The English Short Story in Canada Reingard M. Nischik,2017-04-06 In 2013, the Nobel Prize for Literature was for the first time awarded to a short story writer, and to a Canadian, Alice Munro. The award focused international attention on a genre that had long been thriving in Canada, particularly since the 1960s. This book traces the development and highlights of the English-language Canadian short story from the late 19th century up to the present. The history as well as the theoretical approaches to the genre are covered, with in-depth examination of exemplary stories by prominent writers such as Margaret Atwood and Alice Munro.

The Routledge Introduction to the Canadian Short Story Maria Löschnigg,2022-12-30 This volume aims to introduce undergraduates, graduates, and general readers to the diversity and richness of Canadian short story writing and to the narrative potential of short fiction in general. Addressing a wide spectrum of forms and themes, the book will familiarise readers with the development and cultural significance of Canadian short fiction from the early 19th century to the present. A strong focus will be on the rich reservoir of short fiction produced in the past four decades and the way in which it has responded to the anxieties and crises of our time. Drawing on current critical debates, each chapter will highlight the interrelations between Canadian short fiction and historical and socio-cultural developments. Case studies will zoom in on specific thematic or aesthetic issues in an exemplary manner. The Routledge Introduction to the Canadian Short Story will

provide an accessible and comprehensive overview ideal for students and general readers interested in the multifaceted and thriving medium of the short story in Canada.

Writing Research Papers James D. Lester,1980

The Chinese Short Story Patrick Hanan,1973 During the centuries of its popularity, early Chinese vernacular fiction was never adequately preserved or even documented. The great popular appeal of the short stories saved them from oblivion, but it was only in the sixteenth and seventeenth centuries that they were first collected and published. Mr. Hanan's erudite study is the first thorough attempt to uncover the history of the Chinese short story. Using a variety of techniques, but principally that of stylistic analysis, the author solves the fundamental problem of dating the stories in terms of periods. He is able to place each story in one of three broad categories, early (ca. 1250-1450), middle (ca. 1400-1575), and late (ca. 1550-1627), and to assign some of them to the earlier or later part of the time span. In many cases he offers evidence of sources and influences, place of origin, and possible or probable authorship. On the basis of the author's research, it is possible to see in minutely researched detail how the short story developed in China, what kind of men composed it, its relationship to other kinds of literature, and the main social preoccupations with which it deals. The results of Mr. Hanan's study are vitally important to all scholars of Chinese literature. Historians and linguists will also find it valuable as a model of the innovative use of stylistic analysis.
