The Future of Men Jack Myers, 2016-03-01 "Once again, Jack Myers has his fingers on the pulse of the very latest. Myers has clearly done his homework, and the result is this superb book." —Ken Burns, documentary filmmaker of *The Roosevelts* and *The Civil War* After being told all their lives to "be a man" and "man up," men are now rejecting the macho stereotype and instead developing empathy, getting in touch with their emotions, and becoming more sensitive in their relationships. Women are gaining ground in business, culture, education, relationships, and politics as traditional male and female roles disappear. *The Future of Men: Masculinity in the Twenty-First Century* prepares men and women for this shift in gender norms. As the definition of a "real man" evolves, understanding the future of men in business, politics, sports, education, relationships, and parenting will be essential for men to maintain psychological well-being, strengthen their self-esteem and sexual self-confidence, and rewire their emotional lives. *The Future of Men* provides tools to help men, and especially younger men, recognize and embrace new behaviors that are required for health and happiness at work, at home, and in their relationships.

Men, Masculinities, and Earth Paul M. Pulé, Martin Hultman, 2021 This book considers issues of social and ecological significance through a masculinities lens. Earth - our home for aeons - is reeling. The atmosphere is heating up, causing reefs to bleach, fisheries to collapse, regions to flood and dry, vast tracts to burn, the polar ice caps to melt, ancient glaciers to retreat, biodiversity to decline exacerbated by the sixth great extinction, and more. Meanwhile, social and economic disparities are widening. Pandemics are cauterising global communities and altering our social mores. Nationalism is feeding divisiveness and hate, especially through men's violence. Politically extreme individuals and groups are exalting freedom while scapegoating the marginalised. Such are the symptoms of an emerging (m)Anthropocene. This anthology contends with these alarming trends, pointing our attention towards their gendered origins. Building on our monograph *Ecological Masculinities: Theoretical Foundations and Practical Guidance* (2018), this collection of essays is framed as a dinner party conversation grouped into six discursive themes. Their views reflect a growing community of practice, whose combined

efforts capture the most recent perspectives on masculine ecologisation. Together, they aim to help create a more caring world for all, moving the ecological masculinities conversation forward as it becomes an established, international, and pluralised field of study.

Wingspan Christopher Harding,1992 The editor of Wingspan--the official journal of the men's movement--offers an authoritative introduction to the movement written by its leaders and including essays, poetry, letters, photos, cartoons, and much more. Original.

Changing Men, Transforming Culture Eric Paul Magnuson,2007 Men are finally engaging the challenges of feminism and rethinking what it means to be a man in today's society. At stake in this crisis of masculinity is the future of the family, the economy, and the society as a whole. This book examines the cultural imagery and the actions of the men of the mythopoetic men's movement in particular, examining their ideas, goals, and behavior.

FUTURE OF MEN. GRACE. CAMPBELL,2020

The Men's Shed Movement: The Company of Men Barry Golding,2015-08

The Descent of Man Grayson Perry,2017-05-30 What does it mean to be male in the 21st Century? Award-winning artist Grayson Perry explores what masculinity is: from sex to power, from fashion to career prospects, and what it could become—with illustrations throughout. In this witty and necessary new book, artist Grayson Perry trains his keen eye on the world of men to ask, what sort of man would make the world a better place? What would happen if we rethought the macho, outdated version of manhood, and embraced a different ideal? In the current atmosphere of bullying, intolerance and misogyny, demonstrated in the recent Trump versus Clinton presidential campaign, *The Descent of Man* is a timely and essential addition to current conversations around gender. Apart from gaining vast new wardrobe options, the real benefit might be that a newly fitted masculinity will allow men to have better relationships—and that's happiness, right? Grayson Perry admits he's not immune from the stereotypes himself—yet his thoughts on everything from power to physical appearance, from emotions to a brand new Manifesto for Men, are shot through with honesty, tenderness, and the belief that, for everyone to benefit, updating masculinity has to be something men decide to do themselves. They have nothing to lose but their hang-ups.
