Green Obsession Stefano Boeri Architetti, 2021-12-09 Green Obsession traces the long path that architect Stefano Boeri and his studio - Stefano Boeri Architetti - have followed in the last fifteen years of practice, aiming at the redefinition of the relationship between city and nature. The book follows a discursive thread, alternating dialogues and scientific essays by some of the main protagonists who have contributed to widening the perspective on this subject, helping to raise awareness while protecting the world and its biodiversity. Cities have contributed for centuries to the promotion of some of humanity's greatest ideas, we must now urgently include them as among the principal players in the environmental debate and at the forefront of any policy tackling and countering - possibly reversing - climate change. Nevertheless, even today one of the most significant technologies capable of absorbing CO2 and restoring our environment is photosynthesis. Planting trees, in addition to protecting existing natural areas and biodiversity, together with de-carbonization, renewable energies, digitalization, smart mobility and the circular economy could be the set of strategies necessary to tackle climate change. Today the effects of the Anthropocene age are ever more visible, changing our environment and affecting every species that lives within it. Green Obsession offers a path to be taken, a hard but still necessary paradigm shift - even for architecture and urbanism - that aims to give a voice to this much needed ecological transition. This book aims to unveil the processes and the complexity involved in the search for a new kind of urbanism, while raising questions and opening old wounds related to the relationship between the human species and Nature and finally putting these fragments together to create a portrait of our era. We need to conceive cities as new green catalysts. Now more than ever, it is essential to act together as separate individuals and professionals, joining the cause as members of the global community with a shared environmental strategy. We all have to open the era of a new alliance between Nature and City. With Contributions from Emanuele Coccia, Jane Goodall, Paul Hawken, Cecil Konijnendijk, David Miller, Harini Nagendra, Giuseppe Sala and Giorgio Vacchiano.

Stress in the American Workplace Donald T. DeCarlo, Deborah H. Gruenfeld, 1989 Explores the impact of stress on the workplace...and of the workplace on stress.

Arson for Profit Barry Zalma, 2018-01-19 This story is based on a real case involving a member of Russian/Armenian organized crime, real insurers, investigators, lawyers, fire fighters, and insurance brokers. The names, descriptions, and identities of the people involved have been changed to protect both the guilty and the innocent. The report to the US Senate,

after this case was decided by the California Courts, reveal that the threats made on MOM and lawyer Hazan were real and they are lucky that the threats were never fulfilled. The person identified in this story as Levonyan was described to the US Senate as the leader of a Russian/Armenian organized crime ring. It is important to take seriously threats from criminals. Insurance fraud and arson-for-profit are not victimless crimes. They are crimes of violence that cost everyone who lives in the U.S.]
