Janis A. Tomlinson

Goya Janis A. Tomlinson, 2002-03-11 Francisco Goya y Lucientes (1746-1828) created magnificent paintings, tapestry designs, prints, and drawings over the course of his long and productive career. Women frequently appeared as the subjects of Goya's works, from his brilliantly painted cartoons for the Royal Tapestry Factory to his stunning portraits of some of the most powerful women in Madrid. This groundbreaking book is the first to examine the representations of women within Goya's multifaceted art, and in so doing, it sheds new light on the evolution of his artistic creativity as well as on the roles assumed by women in late eighteenth- and early nineteenth-century Spain. Many of Goya's most famous works are featured and explicated in this beautifully designed and produced book. The artist's famous tapestry cartoons are included, along with the tapestries woven after them for the royal palaces of the Prado and the Escorial. Goya's infamous Naked Maja and Clothed Maja are also highlighted, with a discussion on whether these works were painted at the same time and how they might have originally hung in relation to one another. Focus is also placed on Goya's more experimental prints and drawings, in which the artist depicted women alternatively as targets of satire, of sympathy, or of admiration. Essays by eminent authorities provide a historical and cultural context for Goya's work, including a discussion on the significance of fashion and dress during the period. The resultant volume is surely to be treasured by all who admire Goya's art and by those who are interested in women's issues of his time.

The Tale of Genji John T. Carpenter, Melissa McCormick, Monika Bincsik, Kyoko Kinoshita, Sano Midori, 2019-03-04 With its vivid descriptions of courtly society, gardens, and architecture in early eleventh-century Japan, The Tale of Genji—recognized as the world's first novel—has captivated audiences around the globe and inspired artistic traditions for one thousand years. Its female author, Murasaki Shikibu, was a diarist, a renowned poet, and, as a tutor to the young empress, the ultimate palace insider; her monumental work of fiction offers entry into an elaborate, mysterious world of court romance, political intrigue, elite customs, and religious life. This handsomely designed and illustrated book explores the outstanding art associated with Genji through in-depth essays and discussions of more than one hundred works. The Tale of Genji has influenced all forms of Japanese artistic expression, from intimately scaled albums to boldly designed hanging scrolls and screen paintings, lacquer boxes, incense burners, games, palanquins for transporting young brides to their new homes, and even contemporary manga. The authors, both art historians and Genji scholars, discuss the tale's transmission and reception over the centuries; illuminate its place within the history of Japanese literature and calligraphy; highlight its key episodes and characters; and explore its wide-ranging influence on Japanese culture, design, and aesthetics into the modern era. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 14.0px Verdana}

Articulating the Hijāba: Cultural Patronage and Political Legitimacy in al-Andalus Mariam Rosser-Owen, 2021-12-20 In *Articulating the Hijāba*, Mariam Rosser-Owen analyses for the first time the artistic and cultural patronage of the 'Amirid regents of the last Cordoban Umayyad caliph, Hisham II, a period rarely covered in the historiography of al-Andalus. Al-Mansur, the founder of this dynasty, is usually considered a usurper of caliphal authority, who pursued military victory at the expense of the transcendental achievements of the first two caliphs. But he also commissioned a vast extension to the Great Mosque of Cordoba, founded a palatine city, conducted skilled diplomatic relations, patronised a circle of court poets, and owned some of the most spectacular objects to survive from al-Andalus, in ivory and marble. This study presents the evidence for a reconsideration of this period.

Elementary Probability for Applications Rick Durrett, 2009-07-31 This clear and lively introduction to probability theory concentrates on the results that are the most useful for applications, including combinatorial probability and Markov chains. Concise and focused, it is designed for a one-semester introductory course in probability for students who have some familiarity with basic calculus. Reflecting the author's philosophy that the best way to learn probability is to see it in action, there are more than 350 problems and 200 examples. The examples contain all the old standards such as the birthday problem and Monty Hall, but also include a number of applications not found in other books, from areas as broad ranging as genetics, sports, finance, and inventory management.

As the first people to convert officially to Christianity, they commissioned and produced some of the most extraordinary religious objects of the Middle Ages. These objects—from sumptuous illuminated manuscripts to handsome carvings, liturgical furnishings, gilded reliquaries, exquisite textiles, and printed books—show the strong persistence of their own cultural identity, as well as the multicultural influences of Armenia's interactions with Romans, Byzantines, Persians, Muslims, Mongols, Ottomans, and Europeans. This unprecedented volume, written by a team of international scholars and

members of the Armenian religious community, contextualizes and celebrates the compelling works of art that define Armenian medieval culture. It features breathtaking photographs of archaeological sites and stunning churches and monasteries that help fill out this unique history. With groundbreaking essays and exquisite illustrations, *Armenia* illuminates the singular achievements of a great medieval civilization. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 14.0px Verdana}

Satiric Advice on Women and Marriage Warren S. Smith, 2010-02-24 Advice on sex and marriage in the literature of antiquity and the middle ages typically stressed the negative: from stereotypes of nagging wives and cheating husbands to nightmarish visions of women empowered through marriage. *Satiric Advice on Women and Marriage* brings together the leading scholars of this fascinating body of literature. Their essays examine a variety of ancient and early medieval writers' cautionary and often eccentric marital satire beginning with Plautus in the third century B.C.E. through Chaucer (the only non-Latin author studied). The volume demonstrates the continuity in the Latin tradition which taps into the fear of marriage and intimacy shared by ancient ascetics (Lucretius), satirists (Juvenal), comic novelists (Apuleius), and by subsequent Christian writers starting with Tertullian and Jerome, who freely used these ancient sources for their own purposes, including propaganda for recruiting a celibate clergy and the promotion of detachment and asceticism as Christian ideals. Warren S. Smith is Professor of Classical Languages at the University of New Mexico.

