Costume and Fashion in Color, 1760-1920, 1971 Covers the most colorful and exciting period in the history of fashion and shows just how much the present styles hark back to classical fashion.

Clothing and Fashion [4 volumes] José Blanco F., Patricia Kay Hunt-Hurst, Heather Vaughan Lee, Mary

Doering, 2015-11-23 This unique four-volume encyclopedia examines the historical significance of fashion trends, revealing the social and cultural connections of clothing from the precolonial times to the present day. This sweeping overview of fashion and apparel covers several centuries of American history as seen through the lens of the clothes we wear—from the Native American moccasin to Manolo Blahnik's contribution to stiletto heels. Through four detailed volumes, this work delves into what people wore in various periods in our country's past and why—from hand-crafted family garments in the 1600s, to the rough clothing of slaves, to the sophisticated textile designs of the 21st century. More than 100 fashion experts and clothing historians pay tribute to the most notable garments, accessories, and people comprising design and fashion. The four volumes contain more than 800 alphabetical entries, with each volume representing a different era. Content includes fascinating information such as that beginning in 1619 through 1654, every man in Virginia was required to plant a number of mulberry trees to support the silk industry in England; what is known about the clothing of enslaved African Americans; and that there were regulations placed on clothing design during World War II. The set also includes color inserts that better communicate the visual impact of clothing and fashion across eras.

Material Lives Serena Dyer,2021-01-28 Eighteenth-century women told their life stories through making. With its compelling stories of women's material experiences and practices, Material Lives offers a new perspective on eighteenth-century production and consumption. Genteel women's making has traditionally been seen as decorative, trivial and superficial. Yet their material archives, forged through fabric samples, watercolours, dressed prints and dolls' garments, reveal how women used the material culture of making to record and navigate their lives. Material Lives positions women as 'makers' in a consumer society. Through fragments of fabric and paper, Dyer explores an innovative way of accessing the lives of otherwise obscured women. For researchers and students of material culture, dress history, consumption, gender and women's history, it offers a rich resource to illuminate the power of needles, paintbrushes and scissors.
