**What Makes a Brand Authentic? the Example of the Body Shop** Katharina Maute, Jennifer Borchers, 2013-10 Seminar paper from the year 2013 in the subject Business economics - Marketing, Corporate Communication, CRM, Market Research, Social Media, grade: 1, University of Southern Denmark (Marketing & Management), course: Advanced Marketing Communication, language: English, abstract: Because consumers want a brand to be authentic (cf. Brown, Kozinets, & Sherry, 2003, p. 21; Schallehn, 2012, p. 10), brands are under pressure to be in accordance with this need. Especially when acting on a diverse and particularly saturated market, it is important for every company to distinguish itself from the market place. This distinction can be accomplished by providing confidence or trust (cf. Schallehn, 2012, p. VII). A relatively new approach, which is aimed at strengthening this brand trust, is the concept of brand-authenticity (Schallehn, 2012, p. VII). But what exactly makes a brand authentic? This question divides authors. There are several approaches which define multiple ways of what can make a brand authentic. We assume that most of these theories do not contradict and can be used parallel, something we will show with the example of the 1976 founded British cosmetics producer and franchisor THE BODY SHOP. For this we exemplary examine THE BODY SHOP's authenticity by comparing the company's communication activities to the core authenticity theories. In doing so we want to figure out if THE BODY SHOP can be seen as authentic in light of the literature. It is not our intention to prove if the company is subjectively or perceived authentic. For this purpose we firstly clarify how authenticity becomes apparent (see chapter 2). Afterwards we shortly introduce THE BODY SHOP's five core values (see chapter 2.2.), because they are the basis for all the company's communication activities. Then we introduce several theories (see chapter 3) which show different models of what makes a brand authentic. And in addition we apply the appropriate theories to THE BODY SHOP's communication act

**Recovery** Russell Brand, 2017-10-03 A guide to all kinds of addiction from a star who has struggled with heroin, alcohol, sex, fame, food and eBay, that will help addicts and their loved ones make the first steps into recovery “This manual for self-realization comes not from a mountain but from the mud...My qualification is not that I am better than you but I am worse.” —Russell Brand With a rare mix of honesty, humor, and compassion, comedian and movie star Russell Brand mines his own wild story and shares the advice and wisdom he has gained through his fourteen years of recovery. Brand speaks to those suffering along the full spectrum of addiction—from drugs, alcohol, caffeine, and sugar addictions to addictions to work, stress, bad relationships, digital media, and fame. Brand understands that addiction can take many shapes and sizes and how the process of staying clean, sane, and unhooked is a daily activity. He believes that the question is not “Why are you

addicted?” but What pain is your addiction masking? Why are you running—into the wrong job, the wrong life, the wrong person’s arms? Russell has been in all the twelve-step fellowships going, he’s started his own men’s group, he’s a therapy regular and a practiced yogi—and while he’s worked on this material as part of his comedy and previous bestsellers, he’s never before shared the tools that really took him out of it, that keep him clean and clear. Here he provides not only a recovery plan, but an attempt to make sense of the ailing world.

