German Medical Data Sciences 2021: Digital Medicine: Recognize - Understand - Heal R. Röhrig,T. Beißbarth,J. König,2021-10-14 Digitization offers great potential – especially in medicine. Cross-domain and cross-institutional linkage, big data, artificial intelligence and robotics can all help to improve research and care, but they also pose new challenges to all those involved. This book presents the joint proceedings of the GMDS (German Medical Data Sciences) and TMF (its

Technology, Methodology and Infrastructure platform), held entirely online from 26 – 30 September 2021 as a result of restrictions due to the Coronavirus pandemic. This joint event addresses the opportunities and risks of using new information technologies in medicine, as well as the resulting requirements for data protection, data security and ethics. Methodological challenges associated with the preparation, evaluation and interpretation of data volumes which constantly increase in type and scope in the course of digitization are also examined in detail. The 25 papers included here are divided into 5 sections: editorials; artificial intelligence and clinical decision support systems (CDSS); data integration and interoperability; human computer interaction; and software systems and frameworks, and the topics covered are very diverse, ranging from disease detection using retinal imaging, through data management and sharing, to interactive web applications. Providing an overview of regional research and developments in the field, the book will be of interest to all those working in health technology and medical informatics; researchers and practitioners alike.

She Who Watches Patricia H. Rushford, Harrison James, 2006-04-29 A senator's family has been threatened--and now one of them is missing. Can Mac and Dana find Sara before it's too late? The senator had raised this niece as his own daughter. So when she doesn't return home and her abandoned car is found in a parking garage, it alarms not only the family

but law enforcement agencies throughout the Northwest. The only clue: a set of menacing letters sent to the senator's office. Now it's up to Oregon state police officers Mac McAllister and Dana Bennett and their team to find a lead . . . or to find Sara . . . before they find her dead. The case will be made harder because not only must they share evidence with the FBI but navigate stand-offs between the government, Native American tribal customs, political pride, family intrigue . . . and even their own hearts. Meanwhile, two questions loom that, if answered, could provide the missing link in their investigation: First, is Sara a victim, or a dissatisfied wife who has run away? And second, is politics being used to mask a sordid truth, or has someone's passion for a cause possibly led them to violence?

Soulless Rozlan Mohd Noor, 2022-07-05 A death no one should suffer and an investigator who won’t give up—for fans of John Burdett, Ian Rankin, and Michael Connelly. Early morning in Jalan Alor, one of the city’s red-light and tourist hotspots controlled by the Triads. A junkie’s scream of horror and the commotion that follows brings down the police, first a patrol car, and then, after what the officers see, Inspector Mislán and Detective Sergeant Johan from Special Investigations. The body in the duffle bag had been dumped in a back alley. The junkie who found the bag thought he’d hit the jackpot. The rats probably thought the same. But it was acid that took the young woman’s face and burned the flesh on her fingers, and something unknown caused the marks on her skin of what appears to be torture. With no papers, no fingerprints, no face, and a body removed from the original crime scene, Mislán must build his case and find who committed this atrocity. The woman’s body seems to have been a message. But by whom? For whom? This unsettling case will take Inspector Mislán and his team from Kuala Lumpur to the Land of Smiles, and from a dark alley to the dark web and a place where humans are

made soulless.

Toy Cemetery William W. Johnstone,2016-05-24 Toy Land There they were, just as he remembered. Rooms and rooms of them. Dolls. Toy soldiers. Clowns. When he was a kid, his Aunt Cary's toy collection should have been a child's paradise. But instead he had been terrified by their staring eyes . . . Toy Hell Twenty years had passed since Jay Clute set foot in Victory, Missouri. Twenty years of trying to forget that night--that hellish night of unimaginable horror. Now his Aunt Cary was dead, and it's all been left to him--the house, the furniture, every last piece of her toy collection. And nothing has changed. Not the

painted-on dolly smiles or the garish clown colors--or the tiny hands dripping with bright red blood . . .

Capturing Digital Media Thomas J. Connelly,2019-04-18 Why are filmmakers such as J.J. Abrams, Christopher Nolan and Quentin Tarantino continuing to shoot their movies on celluloid in the digital age of cinema? Are these filmmakers choosing the photochemical process of celluloid images purely for aesthetics purposes? Or could their preference for celluloid have something to do with analogue's intimate connection to the subject of lack and desire? *Capturing Digital Media: Perfection and Imperfection in Contemporary Film and Television* examines the relationship between the perfection of the digital form and the imperfection of the human subject in recent film and television. Using a number of key psychoanalytic terms and new media concepts, *Capturing Digital Media* shows that the necessity of imperfection is where we locate the human subject of desire within the binary logic of the digital. It argues that the perfection of digital must be wounded by forms of imperfection in order to make media texts such as film and television desirable. But even as films and television texts incorporate forms of imperfection, digital perfection remains a powerful attraction in our engagement with moving images, such as high definition screens, spectacular digital effects, and state-of-the-art sound.
