In spite of this - or because of it - play constitutes an essential element of human social and spiritual development. In this study, the author defines play as a free and voluntary activity that occurs in a pure space, isolated and protected from the rest of life.

Vegan Freak Bob Torres, 2010 In this informative and practical guide, two seasoned vegans offer tips and advice for thriving without animal by-products. Sometimes funny and irreverent, yet always aware of its serious message, this resource for being vegan in a world that doesn’t always understand or have sympathy for the lifestyle illustrates how to: go vegan in three weeks or less by employing a cold tofu method; convince family, friends, and others that there is no such thing as a vegan cult; and survive restaurants, grocery stores, and meals with omnivores.

Life After Life Kate Atkinson, 2013-04-02 What if you could live again and again, until you got it right? On a cold and

snowy night in 1910, Ursula Todd is born to an English banker and his wife. She dies before she can draw her first breath. On that same cold and snowy night, Ursula Todd is born, lets out a lusty wail, and embarks upon a life that will be, to say the least, unusual. For as she grows, she also dies, repeatedly, in a variety of ways, while the young century marches on towards its second cataclysmic world war. Does Ursula's apparently infinite number of lives give her the power to save the world from its inevitable destiny? And if she can -- will she? Darkly comic, startlingly poignant, and utterly original: this is Kate Atkinson at her absolute best.

Defense's Nuclear Agency 1947-1997 (DTRA History Series) Defense Threat Reduction Agency,2003-09 This official history was originally printed in very small numbers in 2002. Defense's Nuclear Agency, 1947-1997 traces the development of the Armed Forces Special Weapons Project (AFSWP), and its descendant government organizations, from its original founding in 1947 to 1997. After the disestablishment of the Manhattan Engineering District (MED) in 1947, AFSWP was formed to provide military training in nuclear weapons' operations. Over the years, its sequential descendant organizations have been the Defense Atomic Support Agency (DASA) from 1959 to 1971, the Defense Nuclear Agency (DNA) from 1971 to 1996, and the Defense Special Weapons Agency (DSWA) from 1996 to 1998. In 1998, DSWA, the On-Site Inspection Agency, the Defense Technology Security Administration, and selected elements of the Office of Secretary of Defense were combined to form the Defense Threat Reduction Agency (DTRA).

Technics and Civilization Lewis Mumford,2010-10-30 *Technics and Civilization* first presented its compelling history of the machine and critical study of its effects on civilization in 1934—before television, the personal computer, and the Internet even appeared on our periphery. Drawing upon art, science, philosophy, and the history of culture, Lewis Mumford explained the origin of the machine age and traced its social results, asserting that the development of modern technology had its roots in the Middle Ages rather than the Industrial Revolution. Mumford sagely argued that it was the moral, economic, and political choices we made, not the machines that we used, that determined our then industrially driven economy. Equal parts powerful history and polemic criticism, *Technics and Civilization* was the first comprehensive attempt in English to portray the development of the machine age over the last thousand years—and to predict the pull the technological still holds over us today. “The questions posed in the first paragraph of *Technics and Civilization* still deserve our attention, nearly three quarters of a century after they were written.”—*Journal of Technology and Culture*

Listening Is an Act of Love Dave Isay,2007-11-08 A New York Times Bestseller “Each interview is a revelation.” —USA Today “As heartwarming as a holiday pumpkin pie and every bit as homey . . . what emerges in these compelling pages is hard-won wisdom and boundless humanity.” —Seattle Post-Intelligencer As heard on NPR, a wondrous nationwide celebration of our shared humanity StoryCorps founder and legendary radio producer Dave Isay selects the most memorable stories from StoryCorps' collection, creating a moving portrait of American life. The voices here connect us to real people and

their lives—to their experiences of profound joy, sadness, courage, and despair, to good times and hard times, to good deeds and misdeeds. To read this book is to be reminded of how rich and varied the American storybook truly is, how resistant to easy categorization or stereotype. We are our history, individually and collectively, and *Listening Is an Act of Love* touchingly reminds us of this powerful truth. Dave Isay's latest book, *Callings*, published in 2016 from Penguin Press.
