requirements and design to implementation, maintenance and evolution. The focus of the journal is on approaches for systematic identification, modularization, representation and composition of crosscutting concerns, i.e., the aspects, evaluation of such approaches and their impact on improving quality attributes of software systems. This book, the first volume in the Transactions on Aspect-Oriented Software Development series, presents nine revised papers that have been through a careful peer reviewing process by the journal's Editorial Board. The papers cover a wide range of topics from software design to implementation of aspect-oriented languages. The first four articles address various issues of aspect-oriented modeling at the design level; the following four articles discuss various programming language issues. The final article in this volume describes a workbench for implementing aspect-oriented languages, so that easy experimentation with new language features and implementation techniques are possible.

Building Multichannel Applications with WebSphere Commerce Rufus Credle,Sribha Jain,Nicolai Nielsen,Leonardo Ramirez,Anand Tamariya,Fu Liang Wang,IBM Redbooks,2010-02-24 This IBM® Redbooks® publication discusses the value proposition of cross-channel solutions and describes the IBM Retail Integration Framework Commerce Product Strategy solution and service-oriented architecture (SOA) as an enabler. In depth, this book describes cross-channel processes and cross-channel features and proposes scenarios and configurations to meet the challenges in a competitive environment. This book describes the latest features and techniques of IBM WebSphere® Commerce Version 7. In it, we present an overview of the WebSphere Commerce order and inventory management systems, the distributed order management (referred to as DOM throughout this book) integration framework, and a sample DOM integration scenario. We discuss the Madisons starter store (Web 2.0 storefront) and present a hands-on experience that integrates MapQuest with the WebSphere Commerce V7 Store Locator feature. We discuss how a merchant can use the mobile features that are included in WebSphere Commerce V7 to define e-Marketing Spots and promotion for mobile users. In addition, we demonstrate how to use Google Maps with the Store Locator feature on a mobile device. We include in this book an example about how to apply WebSphere Commerce features on a cross-channel solution as applied at the Easy Hogary Construcccion home improvement retail company in South America. The scenario explains how to scale from an SOA store to a cross-channel business model. This book is designed for use by WebSphere Commerce developers, practitioners, and solution architects in various industries.

Retirement Places Rated David Savageau, 2007-09-24 The bestselling guide to the best places to retire in the United States. Completely revised and updated, Retirement Places Rated is an indispensable reference for the estimated 40 million

Americans who will be 65 or older by 2010. Dividing the United States into 18 regions and 200 cities, towns, and counties, retirement quality-of-life expert David Savageau draws a detailed statistical portrait of each locale, ranking each for cost of living, climate, crime, services, employment opportunities, and leisure and recreational amenities. A rundown of the top 30 overall retirement places along with assessment tools, easy-to-read graphs and charts, interpretive commentaries by the author, and extensive appendices help retirees evaluate their relocation choices and make the right move. For the seventh edition, new features include: 22 new places A new chapter on housing, with data on shelter choices (homes, condos, apartments, and mobile homes), plus home prices and property taxes An expanded ambience chapter, and new data on age, education, politics, and diversity An expanded services chapter, with new data on air travel, physician specialties, and hospital services Easy-to-use relocation resources, including Web sites, addresses, books, and other information David Savageau Washington DC has traveled throughout the country since 1982, visiting locations that attract older adults. He wrote the Quality of Life column for Expansion Management magazine, and has been a featured speaker at the U.S. Department of State's quarterly seminars on retirement.

Secure and Trustworthy Service Composition Achim Brucker, Fabiano Dalpiaz, Paolo Giorgini, Per Håkon Meland, Erkuden Rios, 2014-11-26 The Future Internet envisions a move toward widespread use of services as a way of networked interaction. However, while the technologies for developing and deploying services are well established, methods for ensuring trust and security are fewer and less mature. Lack of trust and confidence in composed services and in their constituent parts is reckoned to be one of the significant factors limiting widespread uptake of service-oriented computing. This state-of-the-art survey illustrates the results of the Aniketos - Secure and Trustworthy Composite Services - project (funded under the EU 7th Research Framework Programme). The papers included in the book describe the solutions developed during the 4-year project to establish and maintain trustworthiness and secure behavior in a constantly changing service environment. They provide service developers and providers with a secure service development framework that includes methods, tools, and security services supporting the design-time creation and run-time composition of secure dynamic services, where both the services and the threats are evolving. The 16 chapters are organized in the following thematic sections: state of the art of secure and trustworthy composite services; the Aniketos platform; design-time support framework; run-time support framework; and case studies and evaluation.
