TIP 35: Enhancing Motivation for Change in Substance Use Disorder Treatment (Updated 2019) U.S.

Department of Health and Human Services,2019-11-19 Motivation is key to substance use behavior change. Counselors can support clients' movement toward positive changes in their substance use by identifying and enhancing motivation that already exists. Motivational approaches are based on the principles of person-centered counseling. Counselors' use of empathy, not authority and power, is key to enhancing clients' motivation to change. Clients are experts in their own recovery from SUDs. Counselors should engage them in collaborative partnerships. Ambivalence about change is normal. Resistance to change is an expression of ambivalence about change, not a client trait or characteristic. Confrontational approaches increase client resistance and discord in the counseling relationship. Motivational approaches explore ambivalence in a nonjudgmental and compassionate way.

Cervantes and the Material World Carroll B. Johnson,2000 Cervantes and the Material World reveals a recurrent preoccupation with the clash of two different economic systems: a reenergized feudalism and an incipient capitalism. Overturning the common assumption that Don Quixote, Sancho Panza, and myriad other colorful characters carry out their adventures in a timeless social milieu, Johnson demonstrates how their perspectives and experiences are shaped by the events and crises of their immediate historical context.--BOOK JACKET.

Guide for the Care and Use of Laboratory Animals National Research Council,Division on Earth and Life Studies,Institute for Laboratory Animal Research,Committee for the Update of the Guide for the Care and Use of Laboratory Animals,2011-01-27 A respected resource for decades, the Guide for the Care and Use of Laboratory Animals has been updated by a committee of experts, taking into consideration input from the scientific and laboratory animal communities and the public at large. The Guide incorporates new scientific information on common laboratory animals, including aquatic

species, and includes extensive references. It is organized around major components of animal use: Key concepts of animal care and use. The Guide sets the framework for the humane care and use of laboratory animals. Animal care and use program. The Guide discusses the concept of a broad Program of Animal Care and Use, including roles and responsibilities of the Institutional Official, Attending Veterinarian and the Institutional Animal Care and Use Committee. Animal environment, husbandry, and management. A chapter on this topic is now divided into sections on terrestrial and aquatic animals and provides recommendations for housing and environment, husbandry, behavioral and population management, and more. Veterinary care. The Guide discusses veterinary care and the responsibilities of the Attending Veterinarian. It includes recommendations on animal procurement and transportation, preventive medicine (including animal biosecurity), and clinical care and management. The Guide addresses distress and pain recognition and relief, and issues surrounding euthanasia. Physical plant. The Guide identifies design issues, providing construction guidelines for functional areas; considerations such as drainage, vibration and noise control, and environmental monitoring; and specialized facilities for animal housing and research needs. The Guide for the Care and Use of Laboratory Animals provides a framework for the judgments required in the management of animal facilities. This updated and expanded resource of proven value will be important to scientists and researchers, veterinarians, animal care personnel, facilities managers, institutional administrators, policy makers involved in research issues, and animal welfare advocates.

Values and Planning Huw Thomas,2017-09-29 This book brings together a group of distinguished international authors to analyze and comment upon the various roles of evaluation and valued ideas, in planning and education of planners. Topics covered include the nature of aesthetic judgement and of practical judgement, the implications for planning of various theories of environmental ethics, and the significance of key concepts such as heritage, justice, professional ethics and the public interest in orienting planning practice. Contributors relate their ideas about planning to a wide range of philosophical and social theories and debates, including feminist writings, discussions of post modernism, critical theory and the work of Anglo-American analytical philosophers. These essays will prove stimulating not only to planning theorists and practitioners, but to anyone interested in the way evaluations and key concepts contained in them can and should influence public policy.
