Percival Everett

Art of the Handbag Clare Anthony, 2013-11-06 I find that it is vital to have at least one handbag for each of the ten types of social occasions. Miss Piggy Most women would agree with Miss Piggy and even those who didn't would think one bag for all occasions isn't really enough. Ever since the reticule came into style after the French Revolution, women have been attached to their handbags. And whether you're a woman of leisure who wants a tiny bag to carry a lipstick, comb, and mirror or a working woman who needs a satchel to hold your cell phone, e-reader, laptop, water bottle, makeup, lunch, and whatever else you need in the course of a long day, you're sure to be enchanted by the variety of bags featured in this lavishly illustrated book. A wonderful range of bags is presented--from Judith Leiber's sculpted, crystal-studded metal minaudières to James Piatt's Peacekeeper handbag with its knuckleduster handle, from Lulu Guinness's red snakeskin Lips clutch to Hester van Eeghen's elegant Monocle bag, from Kathleen Dustin's exquisite Rose Bud wrist purse to InÅ's Figaredo's retro Telephone shoulder bag. It's a showcase gallery of 25 contemporary handbag designers, and it features over 100 artful creations. The crazy beautiful bags in this book provide perfect accents for every wardrobe.

Grand Canyon, Inc Percival Everett, 2001 Big-game hunter Rhino Tanner seeks to develop the Grand Canyon into an amusement park but unleashes forces that he cannot comprehend or control.

JavaScript Application Cookbook Jerry Bradenbaugh, 1999 JavaScript Cookbook literally hands the Webmaster a set of ready-to-go, client-side JavaScript applications with thorough documentation to help them understand and extend those applications. By providing such a set of applications, this guide allows Webmasters to immediately add extra functionality to their Web sites.

Beyond Straw Men Phaedra C. Pezzullo, 2023-08-22 Addressing plastics can feel overwhelming. Guilt, shame, anger, hurt, fear, dismissiveness, and despair abound. Beyond Straw Men moves beyond "hot take" or straw man fallacies by illustrating how affective counterpublics mobilized around plastics reveal broader stories about environmental justice and

social change. Inspired by on- and offline organizing in the Global South and the Global South of the North, Phaedra C. Pezzullo engages public controversies and policies through analysis of hashtag activism, campaign materials, and podcast interviews with headline-making advocates in Bangladesh, Kenya, the United States, and Vietnam. She argues that plastics have become an articulator of crisis and an entry point into the contested environmental politics of carbon-heavy masculinity, carceral policies, planetary fatalism, eco-ableism, greenwashing, marine life endangerment, pollution colonialism, and waste imperialism. Attuned to plastic attachments, *Beyond Straw Men* illustrates how everyday people resist unsustainable patterns of the plastics-industrial complex through imperfect but impactful networked cultures of care.

Winning at Weight Loss Nik Speakman, Eva Speakman, 2019-12-26 Praise for Nik and Eva Speakman: 'I've seen their work first hand when it came to my own fear of flying - they are a great team' Holly Willoughby 'I never believed in miracles until I met the Speakmans' Jake Roche Nik and Eva Speakman have helped thousands of everyday people lose weight and improve their self-worth and body image. Now it's your turn. - Are you overeating? - Do you feel hungry all of the time and helpless around food? - Is your weight affecting your sleep or behaviour? - Do you suffer from other health problems because of your weight? - Do you feel stuck in a yo-yo cycle of weight loss and weight gain? WINNING AT WEIGHTLOSS will help release you from the emotional and physical issues around your body size and health. Feel confident about yourself and in control of your eating habits with Nik and Eva's expert help!

Feature Engineering for Machine Learning Alice Zheng, Amanda Casari, 2018-03-23 Feature engineering is a crucial step in the machine-learning pipeline, yet this topic is rarely examined on its own. With this practical book, you'll learn techniques for extracting and transforming features—the numeric representations of raw data—into formats for machine-learning models. Each chapter guides you through a single data problem, such as how to represent text or image data. Together, these examples illustrate the main principles of feature engineering. Rather than simply teach these principles, authors Alice Zheng and Amanda Casari focus on practical application with exercises throughout the book. The closing chapter brings everything together by tackling a real-world, structured dataset with several feature-engineering techniques. Python packages including numpy, Pandas, Scikit-learn, and Matplotlib are used in code examples. You'll examine: Feature engineering for numeric data: filtering, binning, scaling, log transforms, and power transforms Natural text techniques: bag-of-words, n-grams, and phrase detection Frequency-based filtering and feature scaling for eliminating uninformative features Encoding techniques of categorical variables, including feature hashing and bin-counting Model-based feature engineering with principal component analysis The concept of model stacking, using k-means as a featurization technique Image feature

extraction with manual and deep-learning techniques

Standard & Poor's Creditweek ,1994-12

Pablo Picasso and Marie-Therese John Richardson,Diana Widmaier Picasso,Elizabeth Cowling,2011-06-13 Pablo Picasso's endless fascination with his lover's character and form led to radical shifts in his conception of portraiture and the mystical metamorphoses that the act of creation entails. Picasso's secretive love affair with Marie-Therese Walter, which began in 1927, inspired a radical shift in his conception of portraiture. The exhibition and catalogue present Marie-Therese as a primary vehicle for his experimentation during the period, including several works never before seen in the United States as well as previously unpublished personal letters and photographs. Picasso and Marie-Therese sheds new light on the interpretation of one of the most creative relationships in Picasso's rich and varied oeuvre.

The Internet Outdoor Family Fun Yellow Pages Jack Sanders,1999 Featuring over 2,000 great Web sites and newsgroups for outdoor family activities, this quick reference offers a treasure chest of information and tips for the active family. 200 illustrations.

Fundamentals of Machine Learning for Predictive Data Analytics, second edition John D. Kelleher,Brian Mac Namee,Aoife D'Arcy,2020-10-20 The second edition of a comprehensive introduction to machine learning approaches used in predictive data analytics, covering both theory and practice. Machine learning is often used to build predictive models by extracting patterns from large datasets. These models are used in predictive data analytics applications including price prediction, risk assessment, predicting customer behavior, and document classification. This introductory textbook offers a detailed and focused treatment of the most important machine learning approaches used in predictive data analytics, covering both theoretical concepts and practical applications. Technical and mathematical material is augmented with explanatory worked examples, and case studies illustrate the application of these models in the broader business context. This second edition covers recent developments in machine learning, especially in a new chapter on deep learning, and two new chapters that go beyond predictive analytics to cover unsupervised learning and reinforcement learning.
