The Politics of Fashion in Eighteenth-Century America Kate Haulman, 2011-08-01 In eighteenth-century America, fashion served as a site of contests over various forms of gendered power. Here, Kate Haulman explores how and why fashion--both as a concept and as the changing style of personal adornment--linked gender relations, social order, commerce, and political authority during a time when traditional hierarchies were in flux. In the see-and-be-seen port cities of Boston, New York, Philadelphia, and Charleston, fashion, a form of power and distinction, was conceptually feminized yet pursued by both men and women across class ranks. Haulman shows that elite men and women in these cities relied on fashion to present their status but also attempted to undercut its ability to do so for others. Disdain for others' fashionability was a means of safeguarding social position in cities where the modes of dress were particularly fluid and a way to maintain gender hierarchy in a world in which women's power as consumers was expanding. Concerns over gendered power expressed through fashion in dress, Haulman reveals, shaped the revolutionary-era struggles of the 1760s and 1770s, influenced national political debates, and helped to secure the exclusions of the new political order.

Metric Pattern Cutting for Menswear Winifred Aldrich, 2011-05-16 Since the first edition was published in 1980, Metric Pattern Cutting for Menswear has become established as the standard work on this subject and has proved invaluable as both a textbook for students and a reference source for the practising designer. In this fifth edition, the chapter on computer aided design now has full colour illustrations and reflects the growing importance of CAD to the industry and as a part of fashion and design courses. The rest of the book has been updated where necessary: in particular, new blocks for tailored shirts, new details on how to adapt men's blocks for women's wear, and a revision of sizing and labelling information. Colour is now used to differentiate the main groups of patterns and with its tried and tested layout with clear text and diagrams, Metric Pattern Cutting for Menswear is an essential purchase for students of fashion and design.

Men Alone Jopi Nyman,2022-02-28 This study examines masculinity and individualism in four American novels of the 1920s and 1930s usually regarded as belonging to the genre of hard-boiled fiction. The novels under study are *Red Harvest* by Dashiell Hammett, *The Postman Always Rings Twice* by James M. Cain, *They Shoot Horses, Don't They?* by Horace McCoy, and *To Have and Have Not* by Ernest Hemingway. In this first full-length study of gender in hard-boiled fiction the genre is discussed as a representation of the ideologies of masculinity and individualism. Hard-boiled fiction is located in its historical and cultural context and it is argued that the genre, with its explicit emphasis on masculinity and masculine virtues, attempts to reaffirm a masculine order. The study argues that this emphasis is a counter-reaction to more general changes in the gender relations of the period. Indeed, hard-boiled fiction is argued to be an attempt to reconstruct a masculine identity based on anti-modern values generally accepted in the cultural context of the genre.
