Travels in the Burman Empire. [Being the First Section of Travels in South-Eastern Asia.] Illustrated with a Map of South-Eastern Asia, and Wood Engravings Howard Malcolm,1840

By the Emperor's Hand Timothy Dawson,2015-09-30 As absolute as Hitler's control over the German war machine was, it depended on the ability, judgment and unquestioning loyalty of the senior officers charged with putting his ideas, however difficult, into effect.Top military historian James Lucas examines the stories of fourteen of these men: all of different rank, from varied backgrounds, and highly awarded, they exemplify German military prowess at its most dangerous. Among his subjects are Eduard Dietl, the commander of German forces in Norway and Eastern Europe; Werner Kampf, one of the most successful Panzer commanders of the war; and Kurt Meyer, commander of the Hitler Youth Division and one of Germany's youngest general officers.The author, one of the leading experts on all aspects of German military conduct of the Second World War, offers the reader a rare look into the nature of the German Army a curious mix of individual strength, petty officialdom and pragmatic action.

TIP 35: Enhancing Motivation for Change in Substance Use Disorder Treatment (Updated 2019) U.S.

Department of Health and Human Services,2019-11-19 Motivation is key to substance use behavior change. Counselors can support clients' movement toward positive changes in their substance use by identifying and enhancing motivation that already exists. Motivational approaches are based on the principles of person-centered counseling. Counselors' use of empathy, not authority and power, is key to enhancing clients' motivation to change. Clients are experts in their own recovery from SUDs. Counselors should engage them in collaborative partnerships. Ambivalence about change is normal. Resistance to change is an expression of ambivalence about change, not a client trait or characteristic. Confrontational approaches increase client resistance and discord in the counseling relationship. Motivational approaches explore ambivalence in a nonjudgmental and compassionate way.
