Natural Disasters and Adaptation to Climate Change Sarah Boulter,Jean Palutikof,David John Karoly,Daniela Guitart,2013-10-14 This volume presents eighteen case studies of natural disasters from Australia, Europe, North America and developing countries. By comparing the impacts, it seeks to identify what moves people to adapt, which adaptive activities succeed and which fail, and the underlying reasons, and the factors that determine when adaptation is required and when simply bearing the impact may be the more appropriate response. Much has been written about the theory of adaptation, and high-level, especially international, policy responses to climate change. This book aims to inform actual adaptation practice - what works, what does not, and why. It explores some of the lessons we can learn from past disasters and the adaptation that takes place after the event in preparation for the next. This volume will be especially useful for researchers and decision makers in policy and government concerned with climate change adaptation, emergency management, disaster risk reduction, environmental policy and planning.

Encyclopedia of Agriculture and Food Systems ,2014-07-29 Encyclopedia of Agriculture and Food Systems, Second Edition addresses important issues by examining topics of global agriculture and food systems that are key to understanding the challenges we face. Questions it addresses include: Will we be able to produce enough food to meet the increasing dietary needs and wants of the additional two billion people expected to inhabit our planet by 2050? Will we be able to meet the need for so much more food while simultaneously reducing adverse environmental effects of today's agriculture practices? Will we be able to produce the additional food using less land and water than we use now? These are among the most important challenges that face our planet in the coming decades. The broad themes of food systems and people, agriculture and the environment, the science of agriculture, agricultural products, and agricultural production systems are covered in more than 200 separate chapters of this work. The book provides information that serves as the foundation for discussion of the food and environment challenges of the world. An international group of highly respected authors addresses these issues from a global perspective and provides the background, references, and linkages for further exploration of each of topics of this comprehensive work. Addresses important challenges of sustainability and efficiency from a global perspective. Takes a detailed look at the important issues affecting the agricultural and food industries today. Lesbian Intimacies and Family Life Rebecca Jennings, 2023-11-16 Focusing on patterns of intimacy, this book traces the historical roots of parenting practices and familial patterns constructed by lesbians and same-sex attracted women living in Britain and Australia between 1945 and 2000. It foregrounds women's unique lived experiences, as they expressed desire, fell in love, and created families against the backdrop of changing cultural, legal, and medical attitudes to female same-sex desire in the late 20th century. Including almost 100 original oral history interviews conducted by the author, *Lesbian Intimacies and Family Life* reveals the subjective histories of lesbian intimacy during the period, both highlighting the huge variety in women's experiences, and tracing shifting patterns of relationship and family formation. Combined with analysis of representations of lesbian intimacy in literature, press articles, medical texts, and archival material, the book demonstrates the ways in which changing political and cultural concepts of sexuality impacted on individual and collective attitudes. With a unique transnational perspective, Jennings uncovers how feminist and lesbian networks between Britain and Australia promoted knowledge sharing and helped foster change in the familial practices of each country – such as through the adoption of reproductive technologies and alternate routes into motherhood. Through considering the rise of divorce and challenges to traditional marriage practices in the period, this book highlights how lesbian relationships provided alternative models of interpersonal relations, impacting on broader patterns of sexuality, and helping redefine notions of the family in the modern era.

Receptive Methods in Music Therapy Denise Erdonmez Grocke, Denise Grocke, Tony Wigram, 2007 This practical book describes the specific use of receptive (listening) methods and techniques in music therapy clinical practice and research, including relaxation with music for children and adults, the use of visualisation and imagery, music and collage, song-lyric discussion, vibroacoustic applications, music and movement techniques, and other forms of aesthetic listening to music. The authors explain these receptive methods of intervention using a format that enables practitioners to apply them in practice and make informed choices about music suitable for each of the different techniques. Protocols are described step-by-step, with reference to the necessary environment, conditions, skills and appropriate musical material. *Receptive Methods in Music Therapy* will prove indispensable to music therapy students, practitioners, educators and researchers.

