Clothing and Queer Style in Early Modern English Drama James M. Bromley, 2021 This book examines early modern drama's depiction of non-standard forms of masculinity grounded in superficiality, inauthenticity, affectation, and the display of the extravagantly clothed body. Practices of extravagant dress destabilized distinctions between able-bodied and disabled, human and non-human, and the past and present, distinctions that structure normative ways of thinking about sexuality. In city comedies by Ben Jonson, George Chapman, Thomas Middleton, and Thomas Dekker, extravagantly dressed male characters imagine alternatives to the prevailing modes of subjectivity, sociability, and eroticism in early modern London. While these characters are situated in hostile narrative and historical contexts, this book draws on recent work on disability,

materiality, and queer temporality to rethink their relationship to those contexts in order to access the world-making possibilities of early modern queer style. In their rich representations of life in London around the turn of the seventeenth century, these plays not only were, but also remain, uniquely sensitive to the intersection of sexuality, urbanization, and material culture. The attachments and pleasures of early modern sartorial extravagance they depict can estrange us from the epistemologies that narrow current thinking about sexuality's relationship to authenticity, pedagogy, interiority, and privacy.

**The Tribes and Castes of the Central Provinces of India (Complete)** Robert Vane Russell, 2020-09-28 Up to a few centuries ago the Central Provinces remained outside the sphere of Hindu and Muhammadan conquest. To the people of northern India it was known as Gondwāna, an unexplored country of inaccessible mountains and impenetrable forests, inhabited by the savage tribes of Gonds from whom it took its name. Hindu kingdoms were, it is true, established over a large part of its territory in the first centuries of our era, but these were not accompanied by the settlement and opening out of the country, and were subsequently subverted by the Dravidian Gonds, who perhaps invaded the country in large numbers from the south between the ninth and twelfth centuries. Hindu immigration and colonisation from the surrounding provinces occurred at a later period, largely under the encouragement and auspices of Gond kings. The consequence is that the existing population is very diverse, and is made up of elements belonging to many parts of India. The people of the northern Districts came from Bundelkhand and the Gangetic plain, and here are found the principal castes of the United Provinces and the Punjab. The western end of the Nerbudda valley and Betūl were colonised from Mālwa and Central India. Berār and the Nāgpur plain fell to the Marāthas, and one of the most important Marātha States, the Bhonsla kingdom, had its capital at Nāgpur. Cultivators from western India came and settled on the land, and the existing population are of the same castes as the Marātha country or Bombay. But prior to the Marātha conquest Berār and the Nimar District of the Central Provinces had been included in the Mughal empire, and traces of Mughal rule remain in a substantial Muhammadan element in the population. To the south the Chānda District runs down to the Godāvāri river, and the southern tracts of Chānda and Bastar State are largely occupied by Telugu immigrants from Madras. To the east of the Nāgpur plain the large landlocked area of Chhattīsgarh in the upper basin of the Mahānadi was colonised at an early period by Hindus from the east of the United Provinces and Oudh, probably coming through Jubbulpore. A dynasty of the Haihaivansi Rājput clan established itself at Ratanpur, and owing to the inaccessible nature of the country, protected as it is on all sides by a natural rampart of hill and

forest, was able to pursue a tranquil existence untroubled by the wars and political vicissitudes of northern India. The population of Chhattisgarh thus constitutes to some extent a distinct social organism, which retained until quite recently many remnants of primitive custom. The middle basin of the Mahānadi to the east of Chhattisgarh, comprising the Sambalpur District and adjoining States, was peopled by Uriyas from Orissa, and though this area has now been restored to its parent province, notices of its principal castes have been included in these volumes. Finally, the population contains a large element of the primitive or non-Aryan tribes, rich in variety, who have retired before the pressure of Hindu cultivators to its extensive hills and forests. The people of the Central Provinces may therefore not unjustly be considered as a microcosm of a great part of India, and conclusions drawn from a consideration of their caste rules and status may claim with considerable probability of success to be applicable to those of the Hindus generally. For the same reason the standard ethnological works of other Provinces necessarily rank as the best authorities on the castes of the Central Provinces, and this fact may explain and excuse the copious resort which has been made to them in these volumes.

By the Emperor's Hand Timothy Dawson, 2015-09-30 As absolute as Hitler's control over the German war machine was, it depended on the ability, judgment and unquestioning loyalty of the senior officers charged with putting his ideas, however difficult, into effect. Top military historian James Lucas examines the stories of fourteen of these men: all of different rank, from varied backgrounds, and highly awarded, they exemplify German military prowess at its most dangerous. Among his subjects are Eduard Dietl, the commander of German forces in Norway and Eastern Europe; Werner Kampf, one of the most successful Panzer commanders of the war; and Kurt Meyer, commander of the Hitler Youth Division and one of Germany's youngest general officers. The author, one of the leading experts on all aspects of German military conduct of the Second World War, offers the reader a rare look into the nature of the German Army a curious mix of individual strength, petty officialdom and pragmatic action.
