**Looking Good . . . Every Day** Nancy Nix-Rice, 2014-09-01 Any woman can look and feel lovely, regardless of her age, bank balance, or pant size, and *Looking Good . . . Every Day* defines a simple yet sophisticated standard for women to determine exactly which clothes and accessories will showcase their unique beauty. The “points of connection” method explains that the more characteristics that exist in common between a woman and her outfit, the more lovely she will look. It shifts emphasis from hiding her perceived figure challenges and focuses on spotlighting her personal assets. By choosing wardrobe additions in this way, everything in her closet will work together. She has more outfits from fewer garments,

allowing her to buy higher-quality garments without increasing her budget. Photography of real women—ranging from 22 to 80 years old and from size 4 to 24—illustrates the universal impact “points of connection” make in their appearance.

Bill Cunningham: On the Street New York Times, 2019-09-03 NEW YORK TIMES BESTSELLER • The first published collection of photographs by the icon of street style, bringing together favorites published in The New York Times alongside never-before-seen work across five decades. “A dazzling kaleidoscope from the gaze of an artist who saw beauty at every turn.”—André Leon Talley Bill Cunningham’s photography captured the evolution of style, of trends, and of the everyday, both in New York City and in Paris. But his work also shows that street style is not only about fashion; it’s about the people and the changing culture. These photographs—many never before seen, others having originally appeared in The New York Times and elsewhere—move from decade to decade, beginning in the 1970s and continuing until Cunningham’s death in 2016. Here you’ll find Cunningham’s distinctive chronicling of the 1980s transit strike, the rise of 1990s casual Fridays, the sadness that fell over the city following 9/11, Inauguration Day 2009, the onset of selfies, and many other significant moments. This enduring portfolio is enriched by essays that provide a revealing portrait of Cunningham and a few of his many fascinations and influences, contributed by Cathy Horyn, Tiina Loite, Vanessa Friedman, Ruth La Ferla, Guy Trebay, Penelope Green, Jacob Bernstein, and a much favored subject, Anna Wintour. More than anything, *On the Street* is a timeless representation of Cunningham’s commitment to capturing the here and now. “An absolute delight.”—People

**Strengthening Forensic Science in the United States** National Research Council, Division on Engineering and Physical Sciences, Committee on Applied and Theoretical Statistics, Policy and Global Affairs, Committee on Science, Technology, and Law, Committee on Identifying the Needs of the Forensic Sciences Community, 2009-07-29 Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

**Historical Painting Techniques, Materials, and Studio Practice** Arie Wallert, Erma Hermens, Marja Peek, 1995-08-24 Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled *Historical Painting Techniques, Materials, and Studio Practice* at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas,

and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.

**Democracy and Education** John Dewey, 1916 John Dewey's *Democracy and Education* addresses the challenge of providing quality public education in a democratic society. In this classic work Dewey calls for the complete renewal of public education, arguing for the fusion of vocational and contemplative studies in education and for the necessity of universal education for the advancement of self and society. First published in 1916, *Democracy and Education* is regarded as the seminal work on public education by one of the most important scholars of the century.

*Dangerous Designs* Parminder Bhachu, 2005-10-05 In late-1990s Britain, the salwaar-kameez or 'Punjabi suit' emerged as a high-fashion garment. Popular both on the catwalk and on the street, it made front-page news when worn by Diana, Princess of Wales and by Cherie Booth, the wife of UK Prime Minister Tony Blair. In her ethnography of the local and global design economies established by Asian women fashion entrepreneurs, Parminder Bhachu focuses on the transformation of the salwaar-kameez from negatively coded 'ethnic clothing' to a global garment fashionable both on the margins and in the mainstream. Exploring the design and sewing businesses, shops and street fashions in which this revolution has taken place, she shows how the salwaar-kameez is today at the heart of new economic micro-markets which themselves represent complex, powerfully coded means of cultural dialogue and racial politics. The innovative designs of second-generation British Asian women are drawn from characteristically improvisational migrant cultural codes. Through their hybrid designs and creation of new aesthetics, these women cross cultural boundaries, battling with racism and redefining both Asian and British identities. At the same time, their border-crossing commercial entrepreneurship produces new diaspora economies which give them control over many economic, aesthetic, cultural and technological resources. In this way, the processes of global capitalism are gendered, racialized and localized through the interventions of diasporic women from the margins.
