Model Rules of Professional Conduct American Bar Association. House of Delegates, Center for Professional Responsibility (American Bar Association), 2007 The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Looking Good . . . Every Day Nancy Nix-Rice, 2014-09-01 Any woman can look and feel lovely, regardless of her age, bank balance, or pant size, and Looking Good . . . Every Day defines a simple yet sophisticated standard for women to determine exactly which clothes and accessories will showcase their unique beauty. The “points of connection” method explains that the more characteristics that exist in common between a woman and her outfit, the more lovely she will look. It shifts emphasis from hiding her perceived figure challenges and focuses on spotlighting her personal assets. By choosing wardrobe additions in this way, everything in her closet will work together. She has more outfits from fewer garments, allowing her to buy higher-quality garments without increasing her budget. Photography of real women—ranging from 22 to 80 years old and from size 4 to 24—illustrates the universal impact “points of connection” make in their appearance.

My Likeness Taken Joan L. Severa, 2005 During the nineteenth century - a time of great technical and cultural change - fashion was a cultivating force in the development of American society, influenced by one's social status, geographic location, and economic standing. *My Likeness Taken* is a collection of daguerreotype portraits of men, women, and children taken between 1840 and 1860. Selected from the top collections in the United States, each image is analyzed to clarify datable clothing and fashion components. With subjects from among the best-dressed members of society, these portraits - reproduced in full color - reflect the latest fashion developments, trends, and influences. For students of photographic and costume history, this is extraordinary material. Many of these images have never before been published, and Severa's keen analysis adds immeasurably to our understanding of the importance of dress in American society. Photo archivists and

collectors, costume curators, social historians, material culturalists, and theater designers will find *My Likeness Taken* an invaluable resource.

The Art of Cloth in Mughal India Sylvia Houghteling,2022-03-29 When a rich man in seventeenth-century South Asia enjoyed a peaceful night's sleep, he imagined himself enveloped in a velvet sleep. In the poetic imagination of the time, the fine dew of early evening was like a thin cotton cloth from Bengal, and woolen shawls of downy pashmina sent by the Mughal emperors to their trusted noblemen approximated the soft hand of the ruler on the vassal's shoulder. Textiles in seventeenth-century South Asia represented more than cloth to their makers and users. They simulated sensory experience, from natural, environmental conditions to intimate, personal touch. *The Art of Cloth in Mughal India* is the first art historical account of South Asian textiles from the early modern era. Author Sylvia Houghteling resurrects a truth that seventeenth-century world citizens knew, but which has been forgotten in the modern era: South Asian cloth ranked among the highest forms of art in

the global hierarchy of luxury goods, and had a major impact on culture and communication. While studies abound in economic history about the global trade in Indian textiles that flourished from the seventeenth to the nineteenth centuries, they rarely engage with the material itself and are less concerned with the artistic-and much less the literary and social-significance of the taste for cloth. This book is richly illustrated with images of textiles, garments, and paintings that are held in little-known collections and have rarely, if ever, been published. Rather than rely solely on records of European trading companies, Houghteling draws upon poetry in local languages and integrates archival research from unpublished royal Indian inventories to tell a new history of this material culture, one with a far more balanced view of its manufacture and use, as well as its purchase and trade--