Ancient Terracottas from South Italy and Sicily in the J. Paul Getty Museum Maria Lucia Ferruzza, 2016-01-25 In the ancient world, terracotta sculpture was ubiquitous. Readily available and economical—unlike stone suitable for carving—clay allowed artisans to craft figures of remarkable variety and expressiveness. Terracottas from South Italy and Sicily attest to the prolific coroplastic workshops that supplied sacred and decorative images for sanctuaries, settlements, and cemeteries. Sixty terracottas are investigated here by noted scholar Maria Lucia Ferruzza, comprising a selection of significant types from the Getty's larger collection—life-size sculptures, statuettes, heads and busts, altars, and decorative appliques. In addition to the comprehensive catalogue entries, the publication includes a guide to the full collection of over one thousand other figurines and molds from the region by Getty curator of antiquities Claire L. Lyons. The free online edition of this open-access catalogue, available at www.getty.edu/publications/terracottas/ includes zoomable high-resolution photography and a select number of 360° rotations; the ability to filter the catalogue by location, typology, and date; and an interactive map drawn from the Ancient World Mapping Center and linked to the Getty's Thesaurus of Geographic Names and Pleiades. Also available are free PDF, EPUB, and Kindle/MOBI downloads of the book; CSV and JSON downloads of the object data from the

catalogue and the accompanying Guide to the Collection; and JPG and PPT downloads of the main catalogue images.

Aspects of Contemporary Book Design Richard Hendel, 2013-06-15 In this manifestly practical book, Richard Hendel has invited book and journal designers he admires to describe how they approach and practice the craft of book design. Designers with interesting and varied careers in the field, who work with contemporary technology in today's publishing environment, describe their methods of managing the challenges presented by specific types of books, presented side by side with numerous images from those books. Not an instruction manual but a unique, on-the-job, title page-to-index guide to the ways that professional British and American designers think about design, *Aspects of Contemporary Book Design* continues the conversation that began with Hendel's 1998 classic, *On Book Design*. Contributing designers who focus on solving problems posed by nonfiction, fiction, cookbooks, plays, poetry, illustrated books, and journals include Cherie Westmoreland, Amy Ruth Buchanan, Mindy Basinger Hill, Nola Burger, Ron Costley, Kristina Kachele, Barbara Wiedemann, and Sue Hall, as well as a host of other designers, typesetters, editors, and even an author. Abbey Gaterud attempts to define the conundrum that the e-book presents to designers; Kent Lew describes the evolution of his Whitman typeface family; Charles Ellertson reflects upon the vital relationship between the typesetter and the designer; and Sean Magee writes about the uneasy alliance between designers and editors. In an extended essay that is as frank and funny as it is illuminating, Andrew Barker takes the reader deep into the morass—excavating the fine, finer, and finest details of working through a series design. At the heart of this copiously illustrated book is the enduring need for design that clarifies the way for the reader, whether on the printed page or on the computer screen. Blending his roles as designer, author, interviewer, and editor, Hendel reaches across both sides of the drafting table—both real and virtual—to create a book that will appeal to aspiring and seasoned book designers as well as writers, editors, and readers who want to know more about the visual presentation of the written word.

Raceless Georgina Lawton, 2021-02-23 A Bustle Most Anticipated Debut of the Year From The Guardian's Georgina Lawton, a moving examination of how racial identity is constructed—through the author's own journey grappling with secrets and stereotypes, having been raised by white parents with no explanation as to why she looked black. Raised in sleepy English suburbia, Georgina Lawton was no stranger to homogeneity. Her parents were white; her friends were white; there was no reason for her to think she was any different. But over time her brown skin and dark, kinky hair frequently made her a target of prejudice. In Georgina's insistently color-blind household, with no acknowledgement of her difference or access to

black culture, she lacked the coordinates to make sense of who she was. It was only after her father's death that Georgina began to unravel the truth about her parentage—and the racial identity that she had been denied. She fled from England and the turmoil of her home-life to live in black communities around the globe—the US, the UK, Nicaragua, Cuba, the Dominican Republic, Vietnam, and Morocco—and to explore her identity and what it meant to live in and navigate the world as a black woman. She spoke with psychologists, sociologists, experts in genetic testing, and other individuals whose experiences of racial identity have been fraught or questioned in the hopes of understanding how, exactly, we identify ourselves. *Raceless* is an exploration of a fundamental question: what constitutes our sense of self? Drawing on her personal experiences and the stories of others, Lawton grapples with difficult questions about love, shame, grief, and prejudice, and reveals the nuanced and emotional journey of forming one's identity.
