Gender, Design and Marketing Gloria Moss,2017-03-02 Product and service designers place increasing emphasis on the colour, form and appearance of what their organization offers and the language with which they describe it. Gloria Moss' erudite, sophisticated and fascinating book, guides the reader to an understanding of the way gender influences our visual perception. In this wide-ranging book the author explores design, visual aesthetics, language and communication, by drawing on an exhaustive range of primary sources of research from psychology, design, branding and communication. The lessons that emerge offer challenges to organizations both in the way in which their design and marketing is perceived by men and women, and how the make-up of their workforce may limit their ability to appreciate and address the diversity of customers' preferences. The challenge for management is to overcome these limitations and ensure that an organization's products and services mirror preferences of customers rather than those of senior managers.

The Tribes and Castes of the Central Provinces of India (Complete) Robert Vane Russell,2020-09-28 Up to a few centuries ago the Central Provinces remained outside the sphere of Hindu and Muhammadan conquest. To the people of northern India it was known as Gondwāna, an unexplored country of inaccessible mountains and impenetrable forests, inhabited by the savage tribes of Gonds from whom it took its name. Hindu kingdoms were, it is true, established over a large part of its territory in the first centuries of our era, but these were not accompanied by the settlement and opening out of the country, and were subsequently subverted by the Dravidian Gonds, who perhaps invaded the country in large numbers from the south between the ninth and twelfth centuries. Hindu immigration and colonisation from the surrounding provinces occurred at a later period, largely under the encouragement and auspices of Gond kings. The consequence is that the existing population is very diverse, and is made up of elements belonging to many parts of India. The people of the northern Districts came from Bundelkhand and the Gangetic plain, and here are found the principal castes of the United Provinces and the Punjab. The western end of the Nerbudda valley and Betūl were colonised from Mālwa and Central India. Berār and the Nāgpur plain fell to the Marāthas, and one of the most important Marātha States, the Bhonsla kingdom, had its capital at Nāgpur. Cultivators from western India came and settled on the land, and the existing population are of the same castes as the Marātha country or Bombay. But prior to the Marātha conquest Berār and the Nimar District of the Central Provinces had been included in the Mughal empire, and traces of Mughal rule remain in a substantial Muhammadan element in the population. To the south the Chānda District runs down to the Godāvari river, and the southern tracts of Chānda and Bastar

State are largely occupied by Telugu immigrants from Madras. To the east of the Nāgpur plain the large landlocked area of Chhattisgarh in the upper basin of the Mahānadi was colonised at an early period by Hindus from the east of the United Provinces and Oudh, probably coming through Jubbulpore. A dynasty of the Haihaivansi Rājput clan established itself at Ratanpur, and owing to the inaccessible nature of the country, protected as it is on all sides by a natural rampart of hill and forest, was able to pursue a tranquil existence untroubled by the wars and political vicissitudes of northern India. The population of Chhattisgarh thus constitutes to some extent a distinct social organism, which retained until quite recently many remnants of primitive custom. The middle basin of the Mahānadi to the east of Chhattisgarh, comprising the Sambalpur District and adjoining States, was peopled by Uriyas from Orissa, and though this area has now been restored to its parent province, notices of its principal castes have been included in these volumes. Finally, the population contains a large element of the primitive or non-Aryan tribes, rich in variety, who have retired before the pressure of Hindu cultivators to its extensive hills and forests. The people of the Central Provinces may therefore not unjustly be considered as a microcosm of a great part of India, and conclusions drawn from a consideration of their caste rules and status may claim with considerable probability of success to be applicable to those of the Hindus generally. For the same reason the standard ethnological works of other Provinces necessarily rank as the best authorities on the castes of the Central Provinces, and this fact may explain and excuse the copious resort which has been made to them in these volumes.

