Making & Being Susan Jahoda, Caroline Woolard, 2020-01-23 Making and Being draws on the lived experience of Susan Jahoda and Caroline Woolard, visual arts educators who have developed a framework for teaching art with the collective BFAMFAPhD that emphasizes contemplation, collaboration, and political economy. The authors share ideas and pedagogical strategies that they have adapted to spaces of learning which range widely, from self-organized workshops for professional artists to Foundations BFA and MFA thesis classes. This hands-on guide includes activities, worksheets, and assignments and is a critical resource for artists and art educators today--Page 4 of cover.

Becoming Ms. Burton Susan Burton, Cari Lynn, 2019-02-12 Winner of the 2018 National Council on Crime & Delinquency's Media for a Just Society Awards Winner of the 2017 Goddard Riverside Stephan Russo Book Prize for Social Justice "Valuable . . . [like Michelle] Alexander's The New Jim Crow." —Los Angeles Review of Books "Susan Burton is a national treasure . . . her life story is testimony to the human capacity for resilience and recovery . . . [Becoming Ms. Burton is] a stunning memoir." —Nicholas Kristof, in The New York Times Winner of the prestigious NAACP Image Award, a uniquely American story of trauma, incarceration, and the breathtaking resilience of the human spirit (Michelle Alexander) Widely hailed as a stunning memoir, *Becoming Ms. Burton* is the remarkable life story of the renowned activist Susan Burton. In this stirring and moving tour-de-force (John Legend), Susan Burton movingly recounts her own journey through the criminal justice system and her transformation into a life of advocacy. After a childhood of immense pain, poverty, and abuse in Los Angeles, the tragic loss of her son led her into addiction, which in turn led to arrests and incarceration. During the War on Drugs, Burton was arrested and would cycle in and out of prison for more than fifteen years. When, by chance, she finally received treatment, her political awakening began and she became a powerful advocate for a more humane justice system guided by compassion and dignity (Booklist, starred review). Her award-winning organization, A New Way of Life, has transformed the lives of more than one thousand formerly incarcerated women and is an international model for a less punitive and more effective approach to rehabilitation and reentry. Winner of an NAACP Image Award and named a Best Book of 2017 by the Chicago Public Library, here is an unforgettable book about the breathtaking resilience of the human spirit (Michelle Alexander).

Taking Your Talent to the Web Jeffrey Zeldman, 2001 This is an explicit and detailed guide, an intelligent how-to book

for professionals. It lays the groundwork and creates context by exploring essential concepts, defines terms that may be new or unfamiliar, and then moves forward with practical software techniques. All the while it is building on the existing knowledge and experience of its professional design audience. Taking Your Talent to the Web is based on the Populi Curriculum in Web Communications Design, developed by Jeffrey Zeldman in cooperation with Populi, Inc., (www.populi.com) and the Pratt Institute. The book's purpose is to guide traditional art directors and print designers as they expand their existing careers to include the new field of professional Web Design.

Chromatic Cinema Richard Misek, 2010-04-26 Chromatic Cinema Color permeates film and its history, but study of its contribution to film has so far been fragmentary. Chromatic Cinema provides the first wide-ranging historical overview of screen color, exploring the changing uses and meanings of color in moving images, from hand painting in early skirt dance films to current trends in digital color manipulation. In this richly illustrated study, Richard Misek offers both a history and a theory of screen color. He argues that cinematic color emerged from, defined itself in response to, and has evolved in symbiosis with black and white. Exploring the technological, cultural, economic, and artistic factors that have defined this evolving symbiosis, Misek provides an in-depth yet accessible account of color's spread through, and ultimate effacement of, black-and-white cinema.