The Art of Cloth in Mughal India Sylvia Houghteling,2022-03-29 When a rich man in seventeenth-century South Asia enjoyed a peaceful night's sleep, he imagined himself enveloped in a velvet sleep. In the poetic imagination of the time, the fine dew of early evening was like a thin cotton cloth from Bengal, and woolen shawls of downy pashmina sent by the Mughal emperors to their trusted noblemen approximated the soft hand of the ruler on the vassal's shoulder. Textiles in seventeenth-century South Asia represented more than cloth to their makers and users. They simulated sensory experience, from natural, environmental conditions to intimate, personal touch. *The Art of Cloth in Mughal India* is the first art historical account of South Asian textiles from the early modern era. Author Sylvia Houghteling resurrects a truth that seventeenth-century world citizens knew, but which has been forgotten in the modern era: South Asian cloth ranked among the highest forms of art in the global hierarchy of luxury goods, and had a major impact on culture and communication. While studies abound in economic history about the global trade in Indian textiles that flourished from the seventeenth to the nineteenth centuries, they rarely engage with the material itself and are less concerned with the artistic-and much less the literary and social-significance of the taste for cloth. This book is richly illustrated with images of textiles, garments, and paintings that are held in little-known collections and have rarely, if ever, been published. Rather than rely solely on records of European trading companies, Houghteling draws upon poetry in local languages and integrates archival research from unpublished royal Indian inventories to tell a new history of this material culture, one with a far more balanced view of its manufacture and use, as well as its purchase and trade--

The Oxford Handbook of Charles Dickens Robert L. Patten,John O. Jordan,Catherine Waters,2018-09-13 The Oxford Handbook of Charles Dickens is a comprehensive and up-to-date collection on Dickens's life and works. It includes original chapters on all of Dickens's writing and new considerations of his contexts, from the social, political, and economic to the scientific, commercial, and religious. The contributions speak in new ways about his depictions of families, environmental degradation, and improvements of the industrial age, as well as the law, charity, and communications. His treatment of gender, his mastery of prose in all its varieties and genres, and his range of affects and dramatization all come under stimulating reconsideration. His understanding of British history, of empire and colonization, of his own nation and foreign ones, and of selfhood and otherness, like all the other topics, is explained in terms easy to comprehend and profoundly relevant to global modernity.

The International Business Environment Leslie Hamilton,Philip Webster,2012-01-19 The International Business Environment, Second Edition, prepares students for the realities of global twenty-first-century business. Building on the

Adopting a truly international approach, this full-color, visually engaging text features a wealth of examples and case studies. Each chapter begins and ends with a one-page case study, and fifty additional mini-cases address such compelling issues as civil unrest in North Africa, the Japanese earthquake and tsunami, Wikileaks, and Google in China. Organizations including BP, Dell, Domino's Pizza, Apple, and Procter & Gamble are featured throughout the book. A Companion Website offers numerous resources for students and instructors.

The Joy of the Gospel Pope Francis, 2014-10-07 The perfect gift! A specially priced, beautifully designed hardcover edition of *The Joy of the Gospel* with a foreword by Robert Barron and an afterword by James Martin, SJ. "The joy of the gospel fills the hearts and lives of all who encounter Jesus... In this Exhortation I wish to encourage the Christian faithful to embark upon a new chapter of evangelization marked by this joy, while pointing out new paths for the Church's journey in years to come." - Pope Francis This special edition of Pope Francis's popular message of hope explores themes that are important for believers in the 21st century. Examining the many obstacles to faith and what can be done to overcome those hurdles, he emphasizes the importance of service to God and all his creation. Advocating for "the homeless, the addicted, refugees, indigenous peoples, the elderly who are increasingly isolated and abandoned," the Holy Father shows us how to respond to poverty and current economic challenges that affect us locally and globally. Ultimately, Pope Francis demonstrates how to develop a more personal relationship with Jesus Christ, "to recognize the traces of God's Spirit in events great and small." Profound in its insight, yet warm and accessible in its tone, *The Joy of the Gospel* is a call to action to live a life motivated by divine love and, in turn, to experience heaven on earth. Includes a foreword by Robert Barron, author of *Catholicism: A Journey to the Heart of the Faith* and James Martin, SJ, author of *Jesus: A Pilgrimage*

Global Trends 2040 National Intelligence Council, 2021-03 The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come. -Global Trends 2040 (2021) Global Trends 2040-A More Contested World (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.
