Invisible Women Caroline Criado Perez, 2019-03-12 #1 International Bestseller Winner of the 2019 Financial Times and McKinsey Business Book of the Year Award Winner of the 2019 Royal Society Science Book Prize A landmark, prize-winning, international bestselling examination of how a gender gap in data perpetuates bias and disadvantages women, now in paperback Data is fundamental to the modern world. From economic development to health care to education and public policy, we rely on numbers to allocate resources and make crucial decisions. But because so much data fails to take into account gender, because it treats men as the default and women as atypical, bias and discrimination are baked into our systems. And women pay tremendous costs for this insidious bias, in time, in money, and often with their lives. Celebrated feminist advocate Caroline Criado Perez investigates this shocking root cause of gender inequality in the award-winning, #1 international bestseller *Invisible Women*. Examining the home, the workplace, the public square, the doctor's office, and more, Criado Perez unearths a dangerous pattern in data and its consequences on women's lives. Product designers use a "one-size-fits-all" approach to everything from pianos to cell phones to voice recognition software, when in fact this approach is designed to fit men. Cities prioritize men's needs when designing public transportation, roads, and even snow removal, neglecting to consider women's safety or unique responsibilities and travel patterns. And in medical research, women have largely been excluded from studies and textbooks, leaving them chronically misunderstood, mistreated, and misdiagnosed. Built on hundreds of studies in the United States, in the United Kingdom, and around the world, and written with energy, wit, and sparkling intelligence, this is a groundbreaking, highly readable exposé that will change the way you look at the world.

TIP 35: Enhancing Motivation for Change in Substance Use Disorder Treatment (Updated 2019) U.S.

Department of Health and Human Services,2019-11-19 Motivation is key to substance use behavior change. Counselors can support clients' movement toward positive changes in their substance use by identifying and enhancing motivation that already exists. Motivational approaches are based on the principles of person-centered counseling. Counselors' use of empathy, not authority and power, is key to enhancing clients' motivation to change. Clients are experts in their own recovery from SUDs. Counselors should engage them in collaborative partnerships. Ambivalence about change is normal. Resistance to change is an expression of ambivalence about change, not a client trait or characteristic. Confrontational approaches increase client resistance and discord in the counseling relationship. Motivational approaches explore ambivalence in a nonjudgmental and compassionate way.

The Pocket Barbara Burman,Ariane Fennetaux,2020-04-24 A New York Times Best Art Book of 2019 “A riveting book . . . few stones are left unturned.”—Roberta Smith’s “Top Art Books of 2019,” The New York Times This fascinating and enlightening study of the tie-on pocket combines materiality and gender to provide new insight into the social history of women’s everyday lives—from duchesses and country gentry to prostitutes and washerwomen—and to explore their consumption practices, sociability, mobility, privacy, and identity. A wealth of evidence reveals unexpected facets of the past, bringing women’s stories into intimate focus. “What particularly interests Burman and Fennetaux is the way in which women of all classes have historically used these tie-on pockets as a supplementary body part to help them negotiate their way through a world that was not built to suit them.”—Kathryn Hughes, The Guardian “A brilliant book.”—Ulinka Rublack, Times Literary Supplement

Federal Guidelines for Opioid Treatment Programs U.S. Department of Health and Human Services,2019-11-23 The Federal Guidelines for Opioid Treatment Programs (Guidelines) describe the Substance Abuse and Mental Health Services Administration's (SAMHSA) expectation of how the federal opioid treatment standards found in Title 42 of the Code of Federal Regulations Part 8 (42 CFR ♦ 8) are to be satisfied by opioid treatment programs (OTPs). Under these federal regulations, OTPs are required to have current valid accreditation status, SAMHSA certification, and Drug Enforcement Administration (DEA) registration before they are able to administer or dispense opioid drugs for the treatment of opioid addiction.

