Quite simply, this is the must-have reference for scientific computing in Python. With this handbook, you'll learn how to use: IPython and Jupyter: provide computational environments for data scientists using Python NumPy: includes the ndarray for efficient storage and manipulation of dense data arrays in Python Pandas: features the DataFrame for efficient storage and

TIP 35: Enhancing Motivation for Change in Substance Use Disorder Treatment (Updated 2019) U.S. Department of Health and Human Services,2019-11-19 Motivation is key to substance use behavior change. Counselors can support clients' movement toward positive changes in their substance use by identifying and enhancing motivation that already exists. Motivational approaches are based on the principles of person-centered counseling. Counselors' use of empathy, not authority and power, is key to enhancing clients' motivation to change. Clients are experts in their own recovery from SUDs. Counselors should engage them in collaborative partnerships. Ambivalence about change is normal. Resistance to change is an expression of ambivalence about change, not a client trait or characteristic. Confrontational approaches increase client resistance and discord in the counseling relationship. Motivational approaches explore ambivalence in a nonjudgmental and compassionate way.

Strengthening Forensic Science in the United States National Research Council,Division on Engineering and Physical Sciences,Committee on Applied and Theoretical Statistics,Policy and Global Affairs,Committee on Science, Technology, and Law,Committee on Identifying the Needs of the Forensic Sciences Community,2009-07-29 Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work,

establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

Pre-Owned Clothing Business Startup Marian Robinson,2020-05-10 I bet you don't even know the goldmine that's in your closet. My grandmother had the best fashion sense for her era. She was always seen dressed to the nines, pearls in tow, and heels galore. She would never leave the house without her trusty shoulder-pinned sweater. She kept every part of her appearance in check as she visited the salon with a weekly, standing appointment. Lipstick was a must. I inherited her fashionista trait. My Gran, as I called her, was a fashionista to the max. When she passed away, I found myself inheriting her vast walk-in closet collection of savvy vintage clothing. I wasn't quite sure what to do with all of it. I kept the pieces that meant the most to me and began to sell the rest. To my surprise, the demand for vintage clothing in great condition, or renewed, upcycled pieces, is immense, widespread, and appeals to men and women of all ages. My business was born - and it thrived! In my book, I will show you exactly how to go about starting and running your own pre-loved clothing business. You gain not only the monetary benefits of selling a high-demand product, but you will also be saving the world's landfills from unnecessary waste. In 2012 alone, an estimated 14.3 million tons of textiles were discarded to the landfill as reported by the Environmental Protection Agency-an alarming number for something seemingly harmless as discarding old clothes. Why toss clothing that has good life still left in it? There are so many ways you can succeed with your secondhand clothing shop, but the best thing you can do (and the most valuable experience you can get) is to go out and actually do it! Experience is always the best teacher. Until you get out and start selling, you will never be able to grasp everything fully that running a used clothing shop entails. Of course, the most important thing you can do is to be prepared for it, just so you know you're setting yourself up for success. You will have the tools you need in this book to start making good money by selling old clothes. You will learn: About crafting a plan for your business Finding who your customer will be Where to place your brick-and-mortar

store, should you go that route Creating a solid marketing plan Budgeting and costs How to conduct market research Building your inventory and where to source products Upcycled hacks to increase the life of your products Advice for online marketplaces such as ThredUP, Poshmark, eBay, Depop, Facebook Marketplace, Tradesy, Vinted, Instagram, Craigslist, Mercari, LePrix, The Real Real, Grailed, VarageSale, Etsy, Shopify, and Amazon FBA How to set up a physical, brick and mortar store Branding and logo design Inventory management techniques Marketing strategies - direct and online How to set your prices Finally, how I grew my business - with advice about running a physical and online sales hybrid You will gain a much deeper understanding of how to start, run, and grow your own secondhand clothing business. Click Add to Cart now! You won't regret it! I wish I had this book when I first started my business. I also absolutely LOVE the variety of marketplaces available since I started my business. These choices can be difficult to navigate, and my book will guide you. Clothing Poverty Andrew Brooks, 2015-02-12 'An interesting and important account.' Daily Telegraph Have you ever stopped and wondered where your jeans came from? Who made them and where? Ever wondered where they end up after you donate them for recycling? Following a pair of jeans, *Clothing Poverty* takes the reader on a vivid around-the-world tour to reveal how clothes are manufactured and retailed, bringing to light how fast fashion and clothing recycling are interconnected. Andrew Brooks shows how recycled clothes are traded across continents, uncovers how retailers and international charities are embroiled in commodity chains which perpetuate poverty, and exposes the hidden trade networks which transect the globe. Stitching together rich narratives, from Mozambican markets, Nigerian smugglers and Chinese factories to London's vintage clothing scene, TOMS shoes and Vivienne Westwood's ethical fashion lines, Brooks uncovers the many hidden sides of fashion.

NICOMACHEAN ETHICS Aristotle,2017-04-20 ♦EVERY art and every inquiry, and similarly every action and pursuit, is thought to aim at some good; and for this reason the good has rightly been declared to be that at which all things aim. But a certain difference is found among ends; some are activities, others are products apart from the activities that produce them. Where there are ends apart from the actions, it is the nature of the products to be better than the activities. Now, as there are many actions, arts, and sciences, their ends also are many; the end of the medical art is health, that of shipbuilding a vessel, that of strategy victory, that of economics wealth. But where such arts fall under a single capacity- as bridle-making and the other arts concerned with the equipment of horses fall under the art of riding, and this and every military action under strategy, in the same way other arts fall under yet others- in all of these the ends of the master arts are to be preferred to all the subordinate ends; for it is for the sake of the former that the latter are pursued. It makes no difference whether the activities themselves are the ends of the actions, or something else apart from the activities, as in the case of the sciences just mentioned.♦
