## Pope Francis

Laudato Si Pope Francis, 2015-07-18 "In the heart of this world, the Lord of life, who loves us so much, is always present. He does not abandon us, he does not leave us alone, for he has united himself definitively to our earth, and his love constantly impels us to find new ways forward. Praise be to him!" - Pope Francis, *Laudato Si'* In his second encyclical, *Laudato Si'*: On the Care of Our Common Home, Pope Francis draws all Christians into a dialogue with every person on the planet about our common home. We as human beings are united by the concern for our planet, and every living thing that dwells on it, especially the poorest and most vulnerable. Pope Francis' letter joins the body of the Church's social and moral teaching, draws on the best scientific research, providing the foundation for "the ethical and spiritual itinerary that follows." *Laudato Si'* outlines: The current state of our "common home" The Gospel message as seen through creation The human causes of the ecological crisis Ecology and the common good Pope Francis' call to action for each of us Our Sunday Visitor has included discussion questions, making it perfect for individual or group study, leading all Catholics and Christians into a deeper understanding of the importance of this teaching.

Shock Waves Stephane Hallegatte, Mook Bangalore, Laura Bonzanigo, Marianne Fay, Tamaro Kane, Ulf Narloch, Julie Rozenberg, David Treguer, Adrien Vogt-Schilb, 2015-11-23 Ending poverty and stabilizing climate change will be two unprecedented global achievements and two major steps toward sustainable development. But the two objectives cannot be considered in isolation: they need to be jointly tackled through an integrated strategy. This report brings together those two objectives and explores how they can more easily be achieved if considered together. It examines the potential impact of climate change and climate policies on poverty reduction. It also provides guidance on how to create a “win-win” situation so that climate change policies contribute to poverty reduction and poverty-reduction policies contribute to climate change mitigation and resilience building. The key finding of the report is that climate change represents a significant obstacle to the

sustained eradication of poverty, but future impacts on poverty are determined by policy choices: rapid, inclusive, and climate-informed development can prevent most short-term impacts whereas immediate pro-poor, emissions-reduction policies can drastically limit long-term ones.

The Handbook of Community Safety, Gender and Violence Prevention is the first book to gather together research and examples, from a gendered perspective, of local, regional and international interventions that work to prevent crime, violence and insecurity. Case studies of successful initiatives from every continent, in settings that vary from large cities to rural areas, are analysed to provide cross-cultural lessons of what works and what doesn't. The book presents essential practical advice to professionals such as: how to obtain diagnostic information on incidence and impacts of violence; how to develop, maintain and evaluate policies and programmes that can effectively promote community safety; and how to create trust and effectiveness in partnerships.

*Make Your People Before You Make Your Products* Paul Turner, Danny Kalman, 2014-11-03 Your people hold the key to your business success *Make Your People Before You Make Your Products* is an authoritative guide to the evolution of talent management. Written specifically for HR professionals this book describes how organizations can gain a global competitive edge through better management of talent resources. With a practice-based philosophy, readers will learn more effective talent management strategies for a complex market in which people are often the only competitive advantage. Inclusivity is emphasized, and discussion centres on innovative, dynamic, fluid approaches to talent acquisition, development, and retention. In today's market environment, talent has moved from audience to community while leadership has shifted from control to empowerment. Traditional, linear approaches to talent management are falling short, and directing resources solely to senior management and HIPOs is no longer a valid strategy. This book provides practical guidance on more modern approaches, helping organizations to: Attract and retain the best talent by expanding talent resource management Augment traditional management methods with more dynamic techniques Develop a talent strategy that recognizes the new diversity of supply and demand Consider the evolving roles of talent and leadership in a global context Contextual changes in workplace dynamics necessitate an updated approach for keeping the best people on board and using them to their utmost potential.
