Transforming Trajectories for Women of Color in Tech National Academies of Sciences, Engineering, and Medicine, National Academies Of Sciences Engineeri, Policy and Global Affairs, Board on Higher Education and Workforce, Committee on Addressing the Underrepresentation of Women of Color in Tech, 2022-09-09 Demand for tech professionals is expected to increase substantially over the next decade, and increasing the number of women of color in tech will be critical to building and maintaining a competitive workforce. Despite years of efforts to increase the diversity of the tech workforce, women of color have remained underrepresented, and the numbers of some groups of women of color have even declined. Even in cases where some groups of women of color may have higher levels of representation, data show that they still face significant systemic challenges in advancing to positions of leadership. Research evidence suggests that structural and social barriers in tech education, the tech workforce, and in venture capital investment disproportionately and negatively affect women of color. *Transforming Trajectories for Women of Color in Tech* uses current research as well as information obtained through four public information-gathering workshops to provide recommendations to a broad set of stakeholders within the tech ecosystem for increasing recruitment, retention, and advancement of women of color. This report identifies gaps in existing research that obscure the nature of challenges faced by women of color in tech, addresses systemic issues that negatively affect outcomes for women of color in tech, and provides guidance for transforming existing systems and implementing evidence-based policies and practices to increase the success of women of color in tech.

Shock Waves Stephane Hallegatte, Mook Bangalore, Laura Bonzanigo, Marianne Fay, Tamaro Kane, Ulf Narloch, Julie Rozenberg, David Treguer, Adrien Vogt-Schilb, 2015-11-23 Ending poverty and stabilizing climate change will be two unprecedented global achievements and two major steps toward sustainable development. But the two objectives cannot be considered in isolation: they need to be jointly tackled through an integrated strategy. This report brings together those two objectives and explores how they can more easily be achieved if considered together. It examines the potential impact of climate change and climate policies on poverty reduction. It also provides guidance on how to create a “win-win†? situation so that climate change policies contribute to poverty reduction and poverty-reduction policies contribute to climate change mitigation and resilience building. The key finding of the report is that climate change represents a significant obstacle to the sustained eradication of poverty, but future impacts on poverty are determined by policy choices: rapid, inclusive, and

climate-informed development can prevent most short-term impacts whereas immediate pro-poor, emissions-reduction policies can drastically limit long-term ones.

Leading in Black and White Ancella Livers, Keith Caver, 2003-02-03 Many blacks in the workplace face a set of dynamics unique to being African American in a traditionally white, male-dominated world. In this landmark book, authors Ancella Livers and Keith Caver-- co-facilitators of the Center for Creative Leadership's African-American Leadership Program for the past five years-- explain how the leadership experience for blacks is radically different from the experiences of their white colleagues. These differences, of which most white managers are unaware, can lead to miscues and distortions in communication and ultimately get in the way of effective performance and optimal productivity for organizations. In *Leading in Black and White*, the authors not only clearly explain how things go wrong, they also provide sensible solutions for both the white manager and the black manager on how to make them right.

Introduction to Physical Education, Fitness, and Sport Daryl Siedentop, Hans Van Der Mars, 2022-06-06 The ninth edition of *Introduction to Physical Education, Fitness, and Sport* is as robust and instrumental as ever for students preparing for careers in the various physical activity fields. And the latest version of this long-running and seminal text is chock-full of new material for budding teachers, coaches, fitness professionals, recreation leaders, and program leaders. New content in this edition includes the following: Five new chapters cover dance education, recreational leadership, health education, contemporary physical education curriculum models, and exemplary physical education programs. Updated content on how economic, racial, and ethnic disparities affect physical activity and physical activity professions will help students anticipate real-life issues. All chapters throughout the text have been updated to reflect the most current information on the topics. And the book's web-based ancillaries, which include a range of instructor tools, have also been revised and expanded. *Introduction to Physical Education, Fitness, and Sport* is organized into six parts: Part I provides a thorough understanding of the health issues related to physical inactivity and of the evolution of physical activity programs. Parts II, III, and IV focus on concepts, programs, professions, and barriers to

overcome in physical education, fitness, and sport, respectively. Part V delves into the allied physical activity professions of dance and dance education, recreation, and health education, exploring the concepts, professions, and issues in each area. Part VI tackles the subdisciplines of kinesiology that support physical activity, such as exercise physiology, sport pedagogy, sport and exercise psychology, sport philosophy, biomechanics, and more. Introduction to Physical Education, Fitness, and Sport will help students make more informed career choices, understand the professional issues they will face, and be in a better position to develop high-quality programs and make those programs widely available. Ultimately, this book will help new generations of physical activity professionals provide positive solutions to the problems that exist in their fields and to make lifelong impacts on their students.

