Richard Flathman

Sonotaw William C. Sayres, 1959

The War of the Ghosts and Machines Mike Hockney, Are you a ghost or a machine? You don't need to be a superstitious believer to support the side of the ghosts. Machine people reduce everything to lifeless, mindless, purposeless atoms of matter: the ultimate little machines. For ghost people, reality reduces to dimensionless, mathematical singularities, which are none other than the hyperrational monadic souls posited by Pythagoras and Leibniz. Ghost people subscribe to atoms (minds) with atomic number zero, i.e. minds/souls are made of massless, dimensionless photons. Machine people start with hydrogen atoms, with atomic number one. All ghost entities are associated with zero and infinity. All machine people deny the existence of zero and infinity. Mathematically, these are the two numbers where the ghosts and the machines collide head on. This book is all about demonstrating that there are indeed ghosts in the machines.

Willful Liberalism Richard Flathman, 2018-08-06 In this book Richard E. Flathman argues vigorously for a new understanding of the proper place of voluntarism, individuality, and plurality in the political and moral theory of liberalism. Giving close and sympathetic attention to thinkers who are seldom considered in debates about liberalism, he draws upon thinking within and outside the liberal canon to articulate a refashioned liberalism that gives a more secure prominence to plurality and a robust individuality. Flathman focuses on political philosophers whose work deals with willfulness and the will in human practice. He is concerned with the thinking of such nominalist medieval theologians as John Duns Scotus and William of Ockham; of Hobbes; and of Arthur Schopenhauer, Friedrich Nietzsche, and William James. He also explores the writings of such contemporary philosophical psychologists as Brian O'Shaughnessy and, in particular, Wittgenstein, and of such twentiethcentury political theorists as Isaiah Berlin, John Rawls, Hannah Arendt, and especially Michael Oakeshott. Appropriating ideas from widely disapproved thinkers and from theological sources commonly thought to be incompatible with liberalism, he formulates what is in many ways a strongly personal statement, one that is unorthodox and potentially disturbing. Sharply controversial, *Willful Liberalism* is certain to enliven and invigorate political and moral debate, and it may well help to revive liberalism as the dominant public philosophy of our culture, setting it on a new and better course.

Playwrights for Tomorrow Arthur H. Ballet,1966 Five writers are represented in this third volume of a series of collections of plays by dramatists who have participated in an experimental program conducted at the University of Minnesota by the Office for Advanced Drama Research. Dr. Arthur H. Ballet, editor of the series, is the director of the program. The plays in this volume are Five Easy Payments by John Lewin, Where Is de Queen? by Jean-Claude van Itallie, The Great Git-Away by Romeo Muller, With Malice Aforethought by John Stranack, and I, Elizabeth Otis, Being of Sound Mind by Philip Barber. As Dr. Ballet explains in his introduction, the program of the Office for Advanced Drama Research provides a testing ground for promising playwrights by giving them a chance to have their plays actually produced. Publication of the plays makes them available to larger audiences and to further critical appraisal.

Chasing the Scream Johann Hari,2015-01-20 The New York Times Bestseller What if everything you think you know about addiction is wrong? Johann Hari's journey into the heart of the war on drugs led him to ask this question--and to write the book that gave rise to his viral TED talk, viewed more than 62 million times, and inspired the feature film The United States vs. Billie Holiday and the documentary series The Fix. One of Johann Hari's earliest memories is of trying to wake up one of his relatives and not being able to. As he grew older, he realized he had addiction in his family. Confused, not knowing

what to do, he set out and traveled over 30,000 miles over three years to discover what really causes addiction--and what really solves it. He uncovered a range of remarkable human stories--of how the war on drugs began with Billie Holiday, the great jazz singer, being stalked and killed by a racist policeman; of the scientist who discovered the surprising key to addiction; and of the countries that ended their own war on drugs--with extraordinary results. Chasing the Scream is the story of a life-changing journey that transformed the addiction debate internationally--and showed the world that the opposite of addiction is connection.

