Cat Sense John Bradshaw, 2013-09-10 Cats have been popular household pets for thousands of years, and their numbers only continue to rise. Today there are three cats for every dog on the planet, and yet cats remain more mysterious, even to their most adoring owners. Unlike dogs, cats evolved as solitary hunters, and, while many have learned to live alongside humans and even feel affection for us, they still don't quite "get us" the way dogs do, and perhaps they never will. But cats have rich emotional lives that we need to respect and understand if they are to thrive in our company. In *Cat Sense*, renowned anthrozoologist John Bradshaw takes us further into the mind of the domestic cat than ever before, using cutting-edge scientific research to dispel the myths and explain the true nature of our feline friends. Tracing the cat's evolution from lone predator to domesticated companion, Bradshaw shows that although cats and humans have been living together for at least eight thousand years, cats remain independent, predatory, and wary of contact with their own kind, qualities that often clash with our modern lifestyles. Cats still have three out of four paws firmly planted in the wild, and within only a few generations can easily revert back to the independent way of life that was the exclusive preserve of their predecessors some 10,000 years ago. Cats are astonishingly flexible, and given the right environment they can adapt to a life of domesticity with their owners—but to continue to do so, they will increasingly need our help. If we're to live in harmony with our cats, Bradshaw explains, we first need to understand their inherited quirks: understanding their body language, keeping their environments—however small—sufficiently interesting, and becoming more proactive in managing both their natural hunting instincts and their relationships with other cats. A must-read for any cat lover, *Cat Sense* offers humane, penetrating insights about the domestic cat that challenge our most basic assumptions and promise to dramatically improve our pets' lives—and ours.

Ruth Crawford Seeger Judith Tick, 2000-02-10 Ruth Crawford Seeger (1901-1953) is frequently considered the most significant American female composer in this century. Joining Aaron Copland and Henry Cowell as a key member of the 1920s musical avant-garde, she went on to study with modernist theorist and future husband Charles Seeger, writing her

masterpiece, String Quartet 1931, not long after. But her legacy extends far beyond the cutting edge of modern music. Collaborating with poet Carl Sandburg on folk song arrangements in the twenties, and with the famous folk-song collectors John and Alan Lomax in the 1930s, she emerged as a central figure in the American folk music revival, issuing several important books of transcriptions and arrangements and pioneering the use of American folk songs in children's music education. Radicalized by the Depression, she spent much of the ensuing two decades working aggressively for social change with her husband and stepson, the folksinger Pete Seeger. This engrossing new biography emphasizes the choices Crawford Seeger made in her roles as composer, activist, teacher, wife and mother. The first woman to win a Guggenheim Foundation Fellowship in music composition, Crawford Seeger nearly gave up writing music as the demands of family, politics, and the folk song movement intervened. It was only at the very end of her life, with cancer sapping her strength, that she returned to composing. Written with unique insight and compassion, this book offers the definitive treatment of a fascinating twentieth-century figure.

Pat Nixon Mary C. Brennan, 2023-08-18 Pat Nixon may be the least understood of modern first ladies. Although public opinion polls rated her one of our nation's most admired women, few Americans really knew much about her. This first scholarly biography of Thelma Ryan Nixon—the first biography in thirty-five years and the first to access her papers—goes further than any other book to show readers the real Pat Nixon. Lester David's *The Lonely Lady of San Clemente* painted her as a tragic figure while Julie Nixon Eisenhower's adoring *Pat Nixon: The Untold Story* fell short of offering an objective portrait. Now Mary Brennan moves beyond the oversimplified appraisals of this neglected first lady to provide a powerful study of a complex and fascinating presidential spouse. Drawing on Mrs. Nixon's recently opened papers—as well as on recollections of both friends and adversaries—Brennan debunks the myth of Plastic Pat and fleshes out the real woman behind the stories and stereotypes. The Nixons had more in common with small-town Americans than with Washington society, and Brennan shows that part of Pat's difficulty in dealing with the political world was that she never quite left the normal Pat behind. Political and social upheaval during her husband's presidency further complicated her role as first lady, as she had to confront a shifting cultural terrain with the whole world watching. Brennan emphasizes Pat's activism—the first presidential wife to serve as official government representative, as well as the most traveled—and examines her complicated relationship with her husband. Often seen as a good soldier, Pat, in reality, engaged in constant warfare with her husband and his advisers as she tried to protect her own schedule from interference from the West Wing. Blending empathy and objectivity, Brennan shows that Pat Nixon was a strong woman caught up in circumstances beyond her control who did as her ancestors had done: gritted her teeth and got the job done as best she could. This account of an embattled first lady opens a new window on the Nixon years and finally allows Pat Nixon to take center stage in her own life.

