A Trip to the Grocery Store / De visita en la tienda Josie Keogh, 2012-08-15 Your neighborhood grocery store has a wide array of foods. This nonfiction narrative introduces readers to shopping for fruits, vegetables, bread, milk, and more. It outlines the steps involved in a visit to the grocery store, such as picking out foods, looking at labels, paying the cashier, and taking your purchases home. The accessible text is presented in both English and standard Latin-American Spanish, making the book a great resource for readers learning to read in either language.

Product Information Management Jorij Abraham, 2014-05-05 Product Information Management is the latest topic that companies across the world are deliberating upon. As companies sell online, they are confronted with the fact that not all information necessary to sell their products is available. Where marketing, sales and finance have been core processes of the corporate world for a long time, PIM is a new business process with its own unique implementation and management challenges. The book describes the core PIM processes; their strategic, tactical and operational benefits and implementation challenges. The book has been written for managers, business users as well as students, and illustrates the different concepts with practical cases from companies like Coca Cola, Nikon and Thomas Cook.