Introducing Sociology Using the Stuff of Everyday Life Josee Johnston, Kate Cairns, Shyon Baumann, 2017-01-06 The challenges of teaching a successful introductory sociology course today demand materials from a publisher very different from the norm. Texts that are organized the way the discipline structures itself intellectually no longer connect with the majority of student learners. This is not an issue of pandering to students or otherwise seeking the lowest common denominator. On the contrary, it is a question of again making the practice of sociological thinking meaningful, rigorous, and relevant to today's world of undergraduates. This comparatively concise, highly visual, and affordable book offers a refreshingly new way forward to reach students, using one of the most powerful tools in a sociologist's teaching arsenal—the familiar stuff in students' everyday lives throughout the world: the jeans they wear to class, the coffee they drink each morning, or the phones their professors tell them to put away during lectures. A focus on consumer culture, seeing the strange in the familiar, is not only interesting for students; it is also (the authors suggest) pedagogically superior to more traditional approaches. By engaging students through their stuff, this book moves beyond teaching about sociology to helping instructors teach the practice of sociological thinking. It moves beyond describing what sociology is, so that students can practice what sociological thinking can do. This pedagogy also posits a relationship between teacher and learner that is bi-directional. Many students feel a sense of authority in various areas of consumer culture, and they often enjoy sharing their knowledge with fellow students and with their instructor. Opening up the sociology classroom to discussion of these topics

validates students' expertise on their own life-worlds. Teachers, in turn, gain insight from the goods, services, and cultural expectations that shape students' lives. While innovative, the book has been carefully crafted to make it as useful and flexible as possible for instructors aiming to build core sociological foundations in a single semester. A map on pages ii-iii identifies core sociological concepts covered so that a traditional syllabus as well as individual lectures can easily be maintained. Theory, method, and active learning exercises in every chapter constantly encourage the sociological imagination as well as the doing of sociology.

The Greenwood Encyclopedia of Clothing through World History Jill Condra, 2007-12-30 How people dressed throughout history often reflects how they lived at the time, and *Clothing in World History* gives the reader a chance to explore clothing in a given place and time while also providing a general history to help put the costumes in context. This set takes the reader on a journey from the beginning of time to present day to look at what people wore in Europe, North America, South America, and Asia. Men's, Women's, and Children's clothing from various social classes, as well as accessories, are included. This set is a critical guide for secondary and undergraduate students interested in history, social history, art history, fashion, and costume. It covers the history of clothing throughout the world from pre-historic times to 2006. Many cultures are included in this study of clothing within the context of social, political, economic and religious history as they pertain to each time period and place. Researchers can turn to this set first for the most essential information about a time, place, and style of dress. The three volumes are divided into comprehensive parts with the goal of making them easy to use and accessible to readers. There are other books and surveys of the history of costume that mainly concentrate on Western Europe, but few that cover different cultures and how they influence fashion in the western world. This book looks at costume throughout the world and throughout history.

How to Be an Antiracist Ibram X. Kendi, 2023-01-31 #1 NEW YORK TIMES BESTSELLER • From the National Book Award-winning author of *Stamped from the Beginning* comes a “groundbreaking” (Time) approach to understanding and uprooting racism and inequality in our society and in ourselves—now updated, with a new preface. “The most courageous book to date on the problem of race in the Western mind.”—The New York Times ONE OF THE BEST BOOKS OF THE YEAR—The New York Times Book Review, Time, NPR, The Washington Post, Shelf Awareness, Library Journal, Publishers Weekly, Kirkus Reviews *Antiracism* is a transformative concept that reorients and reenergizes the conversation about racism—and, even more fundamentally, points us toward liberating new ways of thinking about ourselves and each other. At its core, racism is a powerful system that creates false hierarchies of human value; its warped logic extends beyond race, from the way we regard people of different ethnicities or skin colors to the way we treat people of different sexes, gender identities, and body types. Racism intersects with class and culture and geography and even changes the way we see and value ourselves. In *How to Be an Antiracist*, Kendi takes readers through a widening circle of antiracist ideas—from the most

basic concepts to visionary possibilities—that will help readers see all forms of racism clearly, understand their poisonous consequences, and work to oppose them in our systems and in ourselves. Kendi weaves an electrifying combination of ethics, history, law, and science with his own personal story of awakening to antiracism. This is an essential work for anyone who wants to go beyond the awareness of racism to the next step: contributing to the formation of a just and equitable society.

