Model Rules of Professional Conduct American Bar Association. House of Delegates,Center for Professional Responsibility (American Bar Association),2007 The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

**The Chinese Short Story** Patrick Hanan, 1973 During the centuries of its popularity, early Chinese vernacular fiction was never adequately preserved or even documented. The great popular appeal of the short stories saved them from oblivion, but it was only in the sixteenth and seventeenth centuries that they were first collected and published. Mr. Hanan's erudite study is the first thorough attempt to uncover the history of the Chinese short story. Using a variety of techniques, but principally that of stylistic analysis, the author solves the fundamental problem of dating the stories in terms of periods. He is able to place each story in one of three broad categories, early (ca. 1250-1450), middle (ca. 1400-1575), and late (ca. 1550-1627), and to assign some of them to the earlier or later part of the time span. In many cases he offers evidence of sources and influences, place of origin, and possible or probable authorship. On the basis of the author's research, it is possible to see in minutely researched detail how the short story developed in China, what kind of men composed it, its relationship to other kinds of literature, and the main social preoccupations with which it deals. The results of Mr. Hanan's study are vitally important to all scholars of Chinese literature. Historians and linguists will also find it valuable as a model of the innovative use of stylistic analysis.
