Model Rules of Professional Conduct American Bar Association. House of Delegates, Center for Professional Responsibility (American Bar Association), 2007 The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Theatre with a Purpose Don Watson, 2023-12-28 This study of British amateur theatre in the inter-war period examines five different but interwoven examples of the belief, common in theatrical and educational circles at the time, that amateur drama had a purpose beyond recreation. Amateur theatre was at the height of its popularity as a cultural practice between the wars, so that by 1939 more British people had practical experience of putting on plays than at any time before or since. Providing an original account of the use of drama in adult education projects in deprived areas, and of amateur theatre in

government-funded centres for the unemployed in the 1930s, it discusses repertoires, participation by working-class people and pioneering techniques of play-making. Amateur drama festivals and competitions were intended to raise standards and educate audiences. This book assesses their effect on play-making, and the use of innovative one-act plays to express contentious material, as well as looking at the Left Book Club Theatre Guild as an attempt to align the amateur theatre movement with anti-fascist and anti-war movements. A chapter on the Second World War rectifies the neglect of amateur theatre in war-time cultural studies, arguing that it was present and important in every aspect of war-time life. Don Watson builds on current scholarship and makes use of archival sources, local newspapers, unpublished scripts and the records of organizations not usually associated with the theatre. His work explores the range and diversity of amateur drama between the wars and the contributions it made to British theatre.

Special Admission Kirsten Hextrum, 2021-08-13 Honorable Mention - 2022 Society of Professors of Education

Outstanding Book Award Special Admission contradicts the national belief that college sports provide upward mobility opportunities. Kirsten Hextrum documents how white middle-class youth become overrepresented on college teams. Her institutional ethnography of one elite athletic and academic institution includes over 100 hours of interviews with college rowers and track & field athletes. She charts the historic and contemporary relationships between colleges, athletics, and white middle-class communities that ensure white suburban youth are advantaged in special athletic admissions. Suburban youth start ahead in college admissions because athletic merit—the competencies desired by university recruiters—requires access to vast familial, communal, and economic resources, all of which are concentrated in their neighborhoods. Their advantages increase as youth, parents, and coaches strategically invest in and engineer novel opportunities to maintain their race and class status. Thus, college sports allow white, middle-class athletes to accelerate their racial and economic advantages through admission to elite universities.

Molas Diana Marks, 2016-10-01 Molas, the distinctive blouses made and worn by Kuna women in Panama, are collected by thousands of enthusiasts as well as by anthropological museums all over the world. They are recognized everywhere as an identifier of the Kuna people and also of Panama. This book, based on original research, explores the origin of the mola in the early twentieth century, how it became part of the everyday dress of Kuna women, and its role in creating Kuna identity. Images drawn from more than twenty museums as well as private collections show the development of designs and techniques and highlight changes in the garment as an item of indigenous fashion. Applying an interdisciplinary approach—fusing historical, ethnographic, and material culture studies—author Diana Marks contributes to ongoing debates on cultural authenticity, the invention of traditions, and issues of gender and politics.

Femininity Played Straight Biddy Martin, 2012-10-12 In *Femininity Played Straight*, Biddy Martin traces the changing

relations of lesbianism and feminist theory from the late 1970s to the present. These sparkling essays argue for accounts of sexuality, gender and subjectivity that make lesbianism intelligible and important, for lesbians and non-lesbians alike. Moving between theoretical and autobiographical modes, Biddy Martin brings different kinds of writing to bear upon one another. At a theoretical level, her work takes issue with postmodern theory, defending instead the role of psychoanalytic criticism. She argues for the continued validity of critical modes that do not abandon the unconscious in seeking to understand the relation of subjectivity to language. In so doing, she addresses the work of writers, thinkers and activists as varied as Mary Daly, Michel Foucault, Adrienne Rich, Gayle Rubin, Minnie Bruce Pratt, Sigmund Freud, Eve Kosofsky Sedgwick, Audre Lorde, Judith Butler, and Joan Copjec.

World Clothing and Fashion Mary Ellen Snodgrass,2015-03-17 Taking a global, multicultural, social, and economic perspective, this work explores the diverse and colourful history of human attire. From prehistoric times to the age of globalization, articles cover the evolution of clothing utility, style, production, and commerce, including accessories (shoes, hats, gloves, handbags, and jewellery) for men, women, and children. Dress for different climates, occupations, recreational activities, religious observances, rites of passages, and other human needs and purposes - from hunting and warfare to sports and space exploration - are examined in depth and detail. Fashion and design trends in diverse historical periods, regions and countries, and social and ethnic groups constitute a major area of coverage, as does the evolution of materials (from animal fur to textiles to synthetic fabrics) and production methods (from sewing and weaving to industrial manufacturing and computer-aided design). Dress as a reflection of social status, intellectual and artistic trends, economic conditions, cultural exchange, and modern media marketing are recurring themes. Influential figures and institutions in fashion design, industry and manufacturing, retail sales, production technologies, and related fields are also covered.

Pink and Blue Jo B. Paoletti,2012-02-06 “An insightful analysis of the origins, transformations and consequences of gender distinctions in children’s dress over the last 125 years.” —Daniel Thomas Cook, author of The Commodification of Childhood Jo B. Paoletti’s journey through the history of children’s clothing began when she posed the question, “When did we start dressing girls in pink and boys in blue?” To uncover the answer, she looks at advertising, catalogs, dolls, baby books, mommy blogs and discussion forums, and other popular media to examine the surprising shifts in attitudes toward color as a mark of gender in American children’s clothing. She chronicles the decline of the white dress for both boys and girls, the introduction of rompers in the early 20th Century, the gendering of pink and blue, the resurgence of unisex fashions, and the

origins of today's highly gender-specific baby and toddler clothing. "A fascinating piece of American social history." —Library Journal "An engrossing cultural history of parenthood, as well as childhood." —Worn Through
