Sexual Decoys Zillah Eisenstein, 2013-07-18 In this book, Zillah Eisenstein continues her unforgiving indictment of neoliberal imperial politics. She charts its most recent militarist and masculinist configurations through discussions of the Afghan and Iraq wars, violations at Guantánamo and Abu Ghraib, the 2004 US Presidential election, and Hurricane Katrina. She warns that women's rights rhetoric is being manipulated, particularly by Condoleezza Rice and other women in the Bush administration, as a ploy for global dominance and a misogynistic capture of democratic discourse. However, Eisenstein also believes that the plural and diverse lives of women will lay the basis for an assault on these fascist elements. This new politics will both confound and clarify feminisms, and reconfigure democracy across the globe.

Confessions of the Pricing Man Hermann Simon, 2015-10-20 The world's foremost expert on pricing strategy shows how this mysterious process works and how to maximize value through pricing to company and customer. In all walks of life, we constantly make decisions about whether something is worth our money or our time, or try to convince others to part with their money or their time. Price is the place where value and money meet. From the global release of the latest electronic gadget to the bewildering gyrations of oil futures to markdowns at the bargain store, price is the most powerful and pervasive economic force in our day-to-day lives and one of the least understood. The recipe for successful pricing often sounds like an exotic cocktail, with equal parts psychology, economics, strategy, tools and incentives stirred up together, usually with just enough math to sour the taste. That leads managers to water down the drink with hunches and rules of thumb, or leave out the parts with which they don't feel comfortable. While this makes for a sweeter drink, it often lacks the punch to have an impact on the customer or on the business. It doesn't have to be that way, though, as Hermann Simon illustrates through dozens of stories collected over four decades in the trenches and behind the scenes. A world-renowned speaker on pricing and a trusted advisor to Fortune 500 executives, Simon's lifelong journey has taken him from rural farmers' markets, to a distinguished academic career, to a long second career as an entrepreneur and management

consultant to companies large and small throughout the world. Along the way, he has learned from Nobel Prize winners and leading management gurus, and helped countless managers and executives use pricing as a way to create new markets, grow their businesses and gain a sustained competitive advantage. He also learned some tough personal lessons about value, how people perceive it, and how people profit from it. In this engaging and practical narrative, Simon leaves nothing out of the pricing cocktail, but still makes it go down smoothly and leaves you wanting to learn more and do more—as a consumer or as a business person. You will never look at pricing the same way again.

The Democratization of Artificial Intelligence Andreas Sudmann,2019-10-31 After a long time of neglect, Artificial Intelligence is once again at the center of most of our political, economic, and socio-cultural debates. Recent advances in the field of Artificial Neural Networks have led to a renaissance of dystopian and utopian speculations on an AI-rendered future. Algorithmic technologies are deployed for identifying potential terrorists through vast surveillance networks, for producing sentencing guidelines and recidivism risk profiles in criminal justice systems, for demographic and psychographic targeting of bodies for advertising or propaganda, and more generally for automating the analysis of language, text, and images. Against this background, the aim of this book is to discuss the heterogenous conditions, implications, and effects of modern AI and Internet technologies in terms of their political dimension: What does it mean to critically investigate efforts of net politics in the age of machine learning algorithms?

The Lost Art of Disciple Making LeRoy Eims,2009-07-13 Every believer in Jesus Christ deserves the opportunity of personal nurture and development. says LeRoy Eims. But all too often the opportunity isn't there. We neglect the young Christian in our whirl of programs, church services, and fellowship groups. And we neglect to raise up workers and leaders who can disciple young believers into mature and fruitful Christians. In simple, practical, and biblical terms, LeRoy Eims revives the lost art of disciple making. He explains: - How the early church disciplined new Christians - How to meet the basic needs of a growing Christian - How to spot and train potential workers - How to develop mature, godly leaders True growth takes time and tears and love and patience, Eims states. There is no instant maturity. This book examines the growth process in the life of a Christian and considers what nurture and guidance it takes to develop spiritually qualified workers in the church.