Watching My Language: William Safire, 2011-08-03 America's most entertaining language maven is back with more words to live by in his latest exploration of hot catchphrases, syntactical controversies, and other matters of national linguistic importance. Before you scratch that seven-year-itch, you might want to know where it came from. And before someone blurts, You just don't get it, perhaps you should consult the Pulitzer Prize winning language columnist on the origins of that snappy feminist motto.

Embracing the Dragon Polly Greer, 2004 This vivid recollection follows one woman's remarkable journey walking the Great Wall of China. Polly Greer walked further than any European woman to date--over jagged mountain passes, into villages which had never seen a European woman, and through a blizzard that nearly claimed her life.

Great Tide Rising Kathleen Dean Moore, 2016-02-01 Even as seas rise against the shores, another great tide is beginning to rise—a tide of outrage against the pillage of the planet, a tide of commitment to justice and human rights, a swelling affirmation of moral responsibility to the future and to Earth's fullness of life. Philosopher and nature essayist Kathleen Dean Moore takes on the essential questions: Why is it wrong to wreck the world? What is our obligation to the future? What is the transformative power of moral resolve? How can clear thinking stand against the lies and illogic that batter the chances for positive change? What are useful answers to the recurring questions of a storm-threatened time - What can anyone do? Is there any hope? And always this: What stories and ideas will lift people who deeply care, inspiring them to move forward with clarity and moral courage?

Modern French Poetry Joseph Twadell Shipley, 1926

Eight Steamboats Patrick Livingston, 2004 In the 1960s, an era of widespread social turbulence, the shipping industry in the Great Lakes was on the threshold of immense change. Developed during World War II, the U.S. merchant fleet faced threatening competition from the newer Canadian fleet. The demand for iron ore skyrocketed as baby boomers matured into the age of auto and appliance buying. To meet the increasing need, there was talk of expanding the size of the Soo Locks to accommodate larger vessels and even of lengthening the shipping season. It was glaringly obvious that a time of change was upon the aging U.S. ships and even more so on the men who sailed them. *Eight Steamboats* chronicles Patrick Livingston's adventures on eight shipping vessels-only one of which survives-during the 1960s. Told from the perspective of a writer who sails rather than a sailor who writes, the tales are spiced with connections between shore and sea. While the city of Detroit burned in 1967, Livingston served milkshakes to passengers on the South American of the Georgian Bay Lines. Later, Livingston sailed with the notorious George Bughouse Schultz on the ill-starred tanker *Mercury*. When financial need forced him to forgo a trip to the Democratic National Convention in Chicago, he sailed Lake Michigan instead. In subsequent years, he dropped out of school to catch the mailboat to his ships as they transited the Detroit River. With lively dialogue, Livingston details his experiences up to his signing off the *Champlain* in 1972 and then setting sail for landlocked Nepal to work with the Peace Corps. Both maritime and Great Lakes enthusiasts will enjoy this voyage back to the early years of the Great Lakes shipping industry.

Sky Watch Emma Hudelson, 2024-03-05 Horse shows used to draw crowds by the thousands to state fairs and venues such as Madison Square Garden. And in the 1980s, no performance horse filled more arena seats than the American

Saddlebred Sky Watch. He pushed the saddle seat industry to a peak that hasn't been seen since. An athlete through and through, the stallion dominated the sport with the same power and intensity as a Kentucky Derby winner. With unmatched talent, Sky Watch earned four World Grand Championships and twelve World titles overall, making his career one for the history books. Years after Sky Watch finished competing, videos of his legacy in the ring captured the heart of author and lifelong horsewoman Emma Hudelson. Her fascination with the unstoppable stallion sent her on a journey to discover how a horse becomes a legend, convinced that if she can capture the magic behind the greatest show horse of all time, maybe she can understand her own obsession with Saddlebreds. Sky Watch: Chasing an American Saddlebred Story is not only the tale of a remarkable horse, but of the American Saddlebred breed and the way these horses carried one rider back to herself. Tracking the path of Sky Watch's success, Hudelson's book is a deeply personal homage to one of the sport's greatest show horses and the indelible impression he left on the breed and in the hearts of those who loved him.
