Film Remakes NA NA,2016-10-03 This is the first book to provide a comprehensive and systematic account of the phenomenon of cinematic remaking. Drawing upon recent theories of genre and intertextuality, *Film Remakes* describes remaking as both an elastic concept and a complex situation, one enabled and limited by the interrelated roles and practices of industry, critics, and audiences. This approach to remaking is developed across three broad sections: the first deals with issues of production, including commerce and authors; the second considers genre, plots, and structures; and the third investigates issues of reception, including audiences and institutions.

Celtic Myth in Contemporary Children's Fantasy Dimitra Fimi,2017-03-06 Runner-up of the Katherine Briggs Folklore Award 2017 Winner of the Mythopoeic Scholarship Award for Myth & Fantasy Studies 2019 This book examines the creative uses of "Celtic" myth in contemporary fantasy written for children or young adults from the 1960s to the 2000s. Its scope ranges from classic children's fantasies such as Lloyd Alexander's *The Chronicles of Prydain* and Alan Garner's *The Owl Service*, to some of the most recent, award-winning fantasy authors of the last decade, such as Kate Thompson (*The New Policeman*) and Catherine Fisher (*Darkhenge*). The book focuses on the ways these fantasy works have appropriated and adapted Irish and Welsh medieval literature in order to highlight different perceptions of "Celticity." The term "Celtic" itself is interrogated in light of recent debates in Celtic studies, in order to explore a fictional representation of a national past that is often romanticized and political.

Transnational Film Remakes Iain Robert Smith,2017-03-08 What happens when a film is remade in another national context? How do notions of translation, adaptation and localisation help us understand the cultural dynamics of these shifts, and in what ways does a transnational perspective offer us a deeper understanding of film remaking? Bringing together a range of international scholars, *Transnational Film Remakes* is the first edited collection to specifically focus on the phenomenon of cross-cultural remakes. Using a variety of case studies, from Hong Kong remakes of Japanese cinema to Bollywood remakes of Australian television, this book provides an analysis of cinematic remaking that moves beyond Hollywood to address the truly global nature of this phenomenon. Looking at iconic contemporary titles such as *The Girl with the Dragon Tattoo* and *Oldboy*, as well as classics like *La Bete Humaine* and *La Chienne*, this book interrogates the fluid and dynamic ways in which texts are adapted and reworked across national borders to provide a distinctive new model for

understanding these global cultural borrowings.

Celtic Myth and Legend Charles Squire, 2013-01-16 Splendid compilation of tales ranges from Arthurian myth to less-familiar adventures, such as Finn and his Fenians, plus many other heroic figures from the Gaelic pantheon.

Film Noir Reader 4 Alain Silver, James Ursini, 2004 This text identifies a handful of plot elements that consistently recur within film noir and analyses in depth the memorable pictures that, while being vivid prototypes of certain cinematic themes, bend and break their moulds to find new ways to enthrall and frighten us.

The Concept of the Goddess Sandra Billington, Miranda Green, 2002-09-11 The Concept of the Goddess explores the function and nature of goddesses and their cults in many cultures, including: * Celtic * Roman * Norse * Caucasian * Japanese traditions. The contributors explore the reasons for the existence of so many goddesses in the mythology of patriarchal societies and show that goddesses have also assumed more masculine roles, with war, hunting and sovereignty being equally important aspects of their cults.

A Cinema Without Walls Timothy Corrigan, 1991 Corrigan argues that in the past 25 years the increased conglomerization of film production/distribution companies and the rise of VCR, satellite, and cable television technologies have altered the way films are made and how we view them. The result is a growing internationalization of national cinema cultures and an increasing fragmentation of the audience. Video has reduced the movie to private and domestic performance. At the same time, audiences are bombarded with a surfeit of images that leaves them with a battered sense of their place in history and culture. Corrigan notes that, combined with what many critics have recognized as the growing incoherence in film texts, these facts make it more meaningful to discuss films not as texts but as multiple cultural and commercial processes constructed by increasingly specialized audiences. ISBN 0-8135-1667-6: \$36.00.

The Analysis of Film Raymond Bellour, 2000 The Analysis of Film brings together the authors studies of classic Hollywood film. It is a book about the methods of close film analysis, the narrative structure of Hollywood film, Hitchcock's work and the role of women.

Genre and Hollywood Steve Neale, 2005-06-20 Genre and Hollywood provides a comprehensive introduction to the study of genre. In this important new book, Steve Neale discusses all the major concepts, theories and accounts of Hollywood and genre, as well as the key genres which theorists have written about, from horror to the Western. He also puts forward new arguments about the importance of genre in understanding Hollywood cinema. Neale takes issue with much genre criticism and genre theory, which has provided only a partial and misleading account of Hollywood's output. He calls for broader and more flexible conceptions of genre and genres, for more attention to be paid to the discourses and practices of Hollywood itself, for the nature and range of Hollywood's films to be looked at in more detail, and for any assessment of the social and cultural significance of Hollywood's genres to take account of industrial factors. In detailed, revisionist accounts of

two major genres - film noir and melodrama - Neale argues that genre remains an important and productive means of thinking about both New and old Hollywood, its history, its audiences and its films.