The Archaeology of Byzantine Anatolia Philipp Niewohner, 2017-03-17 This book accounts for the tumultuous period of the fifth to eleventh centuries from the Fall of Rome and the collapse of the Western Roman Empire through the breakup of the Eastern Roman Empire and loss of pan-Mediterranean rule, until the Turks arrived and seized Anatolia. The volume is divided into a dozen syntheses that each addresses an issue of intrigue for the archaeology of Anatolia, and two dozen case studies on single sites that exemplify its richness. Anatolia was the only major part of the Roman Empire that did not fall in late antiquity; it remained steadfast under Roman rule through the eleventh century. Its personal history stands to elucidate both the emphatic impact of Roman administration in the wake of pan-Mediterranean collapse. Thanks to Byzantine archaeology, we now know that urban decline did not set in before the fifth century, after Anatolia had already been thoroughly Christianized in the course of the fourth century; we know now that urban decline, as it occurred from the fifth century onwards, was paired with rural prosperity, and an increase in the number, size, and quality of rural settlements and in rural population; that this ruralization was halted during the seventh to ninth centuries, when Anatolia was invaded first by the Persians, and then by the Arabs---and the population appears to have sought shelter behind new urban fortifications and in large cathedrals. Further, it elucidates that once the Arab threat had ended in the ninth century, this ruralization set in once more, and most cities seem to have been abandoned or reduced to villages during the ensuing time of seeming tranquility, whilst the countryside experienced renewed prosperity; that this trend was reversed yet again, when the Seljuk Turks appeared on the scene in the eleventh century, devastated the countryside and led to a revival and refortification of the

former cities. This dynamic historical thread, traced across its extremes through the lens of Byzantine archaeology, speaks not only to the torrid narrative of Byzantine Anatolia, but to the enigmatic medievalization.

Anita Rée Karin Schick, 2017 Featuring works of Anita Rée (1885-1933) from all of her mediums including paintings, watercolors, drawings and handcrafted works, this book sheds new light on a multifaceted oeuvre that ranges from impressionistic outdoor painting to cubistic Mediterranean landscapes to portraits inspired by New Objectivity. As an independent woman of the art world Rée was between tradition and modernity, a German artist with international aspirations, and a Jew raised as a Protestant, Rée had several existences she lived between. Subsequently, Rée's subject matter refers to her in-between existence in a changing modern society during the Weimar Republic, and leads to the still relevant question of identity. Her self portraits reveal the self as a foreign being. She also depicts people of different origin, intimate female nudes, and exaggerated society gentlemen, the southern landscape as a place of yearning, figural images as secular portrayals with religious content, and solitary animals in barren dunes. This volume, showcasing Rée's range of work, delves into the marginalized feelings of the artists, and is sure to delight fans of Modern art.00Exhibition: Hamburger Kunsthalle, Hamburg, Germany (06.10.2017-04.02.2018).