The Ethnic Project Vilna Bashi Treitler, 2013-08-14 A study of the racial-ethnic history of the United States and the perpetuation of racial hierarchy. Race is a known fiction—there is no genetic marker that indicates someone's race—yet the social stigma of race endures. In the United States, ethnicity is often positioned as a counterweight to race, and we celebrate our various hyphenated-American identities. But Vilna Bashi Treitler argues that we do so at a high cost: ethnic thinking simply perpetuates an underlying racism. In *The Ethnic Project*, Bashi Treitler considers the ethnic history of the United States from the arrival of the English in North America through to the present day. Tracing the histories of immigrant and indigenous groups—Irish, Chinese, Italians, Jews, Native Americans, Mexicans, Afro-Caribbeans, and African Americans—she shows how each negotiates America's racial hierarchy, aiming to distance themselves from the bottom and align with the groups already at the top. But in pursuing these "ethnic projects" these groups implicitly accept and perpetuate a racial hierarchy, shoring up rather than dismantling race and racism. Ultimately, *The Ethnic Project* shows how dangerous ethnic thinking can be in a society that has not let go of racial thinking. Praise for *The Ethnic Project* "An outstanding work that makes an important contribution to our understanding of the past and present racial history of the United States. The book is very well written (Bashi Treitler's prose is a delight to read) and meticulously researched *The Ethnic Project* should definitely be part of the conversation as we press forward with the task of understanding race in the United States." —Ashley

“Woody” Doane, American Journal of Sociology “Treitler offers a succinct history and diagnosis of racial grouping in the U.S., from the nation’s origin to the contemporary moment The text has solid promise as an introductory ethnic studies course reading Highly recommended.” —N. B. Barnd, CHOICE “With her ingenious concept of ‘ethnic projects,’ Vilna Bashi Treitler brings a new optic to the study of race [and] provides an authoritative answer to those who ask the tired question, ‘We made it, why haven’t they?’” —Stephen Steinberg, author of Race Relations: A Critique “Treitler masterfully weaves race and ethnicity into a single historical narrative that reveals the ugly reality of exploitation and stratification that has always undergirded American society.” —Douglas S. Massey, Princeton University

Criticizing Photographs Terry Barrett, Professor, 2011-03-24 This brief text is designed to help both beginning and advanced students of photography better develop and articulate thoughtful criticism. Organized around the major activities of criticism (describing, interpreting, evaluating, and theorizing), Criticizing Photographs provides a clear framework and vocabulary for students' critical skill development.

Racism and Psychiatry Morgan M. Medlock, Derri Shtasel, Nhi-Ha T. Trinh, David R. Williams, 2018-10-04 This book addresses the unique sociocultural and historical systems of oppression that have alienated African-American and other racial minority patients within the mental healthcare system. This text aims to build a novel didactic curriculum addressing racism, justice, and community mental health as these issues intersect clinical practice. Unlike any other resource, this guide moves beyond an exploration of the problem of racism and its detrimental effects, to a practical, solution-oriented discussion of how to understand and approach the mental health consequences with a lens and sensitivity for contemporary justice issues. After establishing the historical context of racism within organized medicine and psychiatry, the text boldly examines contemporary issues, including clinical biases in diagnosis and treatment, addiction and incarceration, and perspectives on

providing psychotherapy to racial minorities. The text concludes with chapters covering training and medical education within this sphere, approaches to supporting patients coping with racism and discrimination, and strategies for changing institutional practices in mental healthcare. Written by thought leaders in the field, *Racism and Psychiatry* is the only current tool for psychiatrists, psychologists, administrators, educators, medical students, social workers, and all clinicians working to treat patients dealing with issues of racism at the point of mental healthcare.

L.A. Rebellion Allyson Field, 2015-11-13 *L.A. Rebellion: Creating a New Black Cinema* is the first book dedicated to the films and filmmakers of the L.A. Rebellion, a group of African, Caribbean, and African American independent film and video artists that formed at the University of California, Los Angeles, in the 1970s and 1980s. The group—including Charles Burnett, Julie Dash, Haile Gerima, Billy Woodberry, Jamaa Fanaka, and Zeinabu irene Davis—shared a desire to create alternatives to the dominant modes of narrative, style, and practice in American cinema, works that reflected the full complexity of Black experiences. This landmark collection of essays and oral histories examines the creative output of the L.A. Rebellion, contextualizing the group's film practices and offering sustained analyses of the wide range of works, with particular attention to newly discovered films and lesser-known filmmakers. Based on extensive archival work and preservation, this collection includes a complete filmography of the movement, over 100 illustrations (most of which are previously unpublished), and a bibliography of primary and secondary materials. This is an indispensable sourcebook for scholars and enthusiasts, establishing the key role played by the L.A. Rebellion within the histories of cinema, Black visual culture, and postwar art in Los Angeles.