The Art of Cloth in Mughal India Sylvia Houghteling, 2022-03-29 When a rich man in seventeenth-century South Asia enjoyed a peaceful night's sleep, he imagined himself enveloped in a velvet sleep. In the poetic imagination of the time, the fine dew of early evening was like a thin cotton cloth from Bengal, and woolen shawls of downy pashmina sent by the Mughal emperors to their trusted noblemen approximated the soft hand of the ruler on the vassal's shoulder. Textiles in seventeenth-century South Asia represented more than cloth to their makers and users. They simulated sensory experience, from natural, environmental conditions to intimate, personal touch. *The Art of Cloth in Mughal India* is the first art historical account of South Asian textiles from the early modern era. Author Sylvia Houghteling resurrects a truth that seventeenth-century world citizens knew, but which has been forgotten in the modern era: South Asian cloth ranked among the highest forms of art in the global hierarchy of luxury goods, and had a major impact on culture and communication. While studies abound in economic history about the global trade in Indian textiles that flourished from the seventeenth to the nineteenth centuries, they rarely engage with the material itself and are less concerned with the artistic and much less the literary and social-significance of the taste for cloth. This book is richly illustrated with images of textiles, garments, and paintings that are held in little-known collections and have rarely, if ever, been published. Rather than rely solely on records of European trading companies, Houghteling draws upon poetry in local languages and integrates archival research from unpublished royal Indian inventories to tell a new history of this material culture, one with a far more balanced view of its manufacture and use, as well as its purchase and trade--

The Joy of the Gospel Pope Francis, 2014-10-07 The perfect gift! A specially priced, beautifully designed hardcover edition of *The Joy of the Gospel* with a foreword by Robert Barron and an afterword by James Martin, SJ. "The joy of the gospel fills the hearts and lives of all who encounter Jesus... In this Exhortation I wish to encourage the Christian faithful to embark upon a new chapter of evangelization marked by this joy, while pointing out new paths for the Church's journey in years to come." - Pope Francis This special edition of Pope Francis's popular message of hope explores themes that are important for believers in the 21st century. Examining the many obstacles to faith and what can be done to overcome those hurdles, he emphasizes the importance of service to God and all his creation. Advocating for "the homeless, the addicted, refugees, indigenous peoples, the elderly who are increasingly isolated and abandoned," the Holy Father shows us how to respond to poverty and current economic challenges that affect us locally and globally. Ultimately, Pope Francis demonstrates how to develop a more personal relationship with Jesus Christ, "to recognize the traces of God's Spirit in events great and small." Profound in its insight, yet warm and accessible in its tone, *The Joy of the Gospel* is a call to action to live a life motivated by divine love and, in turn, to experience heaven on earth. Includes a foreword by Robert Barron, author of *Catholicism: A Journey to the Heart of the Faith* and James Martin, SJ, author of *Jesus: A Pilgrimage*

A Saint in the City Allen F. Roberts, Mary Nooter Roberts, Gassia Armenian, Ousmane Guèye, 2003 *A Saint in the City* examines the elaborate visual culture of the Mourides, a Senegalese Sufi movement based upon the mystical teachings of Sheikh Amadou Bamba (1953-1927). In the boldly visual city of Dakar, images abound despite the fact that Senegal is largely a Muslim country. Vibrant street murals, calligraphy and calligrams, didactic posters, drawings that protect and heal, advertising images, colourful clothing, Web sites, intricate glass paintings, and innovative architecture all attest to the transformative potency that expressive culture has for Mourides. One image is ubiquitous throughout urban Senegal: the portrait of Sheikh Amadou Bamba, based upon a colonial photograph from 1913. Sacred images work for Mourides, and as Bamba is a saint (Wali Allah, or Friend of God in Arabic), his portrait actively conveys powerful blessings called baraka that help people to address everyday difficulties, challenges, and goals. The Mouride Way is observed by over four million Senegalese and thousands more around the globe including increasing numbers of African Americans and others converting to this most African of Islamic paths. Amadou Bamba's pacifism, dignity, and self-reliance, as well as his emphasis on the sanctity of work, offer a view of Islam quite different from those currently suggested by Western media. Indeed, *A Saint in the City* reminds us that there are many faces of Islam in Africa and throughout the world. It also assists readers to reconsider misconceptions concerning the prohibition of images in Islam in light of the explosion of visual culture derived from a single photograph of Sheikh Amadou Bamba. *A Saint in the City* grows from a decade of interdisciplinary research and focuses upon nine contemporary artists who base their works upon the spiritual teachings of Amadou Bamba, regardless of their particular backgrounds, training, or styles. The book boldly transgresses the boundaries normally enforced between local and global, fine and popular arts, gallery and streets, historical and contemporary circumstances. An emphasis upon Mouride artists' own voices further decenters the narrative. Allen F. Roberts is professor of world arts and cultures and director of the James S. Coleman African Studies Center at UCLA. Mary Nooter Roberts is deputy director and chief curator of the UCLA Fowler Museum of Cultural History.