The Memory of Tiresias M. B. I [A]mpol'skiĭ, 1998-10-26 Iampolski deals with concepts and ideas that are highly complex and frequently very abstract, yet his discussion—and the progression of his analyses—is always precise and easy to follow. . . . Each of his points is grounded in a careful examination of a specific text, and most of the texts are well-known to American audiences.—Vladimir Padunov, University of Pittsburgh

The Scorsese Connection Lesley Stern, 1995 This account of Martin Scorsese's films explores 2 main avenues: the way Scorsese remakes other movies (Raging Bull replays The Red Shoes and Taxi Driver as a resurgence of The Searchers); and the way viewers absorb and relate to films.

The Mabinogion Tetralogy Evangeline Walton, 2003-12-30 The retelling of the epic Welsh myth that is “certainly among the top 5 fantasy series of the twentieth century” (sfsite.com). The Mabinogion is to Welsh mythology what the tales of Zeus, Hera, and Apollo are to Greek myth. these tales constitute a powerful work of the imagination, ranking with Tolkien's Lord of the Rings novels and T.H. White's The Once and Future King. Evangeline Walton's compelling rendition of these classic, thrilling stories of magic, betrayal, lost love, and bitter retribution include the encounter between Prince Pwyll and Arawn, the God of Death, which Pwyll survives by agreeing to kill the one man that Death cannot fell, and the tale of Bran the blessed and his family's epic struggle for the throne. The Mabinogion is internationally recognized as the world's finest arc of Celtic mythology; Walton's vivid retelling introduces an ancient world of gods and monsters, heroes, kings and quests, making accessible one of the greatest fantasy sagas of all time. “These books are not only the best fantasies of the twentieth century, but also great works of fiction. They are actual retellings of diverse legends of the Mabinogion in novel form . . . dealing with Good and Evil . . . and the nature of love.” —The Saturday Review (UK) “Magnificently conceived . . . persuasive and powerful . . . the product of keenly imaginative and well disciplined mind.” —August Derleth “Evangeline Watson's Mabinogion books remain the benchmark against which any future retellings of the stories must be measured.” —Diana L. Paxson

Irish Influence on Medieval Welsh Literature Patrick Sims-Williams, 2011 Patrick Sims-Williams provides an approach to some of the issues surrounding Irish literary influence on Wales, situating them in the context of the rest of medieval literature and international folklore.

The Atlantic Celts Simon James, 1999 The Celtic peoples of the British Isles hold a fundamental place in our national consciousness. In this book Simon James surveys ancient and modern ideas of the Celts and challenges them in the light of revolutionary new thinking on the Iron Age peoples of Britain. Examining how ethnic and national identities are constructed, he presents an alternative history of the British Isles, proposing that the idea of insular Celtic identity is really a product of

the rise of nationalism in the eighteenth century. He considers whether the 'Celticness' of the British Isles is a romantic fantasy, even a politically dangerous falsification of history which has implications in the current debate on devolution and self-government for the Celtic regions.

On a Panegyric Note, 2007

Tolkien the Medievalist Jane Chance, 2003-08-27 Interdisciplinary in approach, Tolkien the Medievalist provides a fresh perspective on J. R. R. Tolkien's Medievalism. In fifteen essays, eminent scholars and new voices explore how Professor Tolkien responded to a modern age of crisis - historical, academic and personal - by adapting his scholarship on medieval literature to his own personal voice. The four sections reveal the author influenced by his profession, religious faith and important issues of the time; by his relationships with other medievalists; by the medieval sources that he read and taught, and by his own medieval mythologizing.

Film Reboots Daniel Herbert, 2020-08-18 Through a set of vibrant case studies, this collection investigates rebooting as a practice that seeks to remake an entire film series or franchise, with ambitions that are at once respectful and revisionary.

Contemporary Hollywood Cinema STEVE NEALE, Murray Smith, 2013-04-15 A comprehensive overview of the film industry in Hollywood today, Contemporary Hollywood Cinema brings together leading international cinema scholars to explore the technology, institutions, film makers and movies of contemporary American film making.

Cinema Sequels and Remakes, 1903-1987 Robert A. Nowlan, Gwendolyn Wright Nowlan, 2000 There was the smashing American Graffiti--and there was the disappointing More American Graffiti, only one of thousands of Hollywood's attempts to capitalize on a hit or re-do a poorly screened gem of a story. Entries include basic information (studio, release date, cast, credits) and a description and comparison of the two (or more) films. Includes all films, silent or sound, from the genres of drama, adventure, romance, comedy and thriller, which have at least one English sound remake or sequel.

Welsh Celtic Myth in Modern Fantasy C. W. Sullivan III, 1989-03-07 This study provides a fascinating look at the various ways in which 20th-century fantasy writers have used Welsh Celtic mythology and folklore in their work. Following the theories formulated by such scholars as John Vickery and Joseph Campbell, the use of Celtic materials by each of the authors is discussed from a mythology-in-literature perspective. Sullivan presents an extensive accounting of the Celtic material used and explores the primary ways in which the authors incorporate it into their fiction, both structurally and thematically. Sullivan identifies and analyzes the nature and extent of Welsh Celtic influence on subsequent cultures and their literatures, and he considers some of the previous attempts to evaluate this influence. The appendixes provide valuable background materials, including critical commentary on the Welsh collection of myths, legends, folktales, and beliefs that are of major importance in the work of the six authors represented. Also included are extensive bibliographies of primary and secondary sources. Illuminating reading for students and scholars of mythology, modern fantasy, and children's literature,

this book sheds new light on the Welsh influence in literature and opens paths for further research.
