Survey of Historic Costume Phyllis G. Tortora,Keith Eubank,2009-06-08 In the Preface of the 5th Edition of Survey of Historic Costume, Tortora and Eubank conclude with the following: In the history of dress at the beginning of the 21st century, costume might be compared to a constantly moving river. This river divides into many narrower channels that separate, cross, come together, and separate again, and yet that river continually moves on. Building on the previous editions, the authors update their analysis of Western dress to 2008. Survey of Historic Costume has, from its beginnings, taken seriously the need to accompany the text with appropriate illustrations and the major change in the 5th Edition is the move to full color throughout the book to enrich the text and the concepts. Perfect for anyone interested in historic costume, fashion, textiles, drama, and design, this beautifully illustrated book is full of interesting facts and commentary.New to this Edition:-- Over 500 four-color photographs and illustrations-- Updated text to 2008-- Additional influences from one period or civilization to another, including influences from other cultures-- Index - updated and organized to be utilized as glossary with terms defined and page numbers printed in boldface-- Instructor's Guide provides sources for visuals, websites, teaching strategies and evaluation techniques-- PowerPoint® Presentation contains interactive visual presentation with links to Internet

The Places and Spaces of Fashion, 1800-2007 John Potvin,2013-01-11 The Places and Spaces of Fashion, 1800-2007 brings together art, design, fashion, and a much neglected concern for its spatial realities. The spaces and places of fashion

have often been overlooked in the writing of fashion history and visual culture. More often than not, however, these environments mitigate, control, inform, and enhance how fashion is experienced, performed, consumed, seen, exhibited, purchased, appreciated and of course displayed. Space, as this volume attempts to illustrate, is itself a representational strategy on par with and influencing the visibility and visuality of fashion. Innovative and challenging, the essays in this volume explore various physical and conceptual spaces, moving from physical environments to the two-dimensional with paintings, illustrations, and photographs to chart similarities, differences, and complex nuanced relationships between environments, fashion, identities, and visuality. The volume also navigates various sites (both permanent and temporary) of production, circulation, exhibition, consumption, and promotion of fashion that define meaning and knowledge about a culture or individual by providing for a bond between embodied consumers/spectators and fashion objects. *The Places and Spaces of Fashion, 1800-2007* is a compelling project with a thematic, theoretical, and historiographic approach that is at once both focused yet far-reaching and original in its implications. The volume engages with questions attending to the 'modern condition' by seamlessly weaving interdisciplinary discussions of the visual with material culture to explore the spatial dimension(s) of fashion. Some of the essays explore new and exciting spaces while others offer compelling revisionary analyses of relatively known sources
