The Social Media Reader Michael Mandiberg, 2012-03 The first collection to address the collective transformation happening in response to the rise of social media With the rise of web 2.0 and social media platforms taking over vast tracts of territory on the internet, the media landscape has shifted drastically in the past 20 years, transforming previously stable relationships between media creators and consumers. The Social Media Reader is the first collection to address the collective transformation with pieces on social media, peer production, copyright politics, and other aspects of contemporary internet culture from all the major thinkers in the field. Culling a broad range and incorporating different styles of scholarship from foundational pieces and published articles to unpublished pieces, journalistic accounts, personal narratives from blogs, and whitepapers, The Social Media Reader promises to be an essential text, with contributions from Lawrence Lessig, Henry Jenkins, Clay Shirky, Tim O'Reilly, Chris Anderson, Yochai Benkler, danah boyd, and Fred von Loehmann, to name a few. It covers a wide-ranging topical terrain, much like the internet itself, with particular emphasis on collaboration and sharing, the politics of social media and social networking, Free Culture and copyright politics, and labor and ownership. Theorizing new models of collaboration, identity, commerce, copyright, ownership, and labor, these essays outline possibilities for cultural democracy that arise when the formerly passive audience becomes active cultural creators, while warning of the dystopian

potential of new forms of surveillance and control.

Unruly Rhetorics Jonathan Alexander, Susan C. Jarratt, Nancy Welch, 2018-11-06 What forces bring ordinary people together in public to make their voices heard? What means do they use to break through impediments to democratic participation? *Unruly Rhetorics* is a collection of essays from scholars in rhetoric, communication, and writing studies inquiring into conditions for activism, political protest, and public assembly. An introduction drawing on Jacques Rancière and Judith Butler explores the conditions under which civil discourse cannot adequately redress suffering or injustice. The essays offer analyses of “unruliness” in case studies from both twenty-first-century and historical sites of social-justice protest. The collection concludes with an afterword highlighting and inviting further exploration of the ethical, political, and pedagogical questions unruly rhetorics raise. Examining multiple modes of expression – embodied, print, digital, and sonic – *Unruly Rhetorics* points to the possibility that unruliness, more than just one of many rhetorical strategies within political activity, is constitutive of the political itself.

On Language Wilhelm Freiherr von Humboldt, 1988-07-28 This is an entirely new translation of one of the fundamental works in the development of the study of language. Published in 1836, it formed the general introduction to Wilhelm von Humboldt's three-volume treatise on the Kawi language of Java. It is the final statement of his lifelong study of the nature of language, and presents a survey of a great many languages, exploring ways in which their various grammatical structures make them more or less suitable as vehicles of thought and cultural development. Empirically wide-ranging - von Humboldt goes far beyond the Indo-European family of languages - it remains one of the most interesting and important attempts to draw philosophical conclusions from comparative linguistics.

Justice, Responsibility and Reconciliation in the Wake of Conflict Alice MacLachlan, Allen Speight, 2012-12-04 What are the moral obligations of participants and bystanders during—and in the wake of—a conflict? How have theoretical understandings of justice, peace and responsibility changed in the face of contemporary realities of war? Drawing on the work of leading scholars in the fields of philosophy, political theory, international law, religious studies and peace studies, the collection significantly advances current literature on war, justice and post-conflict reconciliation. Contributors address

some of the most pressing issues of international and civil conflict, including the tension between attributing individual and collective responsibility for the wrongs of war, the trade-offs made between the search for truth and demands for justice, and the conceptual intricacies of coming to understand just what is meant by 'peace' and 'conflict.' Individual essays also address concrete topics including the international criminal court, reparations, truces, political apologies, truth commissions and criminal trials, with an eye to contemporary examples from conflicts in the Middle East, Africa and North and South America.