Complete PCB Design Using OrCad Capture and Layout Kraig Mitzner, 2011-04-01 *Complete PCB Design Using OrCad Capture and Layout* provides instruction on how to use the OrCAD design suite to design and manufacture printed circuit boards. The book is written for both students and practicing engineers who need a quick tutorial on how to use the software and who need in-depth knowledge of the capabilities and limitations of the software package. There are two goals the book aims to reach: The primary goal is to show the reader how to design a PCB using OrCAD Capture and OrCAD Layout. Capture is used to build the schematic diagram of the circuit, and Layout is used to design the circuit board so that it can be manufactured. The secondary goal is to show the reader how to add PSpice simulation capabilities to the design, and how to develop custom schematic parts, footprints and PSpice models. Often times separate designs are produced for documentation, simulation and board fabrication. This book shows how to perform all three functions from the same schematic design. This approach saves time and money and ensures continuity between the design and the manufactured product. Information is presented in the exact order a circuit and PCB are designed Straightforward, realistic examples present the how and why the designs work, providing a comprehensive toolset for understanding the OrCAD software Introduction to the IPC, JEDEC, and IEEE standards relating to PCB design Full-color interior and extensive illustrations

allow readers to learn features of the product in the most realistic manner possible

Women over 50 Varda Muhlbauer, Joan C. Chrisler, 2007-08-18 This book analyzes the challenges, benefits, coping strategies, problems, and accomplishments associated with the midlife experience of women. Ten chapters present the state of research (and correct longstanding myths) regarding significant aspects of middle-aged women's lives. The book bridges a major knowledge gap in the feminist-psychology literature. It balances optimism and realism about older women's lives – and younger women's futures.

Public Relations in the Digital Age, 1Ce Tom Kelleher, Anne Marie Males, 2020-01-15 The new standard for public relations in Canada The most current coverage of social and new media strategies Public Relations in the Digital Age presents a clear, engaging, and contemporary picture of public relations principles while seamlessly integrating technical and cultural shifts. Examining classical foundations and the modern landscape, this Canadian edition approaches basic PR knowledge in a way that reflects today's participatory communication environment.

Intern Nation Ross Perlin, 2012-04-04 Millions of young people—and increasingly some not-so-young people—now work as interns. They famously shuttle coffee in a thousand magazine offices, legislative backrooms, and Hollywood studios, but they also deliver aid in Afghanistan, map the human genome, and pick up garbage. Intern Nation is the first exposé of the exploitative world of internships. In this witty, astonishing, and serious investigative work, Ross Perlin profiles fellow interns, talks to academics and professionals about what unleashed this phenomenon, and explains why the intern boom is perverting workplace practices around the world. The hardcover publication of this book precipitated a torrent of media coverage in the US and UK, and Perlin has added an entirely new afterword describing the growing focus on this woefully underreported story. Insightful and humorous, Intern Nation will transform the way we think about the culture of work.

Criticizing Photographs Terry Barrett, 2020-11-29 Emphasizing the understanding of images and their influences on how they affect our attitudes, beliefs, and actions, this fully updated sixth edition offers consequential ways of looking at images from the perspectives of photographers, critics, theoreticians, historians, curators, and editors. It invites informed conversations about meanings and implications of images, providing multiple and sometimes conflicting answers to questions such as: What are photographs? Should they be called art? Are they ethical? What are their implications for self, society, and the world? From showing how critics verbalize what they see in images and how they persuade us to see similarly, to dealing with what different photographs might mean, the book posits that some interpretations are better than others and explains how to deliberate among competing interpretations. It looks at how the worth of photographs is judged aesthetically and socially, offering samples and practical considerations for both studio critiques for artists and professional criticism for public audiences. This book is a clear and accessible guide for students of art history, photography and criticism, as well as anyone interested in carefully looking at and talking about photographs and their effects on the world in which we live.

An Introduction to Regression Graphics R. Dennis Cook, Sanford Weisberg, 2009-09-25 Covers the use of dynamic and interactive computer graphics in linear regression analysis, focusing on analytical graphics. Features new techniques like plot rotation. The authors have composed their own regression code, using Xlisp-Stat language called R-code, which is a nearly complete system for linear regression analysis and can be utilized as the main computer program in a linear regression course. The accompanying disks, for both Macintosh and Windows computers, contain the R-code and Xlisp-Stat. An Instructor's Manual presenting detailed solutions to all the problems in the book is available upon request from the Wiley editorial department.

