**Sexual Harassment of Women** National Academies of Sciences, Engineering, and Medicine, Policy and Global Affairs, Committee on Women in Science, Engineering, and Medicine, Committee on the Impacts of Sexual Harassment in Academia, 2018-09-01 Over the last few decades, research, activity, and funding has been devoted to improving the recruitment, retention, and advancement of women in the fields of science, engineering, and medicine. In recent years the diversity of those participating in these fields, particularly the participation of women, has improved and there are significantly more women entering careers and studying science, engineering, and medicine than ever before. However, as women increasingly enter these fields they face biases and barriers and it is not surprising that sexual harassment is one of these barriers. Over thirty years the incidence of sexual harassment in different industries has held steady, yet now more women are in the workforce and in academia, and in the fields of science, engineering, and medicine (as students and faculty) and so more women are experiencing sexual harassment as they work and learn. Over the last several years, revelations of the sexual harassment experienced by women in the workplace and in academic settings have raised urgent questions about the specific impact of this discriminatory behavior on women and the extent to which it is limiting their careers. *Sexual Harassment of Women* explores the influence of sexual harassment in academia on the career advancement of women in the scientific, technical, and medical workforce. This report reviews the research on the extent to which women in the fields of science, engineering, and medicine are victimized by sexual harassment and examines the existing information on the extent to which sexual harassment in academia negatively impacts the recruitment, retention, and

advancement of women pursuing scientific, engineering, technical, and medical careers. It also identifies and analyzes the policies, strategies and practices that have been the most successful in preventing and addressing sexual harassment in these settings.

It Was All a Dream Reniqua Allen, 2019-01-08 Young Black Americans have been trying to realize the promise of the American Dream for centuries and coping with the reality of its limitations for just as long. Now, a new generation is pursuing success, happiness, and freedom -- on their own terms. In *It Was All a Dream*, Reniqua Allen tells the stories of Black millennials searching for a better future in spite of racist policies that have closed off traditional versions of success. Many watched their parents and grandparents play by the rules, only to sink deeper and deeper into debt. They witnessed their elders fight to escape cycles of oppression for more promising prospects, largely to no avail. Today, in this post-Obama era, they face a critical turning point. Interweaving her own experience with those of young Black Americans in cities and towns from New York to Los Angeles and Bluefield, West Virginia to Chicago, Allen shares surprising stories of hope and ingenuity. Instead of accepting downward mobility, Black millennials are flipping the script and rejecting White America's standards. Whether it means moving away from cities and heading South, hustling in the entertainment industry, challenging ideas about gender and sexuality, or building activist networks, they are determined to forge their own path. Compassionate and deeply reported, *It Was All a Dream* is a celebration of a generation's doggedness against all odds, as they fight for a country in which their dreams can become a reality.

An innovative publication Women's Rights in the Middle East and North Africa: Progress Amid Resistance analyzes the status of women in the region, with a special focus on the gains and setbacks for women's rights since the first edition was released in 2005. The study presents a comparative evaluation of conditions for women in 17 countries and one territory: Algeria, Bahrain, Egypt, Iran, Iraq, Jordan, Kuwait, Lebanon, Libya, Morocco, Oman, Palestine (Palestinian Authority and Israeli-Occupied Territories), Qatar, Saudi Arabia, Syria, Tunisia, United Arab Emirates, and Yemen. The publication identifies the causes and consequences of gender inequality in the Middle East, and provides concrete recommendations for national and international policymakers and implementers. The project has been embraced as a resource not only by international players like the United Nations and the World Bank, but also by regional women's rights organizations, individual activists, scholars, and governments worldwide. Women's rights in each country are assessed in five key areas: (1) Nondiscrimination and Access to Justice; (2) Autonomy, Security, and Freedom of the Person; (3) Economic Rights and Equal Opportunity; (4) Political Rights and Civic Voice; and (5) Social and Cultural Rights. The methodology is based on the Universal Declaration of Human Rights, and the study results are presented through a set of numerical scores and analytical narrative reports.