**Great Store Design** Natalie Häntze, 2015 Glamorous, fascinating, and sometimes even magical: the flagship stores of the biggest brands combine interior design and product presentation to create a unique melange of style and image. Stores serve as a window into a very special world whether they are a concept store, pop-up store or a shrine to the brand. The days are long gone when they were merely a sales floor; brands in the fashion, automotive, beauty and lifestyle sectors want to inspire shoppers with their spirit. This is what turns customers into diehard fans. Store design is the great art of staging and communicating a brand's values, and the supreme method of anchoring your brand in a customer's mind over the long term. As our daily activities move increasingly into the virtual sphere, people long for things that are accessible and approachable. Retailers must fight an increasingly difficult battle with online providers to win customers. A sophisticated mix of a wide variety of materials, spaces designed with eclectic ingredients or luxurious accents, and elegant lighting solutions become vehicles that convey the heart and image of a brand and create tactile and visual experiences for shoppers. In this manner, shops become event locations, favourite hangouts, and in the very best cases, a kind of living room for customers and friends. This opulent book shows the most amazing stores, talks to brand makers and creative artists and designers, and offers unique insights into the previously unknown world of brand design. Brands want to move us--and more and more, stores are where the magic happens. AUTHOR: Natalie Hantze is Editor-in-Chief of Design Lodge magazine. For more than 15 years, she has been consulting with companies in trade, industry, and the media as well as design firms in every area of brand positioning and communications. **Brand Aid** Lisa Ann Richey,Stefano Ponte,2013-11-30 “Has there ever been a better reason to shop?” asks an ad for the Product RED American Express card, telling members who use the card that buying “cappuccinos or cashmere” will help to fight AIDS in Africa. Cofounded in 2006 by the rock star Bono, Product RED has been a particularly successful example of a new trend in celebrity-driven international aid and development, one explicitly linked to commerce, not philanthropy. In *Brand Aid*, Lisa Ann Richey and Stefano Ponte offer a deeply informed and stinging critique of “compassionate consumption.” Campaigns like Product RED and its precursors, such as Lance Armstrong’s Livestrong and the pink-ribbon project in support of breast cancer research, advance the expansion of consumption far more than they meet the needs of the people they ostensibly serve. At the same time, such campaigns sell both the suffering of Africans with AIDS (in the case of Product RED) and the power of the average consumer to ameliorate it through familiar and highly effective media representations. Using Product RED as its focal point, this book explores how corporations like American Express, Armani, Gap, and Hallmark promote compassionate consumption to improve their ethical profile and value without significantly altering their business

model, protecting themselves from the threat to their bottom lines posed by a genuinely engaged consumer activism. Coupled with the phenomenon of celebrity activism and expertise as embodied by Bono, Richey and Ponte argue that this “causumerism” represents a deeply troubling shift in relief efforts, effectively delinking the relationship between capitalist production and global poverty.

*Building a StoryBrand* Donald Miller,2017-10-10 More than half-a-million business leaders have discovered the power of the StoryBrand Framework, created by New York Times best-selling author and marketing expert Donald Miller. And they are making millions. If you use the wrong words to talk about your product, nobody will buy it. Marketers and business owners struggle to effectively connect with their customers, costing them and their companies millions in lost revenue. In a world filled with constant, on-demand distractions, it has become near-impossible for business owners to effectively cut through the noise to reach their customers, something Donald Miller knows first-hand. In this book, he shares the proven system he has created to help you engage and truly influence customers. The StoryBrand process is a proven solution to the struggle business leaders face when talking about their companies. Without a clear, distinct message, customers will not understand what you can do for them and are unwilling to engage, causing you to lose potential sales, opportunities for customer engagement, and much more. In *Building a StoryBrand*, Donald Miller teaches marketers and business owners to use the seven universal elements of powerful stories to dramatically improve how they connect with customers and grow their businesses. His proven process has helped thousands of companies engage with their existing customers, giving them the ultimate competitive advantage. *Building a StoryBrand* does this by teaching you: The seven universal story points all humans respond to; The real reason customers make purchases; How to simplify a brand message so people understand it; and How to create the most effective messaging for websites, brochures, and social media. Whether you are the marketing director of a multibillion-dollar company, the owner of a small business, a politician running for office, or the lead singer of a rock band, *Building a StoryBrand* will forever transform the way you talk about who you are, what you do, and the unique value you bring to your customers.

**Usability Success Stories** Paul Sherman,2006 Companies that make hard-to-use products incur higher support costs, spend more on rework, and have less satisfied customers. These outcomes can be avoided by applying the techniques of usability engineering during product development. This book shows how usability engineers can do this by studying users' needs and abilities, designing the product accordingly, and verifying the design through additional testing with users.