Black Film, White Money Jesse Algeron Rhines, 1996 Why are there so few Black filmmakers who control their own work? Why are there scarcely any Black women behind the camera? What happens to Black filmmakers when they move from independent production to the mainstream? What does it mean for whites to control Black images and their distribution globally? And, was it always so? Could it be different? In this vivid portrait of their historic and present-day contributions, Jesse Rhines explores the roles African American men and women have played in the motion picture business from 1915 to the present. He illuminates his discussion by carefully linking the history of early Black filmmaking to the current success of African American filmmakers and examines how African Americans have been affected by changes that have taken place in the industry as a whole. He focuses on the crucial role of distribution companies, the difficulty of raising money for production, the compromises that directors and writers must make to get funding, and the effect of negative, sensationalistic images on the Black community. Many well-known directors, including Spike Lee, Reginald Hudlin, and Grace Blake are interviewed in the book, allowing Rhines to give readers an inside look at how deal making does--or does not--work. Rhines surveys significant eras in film history and their impact on African Americans, from the silent era and the impact of *The Birth of a Nation*, through the emergence of the Black-owned Lincoln Motion Picture Company, and the later introduction of sound, to the postwar era, the antitrust suit against Paramount Pictures, the introduction of television, and Blaxploitation movies that won audiences back. He brings the story up to date with present-day blockbusters and the success of Spike Lee, who began as an independent and became a force in the industry, and others who hope to follow in Lee's footsteps. Rhines, who has worked behind the camera himself, reflects on independent filmmaking, the risks of both failure and success, and his hope for positive change in the African American community if more African American filmmakers can come to the forefront in the business.

Latina/o Sexualities Marysol Asencio, 2010 Latina/os are currently the largest minority population in the United States. They are also one of the fastest growing. Yet, we have very limited research and understanding of their sexualities. Instead, stereotypical images flourish even though scholars have challenged the validity and narrowness of these images and the lack of attention to the larger social context. Gathering the latest empirical work in the social and behavioral sciences, this reader

offers us a critical lens through which to understand these images and the social context framing Latina/os and their sexualities. Situated at the juncture of Latina/o studies and sexualities studies, *Latina/o Sexualities* provides a single resource that addresses the current state of knowledge from a multidisciplinary perspective. Contributors synthesize and critique the literature and carve a separate space where issues of Latina/o sexualities can be explored given the limitations of prevalent research models. This work compels the current wave in sexuality studies to be more inclusive of ethnic minorities and sets an agenda that policy makers and researchers will find invaluable.

The Encyclopedia of International Organized Crime Carlo DeVito, 2005 A comprehensive overview of organized crime from a global perspective features more than 450 entries that examine the world's most notorious crime syndicates, discussing the origins and history, practices, and role in the global underworld of such criminal organizations as the Yakuza, the Triads, the Jamaican Posse, the South American drug cartels, the Russian Mafia, and others. Simultaneous.

Intimate Partner Sexual Violence Louise McOrmond Plummer, Jennifer Y. Levy-Peck, Patricia Easteal, 2013-10-21 Intimate Partner Sexual Violence (IPSV) is the most common type of sexual violence and a common component of domestic violence, yet most cases go unreported and service responses are often inadequate. This book brings together advice for all those professionals working with individuals who have experienced IPSV and puts forward recommendations to tackle this prevalent form of sexual violence. With contributions from leading experts on IPSV, *Intimate Partner Sexual Violence* is a comprehensive guide to the subject which bridges the gap between research and practice. Multidisciplinary and international in approach, the book covers key issues salient to all professionals - the impact of IPSV, reproductive coercion, the physical and psychological indicators, possible consequences of taking a case to court, and best practice service responses. One section also addresses the risks and needs of IPSV victims in different contexts, such as those in same-sex or teenage relationships, immigrant victims, and those living in rural areas or in prison. This is an authoritative resource for all professionals who work with IPSV victims including counselors, social workers, refuge workers, victim advocates, mental health professionals, pastoral workers, lawyers, police, and health practitioners.