Ask a Manager Alison Green,2018-05-01 From the creator of the popular website Ask a Manager and New York’s work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There’s a reason Alison Green has been called “the Dear Abby of the work world.” Ten years as a workplace-advice columnist have

taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for *Ask a Manager* “A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge fan of Alison Green's *Ask a Manager* column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* “*Ask a Manager* is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together*

Women's Rights in the Middle East and North Africa Sanja Kelly, Julia Breslin, 2010-07-16 Freedom House
 innovative publication *Women's Rights in the Middle East and North Africa: Progress Amid Resistance* analyzes the status of women in the region, with a special focus on the gains and setbacks for women's rights since the first edition was released in 2005. The study presents a comparative evaluation of conditions for women in 17 countries and one territory: Algeria, Bahrain, Egypt, Iran, Iraq, Jordan, Kuwait, Lebanon, Libya, Morocco, Oman, Palestine (Palestinian Authority and Israeli-Occupied Territories), Qatar, Saudi Arabia, Syria, Tunisia, United Arab Emirates, and Yemen. The publication identifies the causes and consequences of gender inequality in the Middle East, and provides concrete recommendations for national and international policymakers and implementers. Freedom House is an independent nongovernmental organization that supports democratic change, monitors freedom, and advocates for democracy and human rights. The project has been embraced as a resource not only by international players like the United Nations and the World Bank, but also by regional women's rights organizations, individual activists, scholars, and governments worldwide. Women's rights in each country are assessed in five key areas: (1) Nondiscrimination and Access to Justice; (2) Autonomy, Security, and Freedom of the Person; (3) Economic Rights and Equal Opportunity; (4) Political Rights and Civic Voice; and (5) Social and Cultural Rights.

The methodology is based on the Universal Declaration of Human Rights, and the study results are presented through a set of numerical scores and analytical narrative reports.

Surfing Uncertainty Andy Clark, 2016 This title brings together work on embodiment, action, and the predictive mind. At the core is the vision of human minds as prediction machines - devices that constantly try to stay one step ahead of the breaking waves of sensory stimulation, by actively predicting the incoming flow. In every situation we encounter, that complex prediction machinery is already buzzing, proactively trying to anticipate the sensory barrage. The book shows in detail how this strange but potent strategy of self-anticipation ushers perception, understanding, and imagination simultaneously onto the cognitive stage.

Using R for Introductory Statistics John Verzani, 2018-10-03 The second edition of a bestselling textbook, *Using R for Introductory Statistics* guides students through the basics of R, helping them overcome the sometimes steep learning curve. The author does this by breaking the material down into small, task-oriented steps. The second edition maintains the features that made the first edition so popular, while updating data, examples, and changes to R in line with the current version. See *What's New in the Second Edition*: Increased emphasis on more idiomatic R provides a grounding in the functionality of base R. Discussions of the use of RStudio helps new R users avoid as many pitfalls as possible. Use of knitr package makes code easier to read and therefore easier to reason about. Additional information on computer-intensive approaches motivates the traditional approach. Updated examples and data make the information current and topical. The book has an accompanying package, *UsingR*, available from CRAN, R's repository of user-contributed packages. The package contains the data sets mentioned in the text (`data(package=UsingR)`), answers to selected problems (`answers()`), a few demonstrations (`demo()`), the errata (`errata()`), and sample code from the text. The topics of this text line up closely with traditional teaching progression; however, the book also highlights computer-intensive approaches to motivate the more traditional approach. The authors emphasize realistic data and examples and rely on visualization techniques to gather insight. They introduce statistics and R seamlessly, giving students the tools they need to use R and the information they need to navigate the sometimes complex world of statistical computing.

Half of a Yellow Sun Chimamanda Ngozi Adichie, 2010-10-29 With her award-winning debut novel, *Purple Hibiscus*, Chimamanda Ngozi Adichie was heralded by the Washington Post Book World as the "21st century daughter" of Chinua Achebe. Now, in her masterly, haunting new novel, she recreates a seminal moment in modern African history: Biafra's impassioned struggle to establish an independent republic in Nigeria during the 1960s. With the effortless grace of a natural storyteller, Adichie weaves together the lives of five characters caught up in the extraordinary tumult of the decade. Fifteen-

year-old Ugwu is houseboy to Odenigbo, a university professor who sends him to school, and in whose living room Ugwu hears voices full of revolutionary zeal. Odenigbo's beautiful mistress, Olanna, a sociology teacher, is running away from her parents' world of wealth and excess; Kainene, her urbane twin, is taking over their father's business; and Kainene's English lover, Richard, forms a bridge between their two worlds. As we follow these intertwined lives through a military coup, the Biafran secession and the subsequent war, Adichie brilliantly evokes the promise, and intimately, the devastating disappointments that marked this time and place. Epic, ambitious and triumphantly realized, *Half of a Yellow Sun* is a more powerful, dramatic and intensely emotional picture of modern Africa than any we have had before.
