Building Chicago's Subways David Sadowski,2018 While the elevated Chicago Loop is justly famous as a symbol of the city, the fascinating history of its subways is less well known. The City of Chicago broke ground on what would become the

Initial System of Subways during the Great Depression and finished 20 years later. This gigantic construction project, a part of the New Deal, would overcome many obstacles while tunneling through Chicago's soft blue clay, under congested downtown streets, and even beneath the mighty Chicago River. Chicago's first rapid transit subway opened in 1943 after decades of wrangling over routes, financing, and logistics. It grew to encompass the State Street, Dearborn-Milwaukee, and West Side Subways, with the latter modernizing the old Garfield Park L into the median of Chicago's first expressway. Take a trip underground and see how Chicago's I Will spirit overcame challenges and persevered to help with the successful building of the subways that move millions. Building Chicago's subways was national news and a matter of considerable civic pride--making it a Second City no more

Global Healing Karen Laura Thornber,2020-03-02 Read an interview with Karen Thornber. In Global Healing: Literature, Advocacy, Care, Karen Laura Thornber analyzes how narratives from diverse communities globally engage with a broad variety of diseases and other serious health conditions and advocate for empathic, compassionate, and respectful care that facilitates healing and enables wellbeing. The three parts of this book discuss writings from Africa, the Americas, Asia, Europe, the Middle East, and Oceania that implore societies to shatter the devastating social stigmas which prevent billions from accessing effective care; to increase the availability of quality person-focused healthcare; and to prioritize partnerships that facilitate healing and enable wellbeing for both patients and loved ones. Thornber's Global Healing remaps the contours of comparative literature, world literature, the medical humanities, and the health humanities. Watch a video interview with Thornber by the Mahindra Humanities Center, part of their conversations on Covid-19. Read an interview with Thornber on Brill's Humanities Matter blog.

Investigations on the Gray Snapper, Lutjanus Griseus Walter A. Starck,Robert E. Schroeder,1971 Gray snappers were collected from four different habitats and examined for trematodes. The incidence of each trematode was calculated for each habitat during each season. Intermediate hosts of the trematodes were also collected. It was found that the habitat in which gray snappers reside is more important than their size, sex, or the season of the year in determining the nature of their trematode populations. This may be the result of the intermediate host distribution being regulated by the habitat. Seasonal

changes in trematode populations result from fish movements, such as spawning migrations or movements in response to cold water. The differences between the trematode populations of large and small snappers probably are a function of their residing in different habitats and eating different organisms. The sex of gray snappers has no discernable [i.e. discernible] effect on their trematode populations. *Metadena obscura* sp. n. (Cryptogonimidae) was found in the pyloric caeca and intestine of *Lutjanus griseus* (Linnaeus). Nine species of trematodes were found in the intestine and pyloric caeca of *Lutjanus griseus* near Lower Matecumbe Key: *Metadena globosa*, *M. adglobosa*, *M. obscura*, *Paracryptogonimus neoamericanus*, *Hamacreadium mutabile*, *H. gulella*, *Helicometrina nimia*, *Helicometra execta*, and *Stephanostomum casum*.

Environmental Justice and Environmentalism Ronald Sandler, Ronald D. Sandler, Ronald L. Sandler, Phaedra C. Pezzullo, 2007 In ten essays, contributors from a variety of disciplines consider such topics as the relationship between the two movements' ethical commitments and activist goals, instances of successful cooperation in U.S. contexts, and the challenges posed to both movements by globalisation and climate change.

Magical Worlds of the Wizard of Ads Roy H. Williams, 2001 The Wizard shares the secrets of business persuasion that are taught at his renowned Academy.

Darling Frederic Raphael, 2012-12-10 First published in 1965, this is a tale of the face that has launched a thousand billboards. Diana Scott is The Happiness Girl in ads plastered all over the country, and she's hunting happiness in more ways than she's care to confess. She's the darling of the rich and powerful: of Prince Cesare della Romita...of TV writer and interviewer Robert Gold...of suave business success Miles Brand. She's the life of the Dolce Vita, Paris version - a reckless seeker of self, caught up in a frenzied sexcursion of jet-set Europe. This is her story - a novel based on the bold and powerful Joseph E. Levine motion picture.

The Pedagogy of Images Marina Balina, Serguei A. Oushakine, 2021-06-01 In the 1920s, with the end of the revolution, the Soviet government began investing resources and energy into creating a new type of book for the first generation of young Soviet readers. In a sense, these early books for children were the ABCs of Soviet modernity; creatively illustrated and intricately designed, they were manuals and primers that helped the young reader enter the field of politics through literature. Children's books provided the basic vocabulary and grammar for understanding new, post-revolutionary realities, but they also taught young readers how to perceive modern events and communist practices. Relying on a process of dual-media rendering, illustrated books presented propaganda as a simple, repeatable narrative or verse, while also casting it in easily recognizable graphic images. A vehicle of ideology, object of affection, and product of labour all in one, the illustrated book for the young Soviet reader emerged as an important cultural phenomenon. Communist in its content, it was often

avant-gardist in its form. Spotlighting three thematic threads – communist goals, pedagogy, and propaganda – *The Pedagogy of Images* traces the formation of a mass-modern readership through the creation of the communist-inflected visual and narrative conventions that these early readers were meant to appropriate.

A Century of Subways Brian J. Cudahy, 2009-08-25 The transit historian and author of *Under the Sidewalks of New York* delivers a lively and authoritative history of New York City's fabled subway. On the afternoon of October 27, 1904, ordinary New Yorkers descended beneath the sidewalks for the first time to ride the electric-powered trains of the newly inaugurated Interborough Rapid Transit System. More than a century later, the subway has expanded greatly, weaving its way into the fabric of New York's unique and diverse urban life. In *A Century of Subways*, transit historian Brian J. Cudahy offers a fascinating tribute to New York's storied and historic subway system, from its earliest beginnings and many architectural achievements, to the ways it helped shape today's modern metropolis. Taking a fresh look at one of the marvels of the twentieth century, Cudahy creates a vivid sense of this extraordinary system and the myriad ways the city was transformed once New Yorkers started riding below the ground.

Survival Mom Lisa Bedford, 2012-04-24 From the creator of TheSurvivalMom.com comes this first-of-its-kind guidebook for all the "prepper" moms keen to increase their family's level of preparedness for emergencies and crises of all shapes and sizes. Publisher's Weekly calls Lisa Bedford's *Survival Mom* an "impressively comprehensive manual," saying, "suburban mom Bedford helps readers learn about, prepare for, and respond to all manner of disasters. . . . From 'Instant Survival Tip' sidebars to a list of 'Lessons from the Great Depression'. . . Bedford's matter-of-fact yet supportive tone will keep the willies at bay."
