Coconuts & Kettlebells Noelle Tarr, Stefani Rupert, 2018-08-07 Achieve lasting health—without cutting calories or following dieting “rules”! Instead of obsessing about the quantity of food you eat, shift your focus to the quality, say Noelle Tarr and Stefani Rupert. The popular hosts of the Well-Fed Women podcast want you to make sure you’re getting enough food so that your body has the fuel and nourishment it needs to support a healthy, long, and energetic life. Noelle and Stefani know firsthand about the ups and downs of dieting. Like many people, they have struggled with confusing and frustrating health issues such as anxiety, infertility, and hormonal imbalance—but when they discovered that the secret to improving wellness was actually more food, they ditched the calorie counters and gave their bodies the nourishment they needed to

heal. In the Coconuts and Kettlebells program, you'll eat at least 2,000 calories a day—setting a minimum intake of fat, protein, and carbohydrates to ensure that your diet is full of nutrients. Noelle and Stefani identify the Big Four foods that cause the most health problems—grains, dairy, vegetable oils, and refined sugar. While many diets require you to eliminate these foods entirely, Coconuts and Kettlebells provides an easy-to-follow step-by-step system to test these foods and determine which you need to cut back on to feel better—and which you can eat without restrictions. To help you discover how your body responds to the Big Four, you'll choose from two simple 4-week meal plans: one for Butter Lovers, people who tend to feel more satisfied eating higher ratios of fats, and one for Bread Lovers, people who tend to feel more satisfied eating higher ratios of carbs. Each meal plan comes with weekly shopping lists and instructions on how to batch cook, meal prep, and stock the pantry. In addition, you get more than 75 simple and delicious real food recipes, including: • Kale and Bacon Breakfast Skillet • Raspberry-Coconut Smoothie Bowl • Thai Coconut Curry Shrimp • Apple-Chicken Skillet • Moroccan Lamb Meatballs • Grilled Balsamic Flank Steak • Chocolate-Cherry Energy Bites • Lemon-Raspberry Mini Cheesecakes To go along with the meal plans, you'll find three 4-week fitness plans tailored to beginner, intermediate, and advanced experience levels. Skincare Decoded Victoria Fu, Gloria Lu, 2021-03-23 Do you really need a ten-step skincare regimen? Is that \$100 eye cream worth it? And what the heck are “actives” anyway? In this book two professional chemists and beauty industry insiders tell all. Depending on who you listen to, the secret to beautiful skin is microbiomes. Or Korean rice water. Or maybe a dermaplaning tool. It feels like you need a degree in chemistry to even understand what these products are, and if they live up to the hype. Luckily, Victoria Fu and Gloria Lu, professional skincare chemists have done that work so you don’t have to. The science may seem complicated, but this book will show you how simple it can be, giving you what you need to make informed decisions about your skin (and your wallet). Skincare Actives? Technically, cat sneezes could count. SPF? Yep, super important. Caffeine serums? The science is still out. CBD additives? Not enough studies yet, so the jury’s still out. The authors are the creators behind the popular Chemist Confessions Instagram, and this book brings the sass, humor, and solid information they’re known for. Additional chapters address the best ingredients for every skin type, and reveal the only four products you really need.
