**The Responsible Company** Yvon Chouinard, Vincent Stanley, 2013-10-06 The Responsible Company, by Yvon Chouinard, founder and owner of Patagonia, and Vincent Stanley, co-editor of its Footprint Chronicles, draw on the their 40 years' experience at Patagonia - and knowledge of current efforts by other companies - to articulate the elements of responsible

business for our time. Patagonia, named by Fortune in 2007 as the coolest company on the planet, has earned a reputation as much for its ground-breaking environmental and social practices as for the quality of its clothes. In this exceptionally frank account, Chouinard and Stanley recount how the company and its culture gained the confidence, by step and misstep, to make its work progressively more responsible, and to ultimately share its discoveries with companies as large as Wal-Mart or as small as the corner bakery. In plain, compelling prose, the authors describe the current impact of manufacturing and commerce on the planet's natural systems and human communities, and how that impact now forces business to change its ways. The Responsible Company shows companies how to reduce the harm they cause, improve the quality of their business, and provide the kind of meaningful work everyone seeks. It concludes with specific, practical steps every business can undertake, as well as advice on what to do, in what order. This is the first book to show companies how to thread their way through economic sea change and slow the drift toward ecological bankruptcy. Its advice is simple but powerful: reduce your environmental footprint (and its skyrocketing cost), make legitimate products that last, reclaim deep knowledge of your business and its supply chain to make the most of opportunities in the years to come, and earn the trust you'll need by treating your workers, customers and communities with respect.

*Gender, Design and Marketing* Gloria Moss, 2017-03-02 Product and service designers place increasing emphasis on the colour, form and appearance of what their organization offers and the language with which they describe it. Gloria Moss' erudite, sophisticated and fascinating book, guides the reader to an understanding of the way gender influences our visual perception. In this wide-ranging book the author explores design, visual aesthetics, language and communication, by drawing on an exhaustive range of primary sources of research from psychology, design, branding and communication. The lessons that emerge offer challenges to organizations both in the way in which their design and marketing is perceived by men and women, and how the make-up of their workforce may limit their ability to appreciate and address the diversity of customers' preferences. The challenge for management is to overcome these limitations and ensure that an organization's products and services mirror preferences of customers rather than those of senior managers.

*The Tribes and Castes of the Central Provinces of India (Complete)* Robert Vane Russell, 2020-09-28 Up to a few centuries ago the Central Provinces remained outside the sphere of Hindu and Muhammadan conquest. To the people of northern India it was known as Gondwāna, an unexplored country of inaccessible mountains and impenetrable forests, inhabited by the savage tribes of Gonds from whom it took its name. Hindu kingdoms were, it is true, established over a large part of its territory in the first centuries of our era, but these were not accompanied by the settlement and opening out of the country, and were subsequently subverted by the Dravidian Gonds, who perhaps invaded the country in large numbers from the south

between the ninth and twelfth centuries. Hindu immigration and colonisation from the surrounding provinces occurred at a later period, largely under the encouragement and auspices of Gond kings. The consequence is that the existing population is very diverse, and is made up of elements belonging to many parts of India. The people of the northern Districts came from Bundelkhand and the Gangetic plain, and here are found the principal castes of the United Provinces and the Punjab. The western end of the Nerbudda valley and Betul were colonised from Mālwa and Central India. Berār and the Nāgpur plain fell to the Marāthas, and one of the most important Marātha States, the Bhonsla kingdom, had its capital at Nāgpur. Cultivators from western India came and settled on the land, and the existing population are of the same castes as the Marātha country or Bombay. But prior to the Marātha conquest Berār and the Nimar District of the Central Provinces had been included in the Mughal empire, and traces of Mughal rule remain in a substantial Muhammadan element in the population. To the south the Chānda District runs down to the Godāvari river, and the southern tracts of Chānda and Bastar State are largely occupied by Telugu immigrants from Madras. To the east of the Nāgpur plain the large landlocked area of Chhattīsgarh in the upper basin of the Mahānadi was colonised at an early period by Hindus from the east of the United Provinces and Oudh, probably coming through Jubbulpore. A dynasty of the Haihaivansi Rājput clan established itself at Ratanpur, and owing to the inaccessible nature of the country, protected as it is on all sides by a natural rampart of hill and forest, was able to pursue a tranquil existence untroubled by the wars and political vicissitudes of northern India. The population of Chhattīsgarh thus constitutes to some extent a distinct social organism, which retained until quite recently many remnants of primitive custom. The middle basin of the Mahānadi to the east of Chhattīsgarh, comprising the Sambalpur District and adjoining States, was peopled by Uriyas from Orissa, and though this area has now been restored to its parent province, notices of its principal castes have been included in these volumes. Finally, the population contains a large element of the primitive or non-Aryan tribes, rich in variety, who have retired before the pressure of Hindu cultivators to its extensive hills and forests. The people of the Central Provinces may therefore not unjustly be considered as a microcosm of a great part of India, and conclusions drawn from a consideration of their caste rules and status may claim with considerable probability of success to be applicable to those of the Hindus generally. For the same reason the standard ethnological works of other Provinces necessarily rank as the best authorities on the castes of the Central Provinces, and this fact may explain and excuse the copious resort which has been made to them in these volumes.