The Dynamics of Transculturality Antje Flüchter, Jivanta Schöttli, 2014-11-04 The purpose of this volume is to identify and analyze the mechanisms and processes through which concepts and institutions of transcultural phenomena gain and are given momentum. Applied to a range of cases, including examples drawn from ancient Greece and modern India, the early modern Portuguese presence in China and politics of elite-mass dynamics in the People's Republic of China, the book provides a template for the study of transcultural dynamics over time. Besides the epochal range, the papers in this volume illustrate the thematic diversity assembled under the umbrella of the Heidelberg Cluster of Excellence "Asia and Europe in a Global Context." Drawing from both the humanities and social sciences, stretching across several world areas and centuries, the book is an interdisciplinary work, aptly reflected in the collaboration of its editors: a historian and political scientist.

Arte Del Poder Alvaro Soler del Campo, National Gallery of Art (Estados Unidos), Sociedad Estatal para la Acción Cultural Exterior (Spain), 2009 The Royal Armory in Madrid, assembled at a time when the Spanish Crown was at the height of its international power, is the oldest and one of the finest and largest armories in the world, imbued with great historical, artistic, and symbolic significance. Armor drawn from the unsurpassed holdings of the Spanish Royal Armory is shown in this

exhibition alongside portraits of rulers dressed in the same armor, painted by such masters as Peter Paul Rubens, Anthony van Dyck, Diego Velázquez, and Alonso Sánchez Coello. Several large and magnificent tapestries from the royal collection also depict the armor in use. Together, some 75 works illustrate the use of luxurious armor in projecting an image of royal power in Imperial Spain. The exhibition includes several full suits of armor, helmets, shields, and equestrian armor--worn in battle but more often in Renaissance parades, pageants, and jousting tournaments. The works of art on view date from the reigns of the Holy Roman Emperors Maximilian I of Austria (1508-1519) and Emperor Charles V (1519-1558), to those of his successors, King Philip II (1556-1598), King Philip III (1598-1621), and King Philip IV (1621-1665). This is the first time that the armor has been exhibited together with the portraits in which it is depicted.

Georges Seurat Michelle Foa, 2015-07-14 This revelatory study of Georges Seurat (1859-1891) explores the artist's profound interest in theories of visual perception and analyzes how they influenced his celebrated seascape, urban, and suburban scenes. While Seurat is known for his innovative use of color theory to develop his pointillist technique, this book is

the first to underscore the centrality of diverse ideas about vision to his seascapes, figural paintings, and drawings. Michelle Foa highlights the importance of the scientist Hermann von Helmholtz, whose work on the physiology of vision directly shaped the artist's approach. Foa contends that Seurat's body of work constitutes a far-reaching investigation into various modes of visual engagement with the world and into the different states of mind that visual experiences can produce. Foa's analysis also brings to light Seurat's sustained exploration of long-standing and new forms of illusionism in art. Beautifully illustrated with more than 140 paintings and drawings, this book serves as an essential reference on Seurat.

Pissarro's People Richard R. Brettell, 2011 KEYNOTE: This definitive portrait of Camille Pissarro by one of the world's foremost authorities on Impressionism and French painting reveals the deep connection between Pissarro's humanitarian concerns and his creative output. Throughout his career, the Impressionist artist Camille Pissarro produced a vast oeuvre of paintings, drawings, and prints inspired by his fascination with and commitment to politics. Many of these works reflect the tensions between his anarchist ideals and the realities of life in a capitalist society; however, most examinations of Pissarro have approached his art and politics as separate spheres. Published to accompany a major exhibition, this survey by a renowned expert on Impressionist painting offers a selection of canvases and works on paper that embody Pissarro's pictorial humanism at the highest level. Exhaustive archival study, interviews with surviving family members, and research drawn from thousands of newly discovered letters inform this rich and authoritative book. Including individual portraits of each of the family members Pissarro so often inserted into his paintings, it also examines his relationships with fellow artists, writers, neighbors, merchants, and domestic servants. The result is a refreshing and landmark reconsideration of the artist's magnificent body of work. AUTHOR: Richard R. Brettell has taught at Northwestern University, the University of Chicago, Yale University, and Harvard University, and is presently Margaret M. McDermott Distinguished Chair of Art and Aesthetic Studies at the University of Texas at Dallas. He is the author of numerous books on painting and Impressionism.
