One Lucky Fan Rich O'Malley, 2019-06-04 Ever watch a big game on TV and say, "I would give anything to be there right now"? For Rich O'Malley that desire turned into a quest that plopped him down in hundreds of bleachers and box seats. Once Rich had swept through all 30 Major League Baseball stadiums, he focused on a bigger prize: seeing a home game for all 123 teams in the four major U.S. pro sports leagues – MLB, NBA, NHL and NFL. This is the story of Rich's pursuit of that goal. It begins with his childhood roots as a fan and takes you back to relive some of the most historic – and just plain unbelievable – moments he's experienced firsthand. It culminates in a 25,000-mile, two-month whirlwind tour Rich undertook to fulfill his dream. Throughout, he contemplates the qualities that unite fans – even rivals. Rich weaves this concept into the story, encouraging readers to reminisce about favorite memories and hoping to inspire their own adventure. "Some of us keep an envelope of old ticket stubs, O'Malley would need a hammock. Follow along as he zig zags across North America to check off the ultimate sports fan bucket list. What most of us have only heard about in legend or seen on TV—like the roar of the 12th Man in Seattle—O'Malley has seen firsthand. And from Black Friday at the Mall of America to the National Civil Rights Museum in Memphis, he serves up a bit of Americana with every stop. His journey will have readers itching to take a sports quest of their own. – Sarah Spain, ESPN

Go Diaper Free Andrea Olson, 2021-02-17 Stop changing diapers? start potting your baby. Over half the world's children are potty trained by one year old, yet the average potty training age in the United States is currently three years old. This leaves parents wondering: What did people do before diapers? and How do I help my own baby out of diapers sooner? Elimination Communication, also known as EC, is the natural alternative to full-time diapers and conventional toilet training. Although human babies have been pottied from birth for all human history, we've modernized the technique to work in today's busy world. Go Diaper Free shows parents of 0-18 month babies, step-by-step, how to do EC with confidence, whether full time or part time, with diapers or without. Diaper-free doesn't mean a naked baby making a mess everywhere - it actually means free from dependence upon diapers. With this book, new parents can avoid years of messy diapers, potty training struggles, diaper rash, and unexplained fussiness. Also helpful for those considering EC, in the middle of a potty pause, or confused about how to begin. This 6th edition includes a new section on The Dream Pee, a full text and graphic revision, more photos of EC in action, and a complete list of further resources. MULTIMEDIA EDITION: includes the book and access to private video library, helpful downloads, additional troubleshooting, and our private online support group run by our Certified Coaches. For less than the cost of a case of diapers, you can learn EC hands-on, the way it's meant to be learned.

399 Days Pam Taylor, 2017-12-18 In Volume I, 399 Days: An American Adventure, the Taylor family visited the 48 contiguous United States. Their experiences bonded them together as never before. In their travels, they happened upon parades, concerts, regional festivals, holiday celebrations, and state fairs. The changing seasons brought nature's kaleidoscope of colors. Although there were arguments and hurt feelings, they found grace and forgiveness through their relationships with Jesus Christ. Sometimes the challenges seemed to come from all directions, as they get sick, sore, snowed in, sent away, misquoted, misled, pulled over, and locked out. Through it all, the Lord provided and the family as thrived. Now the Taylors are ready for even higher adventure: a new continent with foreign languages, new currencies, exotic foods, and unfamiliar customs. When they mention their plans to others, most people shake their heads. They say it's crazy. Maybe it is. Join them now as they embark on Volume II, 399 Days: Our European Escape.

Together on Top of the World Phil Ershler, Susan Ershler, Robin Simons, 2007-04-02 On May 16, 2002, Phil and Susan Ershler reached the top of Mt. Everest and became the first couple in history to scale the fabled Seven Summits. What made

their achievement all the more remarkable was that Susan was not a mountain climber, but a high-powered Fortune 500 executive who had never hiked or climbed until she met Phil at the age of 36. Phil, a professional mountain guide who was the first American to summit Everest from its treacherous north face, had climbed his whole life with Crohn's disease, a chronic, debilitating illness. Adding to these challenges, just before their final summit, Phil was diagnosed with colon cancer, and the resulting surgeries and complications were expected to end his career. This is Susan and Phil's story: a tale of love set in the mountains, a story of triumphal highs and devastating lows in quest of a seemingly impossible dream.

Lost Restaurants of Tulsa Rhys A. Martin, 2018-12-03 In the early twentieth century, Tulsa was the Oil Capital of the World. The rush of roughnecks and oil barons built a culinary foundation that not only provided traditional food and diner fare but also inspired upper-class experiences and international cuisine. Tulsans could reserve a candlelit dinner at the Louisiane or cruise along the Restless Ribbon with a pit stop at Pennington's. Generations of regulars depended on family-owned establishments such as Villa Venice, The Golden Drumstick and St. Michael's Alley. Join author Rhys Martin on a gastronomic journey through time, from the Great Depression to the days of Liquor by the Wink and the Oil Bust of the 1980s.

HCI Outdoors: Theory, Design, Methods and Applications D. Scott McCrickard, Michael Jones, Timothy L. Stelter, 2020-10-19 Advances in network connectivity, power consumption, and physical size create new possibilities for using interactive computing outdoors. However, moving computing outdoors can drastically change the human outdoor experience. This impact is felt in many kinds of outdoor activities such as citizen science, personal recreation, search and rescue, informal education, and others. It is also felt across outdoor settings that range from remote wilderness to crowded cities. Understanding these effects can lead to ideas, designs and systems that improve, rather than diminish, outdoor experiences. This book represents the current results emerging from recent workshops focused on HCI outdoors and held in conjunction with CHI, GROUP, UbiComp, and MobileHCI conferences. Based on feedback at those workshops, and outreach to other leaders in the field, the chapters collected were crafted to highlight methods and approaches for understanding how technologies such as handhelds, wearables, and installed standalone devices impact individuals, groups, and even communities. These findings frame new ways of thinking about HCI outdoors, explore logistical issues associated with moving computing outdoors, and probe new experiences created by involving computing in outdoor pursuits. Also important are the ways that social media has influenced preparation, experience, and reflection related to outdoor experiences. *HCI Outdoors: Theory, Design, Methods and Applications* is of interest to HCI researchers, HCI practitioners, and outdoor enthusiasts who want to shape future understanding and current practice related to technology in every kind of outdoor experience.