*Folk Fashion* Amy Twigger Holroyd, 2017-05-23 A dynamic resurgence in sewing and knitting is under way, with many people enjoying making and mending their own garments at home. However, stories abound of homemade clothes languishing at the back of the wardrobe. Amy Twigger Holroyd draws on ideas of fashion, culture and craft to explore makers' lived experiences of creating and wearing homemade clothes in a society dominated by shop-bought garments. Using

the innovative metaphor of fashion as common land, Folk Fashion investigates the complex relationship between making, well-being and sustainability. Twigger Holroyd combines her own experience as a designer and knitter with first-hand accounts from folk fashion makers to explore this fascinating, yet under-examined, area of contemporary fashion culture. Looking to the future, she also considers how sewers and knitters might maximise the radical potential of their activities.

**Reel Inequality** Nancy Wang Yuen, 2016-12-12 When the 2016 Oscar acting nominations all went to whites for the second consecutive year, #OscarsSoWhite became a trending topic. Yet these enduring racial biases afflict not only the Academy Awards, but also Hollywood as a whole. Why do actors of color, despite exhibiting talent and bankability, continue to lag behind white actors in presence and prominence? Reel Inequality examines the structural barriers minority actors face in Hollywood, while shedding light on how they survive in a racist industry. The book charts how white male gatekeepers dominate Hollywood, breeding a culture of ethnocentric storytelling and casting. Nancy Wang Yuen interviewed nearly a hundred working actors and drew on published interviews with celebrities, such as Viola Davis, Chris Rock, Gina Rodriguez, Oscar Isaac, Lucy Liu, and Ken Jeong, to explore how racial stereotypes categorize and constrain actors. Their stories reveal the day-to-day racism actors of color experience in talent agents' offices, at auditions, and on sets. Yuen also exposes sexist hiring and programming practices, highlighting the structural inequalities that actors of color, particularly women, continue to face in Hollywood. This book not only conveys the harsh realities of racial inequality in Hollywood, but also provides vital insights from actors who have succeeded on their own terms, whether by sidestepping the system or subverting it from within. Considering how their struggles impact real-world attitudes about race and diversity, Reel Inequality follows actors of color as they suffer, strive, and thrive in Hollywood.

**Race and Retail** Mia Bay, Ann Fabian, 2015-08-04 Race has long shaped shopping experiences for many Americans. Retail exchanges and establishments have made headlines as flashpoints for conflict not only between blacks and whites, but also between whites, Mexicans, Asian Americans, and a wide variety of other ethnic groups, who have at times found themselves unwelcome at white-owned businesses. Race and Retail documents the extent to which retail establishments, both past and present, have often catered to specific ethnic and racial groups. Using an interdisciplinary approach, the original essays collected here explore selling and buying practices of nonwhite populations around the world and the barriers that shape these habits, such as racial discrimination, food deserts, and gentrification. The contributors highlight more contemporary issues by raising questions about how race informs business owners' ideas about consumer demand, resulting in substandard quality and higher prices for minorities than in predominantly white neighborhoods. In a wide-ranging exploration of the subject, they also address revitalization and gentrification in South Korean and Latino neighborhoods in California, Arab and Turkish coffeehouses and hookah lounges in South Paterson, New Jersey, and tourist capoeira consumption in Brazil. Race and Retail illuminates the complex play of forces at work in racialized retail markets and the

everyday impact of those forces on minority consumers. The essays demonstrate how past practice remains in force in subtle and not-so-subtle ways.