Folk Fashion Amy Twigger Holroyd, 2017-05-23 A dynamic resurgence in sewing and knitting is under way, with many people enjoying making and mending their own garments at home. However, stories abound of homemade clothes languishing at the back of the wardrobe. Amy Twigger Holroyd draws on ideas of fashion, culture and craft to explore makers' lived experiences of creating and wearing homemade clothes in a society dominated by shop-bought garments. Using the innovative metaphor of fashion as common land, Folk Fashion investigates the complex relationship between making, well-being and sustainability. Twigger Holroyd combines her own experience as a designer and knitter with first-hand accounts from folk fashion makers to explore this fascinating, yet under-examined, area of contemporary fashion culture. Looking to the future, she also considers how sewers and knitters might maximise the radical potential of their activities.

Reel Inequality Nancy Wang Yuen,2016-12-12 When the 2016 Oscar acting nominations all went to whites for the second consecutive year, #OscarsSoWhite became a trending topic. Yet these enduring racial biases afflict not only the Academy Awards, but also Hollywood as a whole. Why do actors of color, despite exhibiting talent and bankability, continue to lag behind white actors in presence and prominence? Reel Inequality examines the structural barriers minority actors face in Hollywood, while shedding light on how they survive in a racist industry. The book charts how white male gatekeepers dominate Hollywood, breeding a culture of ethnocentric storytelling and casting. Nancy Wang Yuen interviewed nearly a

hundred working actors and drew on published interviews with celebrities, such as Viola Davis, Chris Rock, Gina Rodriguez, Oscar Isaac, Lucy Liu, and Ken Jeong, to explore how racial stereotypes categorize and constrain actors. Their stories reveal the day-to-day racism actors of color experience in talent agents' offices, at auditions, and on sets. Yuen also exposes sexist hiring and programming practices, highlighting the structural inequalities that actors of color, particularly women, continue to face in Hollywood. This book not only conveys the harsh realities of racial inequality in Hollywood, but also provides vital insights from actors who have succeeded on their own terms, whether by sidestepping the system or subverting it from within. Considering how their struggles impact real-world attitudes about race and diversity, *Reel Inequality* follows actors of color as they suffer, strive, and thrive in Hollywood.

Threshold Concepts in Women's and Gender Studies Christie Launius, Holly Hassel, 2022-03-30 *Threshold Concepts in Women's and Gender Studies: Ways of Seeing, Thinking, and Knowing* is a textbook designed primarily for introduction to Women's and Gender Studies courses, with the intent of providing both a skill- and concept-based foundation in the field. The third edition includes fully revised and expanded case studies and updated statistics; in addition, the content has been updated throughout to reflect significant news stories and cultural developments. The text is driven by a single key question: What are the ways of thinking, seeing, and knowing that characterize Women's and Gender Studies and are valued by its practitioners? This book illustrates four of the most critical concepts in Women's and Gender Studies—the social construction of gender, privilege and oppression, intersectionality, and feminist praxis—and grounds these concepts in multiple illustrations. *Threshold Concepts in Women's and Gender Studies* develops the key concepts and ways of thinking that students need to develop a deep understanding and to approach material like feminist scholars do, across disciplines.

Star Wars: The Fallen Star (The High Republic) Claudia Gray, 2022-01-04 In this gripping sequel to *Star Wars: The Rising Storm*, the light of the Jedi faces its darkest hour. Time and again, the vicious raiders known as the Nihil have sought to bring the golden age of the High Republic to a fiery end. Time and again, the High Republic has emerged battered and weary, but victorious thanks to its Jedi protectors—and there is no monument to their cause grander than the Starlight Beacon. Hanging like a jewel in the Outer Rim, the Beacon embodies the High Republic at the apex of its aspirations: a hub of culture and knowledge, a bright torch against the darkness of the unknown, and an extended hand of welcome to the furthest reaches of the galaxy. As survivors and refugees flee the Nihil's attacks, the Beacon and its crew stand ready to shelter and heal. The grateful Knights and Padawans of the Jedi Order stationed there finally have a chance to recover—from the pain of their injuries and the grief of their losses. But the storm they thought had passed still rages; they are simply caught in its eye. Marchion Ro, the true mastermind of the Nihil, is preparing his most daring attack yet—one designed to snuff out the light of

the Jedi.
